

# CRANE

2025 ANNUAL REPORT

# DEAR SHAREHOLDERS,

I am proud to report that 2025 for Crane was another year of outstanding accomplishment and outperformance across our businesses. We were able to deliver solid results despite a mixed global economic environment, driving record segment sales and margins while continuing to innovate and invest for long-term profitable growth. Our agility and discipline once again helped us deliver our strong performance and reinforces my confidence in the strength and resilience of Crane's global team and technology-focused portfolio.

Taken together, our 2025 financial results are a clear reflection of exceptional execution under a common business system and a values-based culture, both of which are rooted in our founder R.T. Crane's legacy of operational excellence, innovation, and an unwavering commitment to the highest ethical standards.

## **Broad-Based Strength at Aerospace & Advanced Technologies\***

At Aerospace & Advanced Technologies, 2025 sales increased 12% compared to 2024, including a slight benefit from acquisitions. Segment operating margin increased 260 basis points to 25.0% in 2025, and adjusted segment operating margins increased 200 basis points to a record 25.2% in 2025.

These results are the product of the strength of our innovation and technical capabilities, our deep customer relationships, and our ability to consistently execute at the highest level. Our focus on partnering with customers early in the development of new programs gives us the ability to create innovative, industry-leading solutions, and positions us for years of growth.

In 2025, we continued to capitalize on opportunities stemming from the strong defense markets,

as well as the commercial ramp-up at Boeing and Airbus and ongoing strength in the commercial aftermarket. In addition to the financial performance throughout 2025, the segment continues to secure new business, with backlog reaching an all-time high of just over \$1 billion at the end of the year. We are confident that we are positioned to win in this business, and we believe our successful pursuit of new opportunities will support above-market growth through this decade and beyond.

## **Excellent Execution and Continued Portfolio Enhancement at Process Flow Technologies\***

At Process Flow Technologies, sales increased 5% compared to 2024 driven by core sales growth of 2%, a contribution from the Cryoworks and Technifab acquisitions of 2%, and slightly favorable foreign exchange. Segment operating margin

\*Please see non-GAAP Financial Measures tables for details.

reached a record level of 21.0%, up 90 basis points compared to 2024, with adjusted segment operating margin at a record 21.5%, up 60 basis points compared to 2024. This record margin performance for the segment reflects strong execution, accretive benefits from new products, and disciplined pricing, all of which enabled us to offset ongoing macro challenges.

Moreover, 2025 results reflect the successful strategy to reposition our portfolio over the past decade around core end markets. Specifically, we have focused our business on the markets in which Crane has the strongest competitive position, driven by technology differentiation, the power of our ability to provide new products and innovative solutions to customers, and our disciplined and nimble approach to balancing production levels and pricing as end market conditions changed. In 2025, we capitalized on our strength across the pharmaceutical, cryogenics, power and water end markets. While the

chemical markets have been challenged, we continue to drive performance through securing targeted opportunities.

### **Business Expansion Through Value-Creating Acquisitions**

A critical element of the strategic rationale for the 2023 separation of the Crane businesses was the objective to have enhanced flexibility to pursue accretive M&A opportunities in our core growth markets. We have had an active and successful few years closing on six acquisitions since the April 2023 separation.

Today, Crane is a streamlined and more focused business than ever before, better positioned to tailor investment and capital allocation strategies to our two strategic growth platforms of Aerospace & Advanced Technologies and Process Flow Technologies.

We have a proven track record of creating value through acquisitions, and our recent additions are no exception:

- We successfully integrated Vian Enterprises into our Aerospace & Advanced Technologies business, exceeding our return expectations within the first year and significantly expanding our leading Fluid and Thermal Management capabilities.
- Within Process Flow Technologies, the build out of our cryogenics portfolio through the acquisitions of Cryoworks and Technifab continues to drive above market growth and share gains in an exciting growth market.
- More recently, we completed the largest acquisition in Crane's history when we acquired three premier sensing businesses, Druck, Panametrics, and Reuter Stokes, from Baker Hughes.

In Aerospace & Advanced Technologies, the addition of the Druck brand based outside Leicester, UK, strengthens our pressure sensing capabilities across critical aerospace applications and further extends our technological capabilities and market reach.

In Process Flow Technologies, the addition of the Reuter-Stokes brand based in Twinsburg, Ohio, doubles the size and capabilities of the Crane Nuclear business with sophisticated radiation sensing and detection technology, enabling us to better capitalize on the renewed global investment in nuclear energy.

Additionally, the Panametrics business based in Shannon, Ireland, adds pioneering ultrasonic flow technologies to the portfolio for measurement and analysis used across essential industrial processes. Together, these businesses enhance our product portfolio and technology capabilities in key target markets including aerospace & defense, nuclear, industrial process sensing, and water and wastewater.

- And entering 2026, we also announced the acquisition of optek-Danulat based in Essen, Germany, the leader in inline process control optical measurement solutions for critical in-process analytics in Biopharma and Pharma which use various light frequency sources to measure extremely precise process characteristics.

Integration is well underway for all of our most recent acquisitions. Combined with the power of the Crane Business System, we expect them to be increasingly accretive to our financial profile. Looking ahead, our strategic M&A pipeline remains robust across both business segments, and we have the financial flexibility to pursue significant additional opportunities in our funnel that we are confident will meet our financial return standards.

## 2026 and Long-Term Outlook

Entering 2026, Crane has never been better positioned for the future.

Our organic growth profile continues to strengthen, led by relentless technology innovation and our differentiated product portfolio which we continue to enhance through our strategic positioning and customer focused new product development. At the same time, our operational performance continues to reflect our commitment to both exceptional execution and discipline across all aspects of our business. Combined, we are well-poised for sustainable profitable growth in 2026 and beyond.

Capital deployment towards M&A remains a key priority for Crane into 2026, with a strong balance sheet to support our efforts. We remain highly focused on enhancing our profitable inorganic growth profile with value-added capital deployment given our historical success generating strong returns from M&A and proven shareholder value.

As we look further ahead, we are confident in our 4% to 6% long-term core sales growth rate. Coupled with continued margin expansion driven by operating leverage on higher volume, this should lead to double-digit average annual core operating profit growth, with additional upside from capital deployment, into the future.

## Strategic Evolution: A Transition Toward the Future

In 2004, I was fortunate enough to be attracted to join Crane, influenced by the visionary leadership of Eric Fast, Crane's CEO at that time, and Shell Evans, Crane's Chairman and previous CEO, both of whom I learned so much from over the years. At that time, the company was continuing its successful evolution from a diversified holding company to a more focused, integrated operating company, while also deploying world class approaches for continuous improvement and execution. I am incredibly proud of our consistent success over these many years and the strength of the portfolio now and for the future.

After 22 years with Crane and 12 as its CEO, it is time to pass the baton to the next generation of leadership within Crane from a position of strength. I am proud to transition the CEO role to our Chief Operating Officer, Mr. Alex Alcalá at this year's annual shareholder meeting. This has been a smooth and well-planned transition, and investors can take confidence knowing that it supports Crane's trajectory for decades to come. Alex has progressed through Crane in many leadership positions and has earned the respect of our global associates for his intelligence, critical thinking, strategic deployment, and laser focus on effective execution across all functions.

While I am transitioning out of the CEO role, this is not goodbye. At the request of the Board of Directors, I will stay on for a transitional period as Executive Chairman to assist Alex in the continued strategic evolution at Crane, as well as capital deployment decisions to accelerate Crane's profitable growth. I look forward to supporting Alex on our continued path forward in driving success and profitable growth for our customers, our associates, our communities, and ultimately our shareholders, all of whom benefit from our mutual success.

## Culture + "The Machine" = Results

How lucky I have been to have the opportunity to lead a 170-year-old institution with the awesome responsibility of continually reinventing our present and our future, while also staying true to our past.

Richard Teller Crane founded this company on July 4th, 1855, starting a one-man foundry and had the maturity and vision at a young age to pen this incredible resolution that still guides us to the day.

**I am resolved to conduct my business in the strictest honesty and fairness; to avoid all deception and trickery; to deal fairly with both customers and competitors; to be liberal and just toward employees; and to put my whole mind upon the business.** ”

Brilliant really. Timeless. Even more relevant in today's global environment than in 1855. Contrast this with some companies that adopt the latest fad of management consulting "feel good" principles or approaches. Shifting with every new leader. Mission statements. Values statements. Vision statements. Purpose Statements. And on and on and on. Running from one fad to another. Saying "everything" and yet, somehow saying nothing. At Crane we simply refer to the R.T. Crane resolution. We keep it simple. Straightforward. Timeless. Focused. Ethics and integrity remain at the core, and we treat others as we wish to be treated. We also have very high expectations for leaders of our businesses.

R.T. Crane had a reputation for being very demanding and tough, but very fair, and he cared deeply for his associates. We remain that way today. R.T. Crane established pioneering philanthropic foundations over 100 years ago that survive to this day for the betterment of Crane associates in need, as well as the communities in which we work. Incredibly forward thinking for his time and pioneering in so many ways. Crane has maintained this culture to this day. We have not "followed the herd" of the latest consulting fads or buzzwords, but rather, followed on our own path of leadership and management expectations and approach that is right for us. When many others embraced ESG nomenclature, we chose to make it relevant

and meaningful to Crane by reinforcing our history, core beliefs, and a respect for all; at Crane, our longstanding philanthropy, sustainability and equality initiatives were most important, so we called it that—Philanthropy, Sustainability, and Equality, or “PSE.” We approached diversity in the workplace and being inclusive as extensions of who we already were and have been. Balanced. Fair. Just. We have maintained our approach in a time when many others change direction over and over based on short-term pressures, losing credibility with their associates and stakeholders.

Internally, we recognize that as leaders, Crane is not an easy place to work—like R.T. Crane we too are tough, demanding, and never satisfied with our performance or current state, all of which constantly pushes us to drive improvement for the future. Constantly raising the bar on ourselves while staying grounded in fairness, respect, and the ethics of always conducting business “the right way” as embodied in the R.T. Crane resolution. We expect our leaders to “go to Gemba”, or where the work is actually performed, to focus on improving the work and processes of our associates. A relentless pursuit of eliminating waste, variation and overburden on our associates to truly try to make life easier to successfully satisfy our customers. We are far from perfect, but we never stop striving for perfection. And with our frank and transparent communication style, we try to cut through bureaucratic layers and hear the brutal truth at all times. We “make it ugly” so we deal with the hard facts at hand together.

The more I have studied the history and legacy of R.T. Crane’s leadership from 1855 to 1914, it’s uncanny how many parallels and similarities there are to our existing approach today. R.T. Crane was a pioneer in his day for creating business system processes across all functions of the organization and he wrote extensively on it. He pushed himself into new technologies, product lines, geographies, and markets, continuously seeking new customer solutions and growth. New businesses. Acquisitions. A pioneer in research and development and writing

technical papers on the mechanical properties of the flow of fluids across all processes. Meanwhile, he uniquely held a view that eschewed higher education as in his words were a less than meaningful endeavor that produced individuals of self-importance with few meaningful and relevant skills. R.T. Crane valued those who understood learning by doing with their hands and minds. Understanding how the work is done and striving to improve these methods in practice versus theory.

This is the culture that has existed for 170 years across generations. A resilience, drive and determination throughout the organization and our people. A rich history and legacy that grounds us in who we are while embracing the best of world class execution in our present Crane Business System. From excellence in strategy, to strategy deployment, our intellectual capital processes focused on our associates, to a maniacal and prescriptive approach to daily execution that focuses on cadence and discipline and instructs our leaders in how to drive results for all stakeholders. Our CBS “Machine.” Alive. Well oiled. Meshing and geared appropriately for the long term. Finely tuned, the “Machine” will continue to deliver under the visionary leadership of Alex Alcala, of that I am certain. This level of consistency in our approach is what will continue to differentiate Crane in the marketplace. Performance over decades and generations to come.

## **Continued Transformation and Growth**

As I reflect on the past 12 years as CEO, it has been a remarkable journey of value creation. Continuing to refine the strategic journey Shell Evans undertook as CEO in 1984, and that Eric Fast continued in 2001, to further integrate our diverse portfolio into fewer, larger, stronger, and more focused entities and to gain true global scale in core strategic markets. Ongoing portfolio shaping, adding through M&A, and selectively divesting when needed. This approach also led to the 2023 strategic separation of Crane Company and Crane NXT, that unlocked more than \$9 billion of value for Crane

shareholders.<sup>1</sup> The separation has also allowed us to focus, like never before, on our two strategic-growth platforms of Process Flow Technologies and Aerospace & Advanced Technologies. And during the full course of my 12-year tenure as CEO, the total annualized compound shareholder return on Crane stock was roughly 13.3% better than the comparable return on the S&P 500, with Crane stock delivering a 15.0% annualized return vs. the S&P 500's return of 13.9%.<sup>2</sup>

Our strong performance since the separation underscores our consistent and disciplined execution against our commitments and our long-term value-creation strategy. We continue to demonstrate durable growth, operating excellence, and meaningful financial flexibility, supporting continued—

- Core sales growth of 4% to 6%, exceeding the high end of this range in 2025.
- Core operating leverage between 35% and 40%, reflecting our continued focus on productivity and operational efficiency.
- Additional upside driven by strategic capital deployment, further enhancing shareholder value.

In my last letter to shareholders, I wish to once again thank our customers for their trust in Crane. We work incredibly hard every day not to lose that trust and partnership. To our present associates and

those many who have been part of our past, thank you all for being part of Crane and for “being Crane”. I will miss going to “Gemba” and visiting our front-line associates who we know add the most value to Crane and our customers. Engaging with our associates and having a bit of fun even while relentlessly raising the bar. And my thanks to our fantastic Board of Directors, who have helped guide Crane and myself on the journey, as well as the special relationship held with Shell Evans as previous Chairman until 2020, and now Jim Tullis as Chairman from 2020 to 2024 and presently our Lead Independent Director. The combined wisdom of both I hold in the highest esteem. And a huge thanks to our shareholders who believe in our team and businesses and who continue to benefit significantly from their trust in us on the continuing journey.

Enough of the sentimentality. Let's go Crane team, back to relentless fundamentals, raise the bar higher, execute, and step it up to accelerate in 2026 and beyond....

Sincerely,

**Max H. Mitchell**

Chairman, President and Chief Executive Officer

<sup>1</sup>\$9.0 billion in equity value (market capitalization) reflects comparison of pre-separation Crane Holdings, Co.'s (“Crane Holdings”) equity value on December 31, 2023, to the combined equity value of both post-separation companies (Crane Company and Crane NXT, Co.) on December 31, 2025, an increase of 157%.

<sup>2</sup>Analysis for the period January 31, 2014, the day that Max Mitchell assumed the role of CEO, through January 31, 2025. Assumes reinvestment of all dividends, and assumes that the value of Crane NXT, Co. shares at the time of the April 3, 2023 separation transaction are reinvested in Crane Company shares.

# AEROSPACE & ADVANCED TECHNOLOGIES

**Crane's Aerospace & Advanced Technologies segment harnesses proprietary technologies and breakthrough designs to redefine what is possible—solving the most complex challenges in harsh environments and mission-critical applications where absolute certainty of performance and reliability are essential for success.**

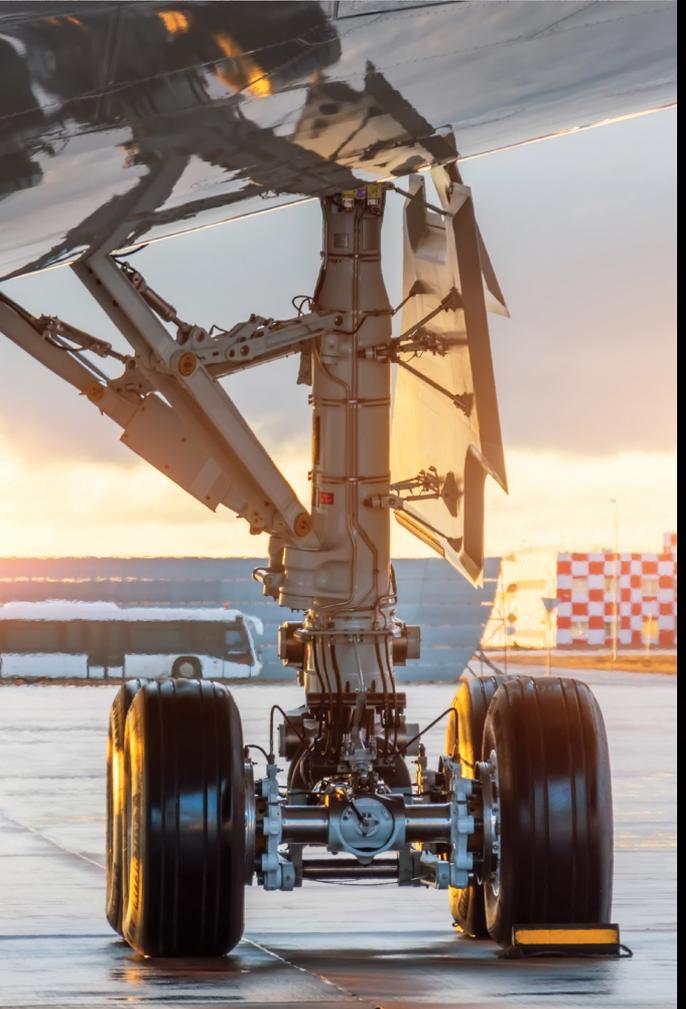

**Our capabilities include solutions incorporating unidirectional and bidirectional power conversion, electric and hydraulic actuation systems, motion and fluid flow control systems, advanced sensing, fluid and thermal management components and systems, and signal processing. Crane has pioneered many of the foundational technologies that define these markets today, supported by a long track record of performance, reliability, and innovation.**

Over the past decade, this segment has supported an unprecedented volume of engineering activity driven by major new single-aisle aircraft programs—including the Boeing 737 MAX, Airbus A320neo, Embraer E2, and COMAC C919. With these platforms now fully developed and in production, our core Crane Aerospace & Electronics business is leveraging its strong foundation of capabilities to accelerate innovation for the next generation of commercial and military aircraft, radar systems, space applications, and ground-based defense platforms. Across these markets, we anticipate significantly higher levels of electrification and increasing demand for advanced enabling technologies.

Our engineering investments continue to focus on capabilities that support this shift toward greater electrification. Key areas include high-power bidirectional power conversion, liquid cooling and advanced thermal management, long-range wireless sensing, next-generation pumps and fuel-gauging systems, aircraft anti-skid brake control technologies, and advanced integrated microwave solutions.

Our progress is demonstrated through numerous technology development and commercial milestones. In Defense Power, we started initial production of high-power conversion systems supporting five major ground-based AESA radar platforms—where our technology has now become the industry standard. We also secured positions on multiple U.S. Army demonstrator programs for next-generation hybrid-electric tactical and combat vehicles, enabled by our leadership in bidirectional DC-DC power conversion. In addition, we continue to win a broad range of demonstrator opportunities based on our advanced capabilities, including anti-skid brake control for Next Generation Air Dominance platforms, weight-reducing wireless sensing technologies, ultra-precise fuel-flow and pressure monitoring in harsh environments, extreme-performance engine lubrication pumps and systems, and liquid-cooling solutions supporting pure electric, hybrid-electric, and fuel-cell based propulsion systems.

From a market standpoint, in 2025, our commercial aerospace business benefited from the continued recovery in global air traffic, rising aircraft production

rates, and accelerating growth driven by Crane’s sustained commitment to technology investment. Maintaining these investments throughout the past decade has positioned us to capitalize on expanding addressable markets and powerful secular trends—especially the industry-wide shift toward electrification. These investments continue to secure significant opportunities spanning the next generation of commercial aviation and defense platforms.

As we enter 2026, we have renamed the segment **Aerospace & Advanced Technologies**, transitioning from Aerospace & Electronics. This new name better reflects our identity today and our long-term strategic direction. While our focus remains on proprietary, highly differentiated technologies—most with sole-sourced positions—we are expanding our technical breadth and exploring adjacent end markets where our capabilities offer similar value.

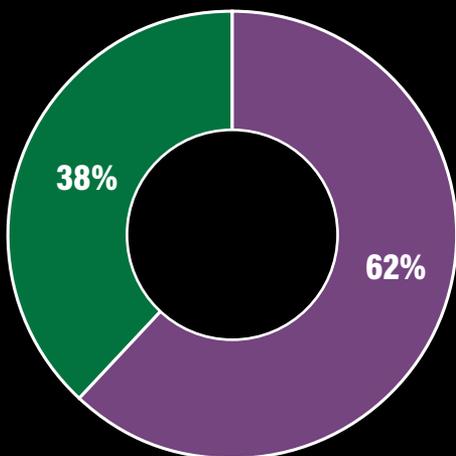

The January 1, 2026, acquisition of Druck’s complementary product line further enhances our pressure-sensing capabilities across critical applications, including aircraft engine monitoring and hydraulic systems, with strong positions on both single-aisle and widebody platforms as well as

environmental control systems. Druck also extends our reach into ground-based test and calibration equipment for aerospace and select industrial markets, leveraging the same best-in-class sensing technologies.

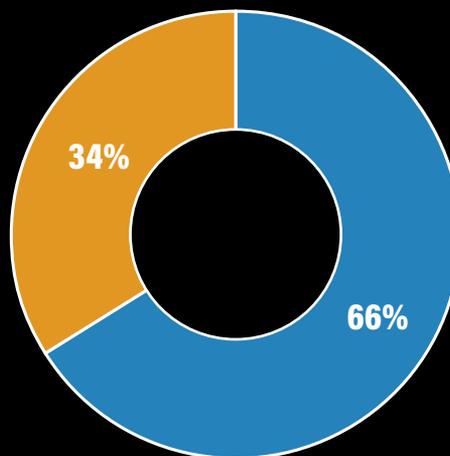

Based on our current capabilities and targeted technology advancements, we believe that Aerospace & Advanced Technologies is positioned to deliver an above-market compound annual core sales growth rate of 7% to 9% over the next decade, with a clear path for ongoing adjusted operating margin expansion. In 2025, our core Aerospace & Electronics business performed ahead of these long-term objectives, delivering 12% sales growth and adjusted segment margins of 25.2%, an increase of 200 basis points from the prior year. As we enter 2026 with the addition of Druck, our year-end combined record backlog for Aerospace & Advanced Technologies is nearly \$1.2 billion, further reinforcing our confidence in achieving these goals.

# PROCESS FLOW TECHNOLOGIES

**Crane Process Flow Technologies delivers highly engineered, proprietary solutions designed to ensure exceptional reliability in mission-critical applications operating in the world's most demanding environments—from cryogenics and nuclear operations to pharmaceutical production, chemical processing, and water management. As a global leader in industrial fluid-control technologies, the business provides a comprehensive portfolio of valves, pumps, lined pipe, and sensing instrumentation.**

**Our products are recognized for their outstanding performance in severe-service conditions where reliability and safety are paramount, supported by a long legacy of innovation across every aspect of fluid-flow management. Key end markets include chemical processing, water and wastewater, pharmaceuticals, cryogenics, and a broad range of industrial applications, where customers rely on Crane for consistent, expert-engineered solutions that enhance operational performance and longevity.**

Over the past decade, the Process Flow Technologies (PFT) segment has intentionally repositioned its portfolio toward higher-growth, less-cyclical, and higher-margin markets, with a strategic focus on the Chemical, Water & Wastewater, Pharmaceutical, Cryogenics, and Industrial Automation sectors. These end markets are expected to continue outperforming the broader industrial economy, supported by powerful secular trends including sustainability and clean-energy investment, aging infrastructure, more stringent wastewater regulations, and rising health-care demand driven by an aging global population. Today, these markets represent more than 60% of PFT sales—an increase achieved through sustained product innovation, commercial investment, and the attractive growth profile of these industries.

A critical driver of this transformation is the continued expansion of our product portfolio. On January 1, 2026, we advanced this strategy with the acquisitions of Panametrics, optek-Danulat, and Reuter-Stokes. Panametrics adds advanced

 **Panametrics**

 **Reuter-Stokes**

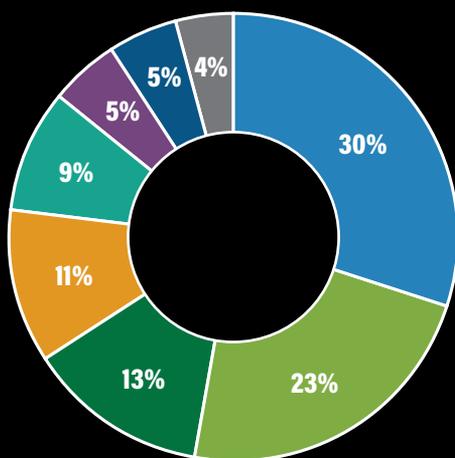

ultrasonic flow meters and precision moisture analyzers, enabling accurate measurement of liquids and gases across applications such as cryogenic gas storage, LNG transportation, wastewater treatment, and chemical and petrochemical processing. Optek-Danulat brings market-leading inline optical sensing solutions for biopharmaceutical, pharmaceutical, and other demanding process environments. Reuter-Stokes significantly enhances our nuclear offering, doubling the size of our business in that sector and adding industry-leading radiation-sensing and detection technologies used in nuclear plant operations and homeland security. Collectively, these additions further accelerate the transition of the PFT portfolio toward higher-growth, higher-margin, and less-cyclical end markets.

With more than 170 years of engineering expertise, Crane has a long legacy of leadership in fluid handling technologies—beginning with the 1942 publication of the Flow of Fluids Handbook (TP410), still recognized today as a definitive industry reference. Building on this foundation, we continue to deliver proprietary technologies, precision engineering, and advanced material-science solutions that address our customers’ most complex challenges in mission-critical applications. These include some of the harshest and most hazardous environments, such as cryogenics, nuclear operations, pharmaceutical production, chemical and petrochemical processing, and wastewater systems.

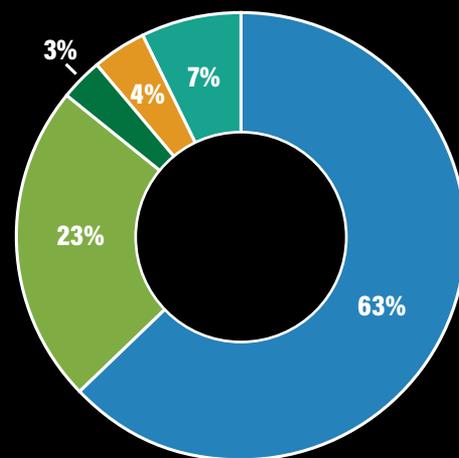

This ongoing portfolio repositioning and the strength of our defensible technology offerings were evident in our 2025 performance. Despite elevated macroeconomic headwinds in select end markets, PFT delivered 5% core sales growth and an 8% increase in adjusted operating profit, achieving a record adjusted operating margin of 21.5%, up 60 basis points year over year. These results reinforce our confidence in the long-term strategy. Based on our current market exposure and product portfolio, we expect the business to deliver long-term sales growth of approximately 3% to 5%, with continued margin expansion supported by operating leverage of approximately 30% to 35% on incremental core sales growth.

# NON-GAAP FINANCIAL DATA

## FORWARD-LOOKING STATEMENTS—DISCLAIMER

This annual report contains forward-looking statements within the meaning of the federal securities laws.

Forward-looking statements include all statements that are not historical statements of fact and those regarding our intent, belief, or expectations, including, but not limited to: statements regarding Crane Company's portfolio composition; benefits and synergies of the Druck, Panametrics and Reuter-Stokes, and optek-Danulat acquisitions; leadership transition plans; strategic and competitive advantages of Crane Company; future financing plans and opportunities; and business strategies, prospects and projected operating and financial results. We caution investors not to place undue reliance on any such forward-looking statements.

These statements are based on management's current expectations and beliefs, reflect management's judgment as of the date of this report, and are subject to a number of risks and uncertainties that could lead to actual results differing materially from those projected, forecasted or expected. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we can give no assurance that our expectations will be attained. Crane Company assumes no (and disclaims any) obligation to revise or update these forward-looking statements to reflect future events or circumstances.

Risks and uncertainties that could cause actual results to differ materially from our expectations include, but are not limited to, the risks described in Item 1A, "Risk Factors", of Crane Company's Annual Report on Form 10-K for the year ended December 31, 2025. Readers should carefully review these risk factors, Crane Company's financial statements and the notes thereto, and any other documents Crane Company and its subsidiaries file from time to time with the Securities and Exchange Commission. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements.

## NON-GAAP FINANCIAL MEASURES

Crane Company reports its financial results in accordance with U.S. generally accepted accounting principles ("GAAP"). This annual report includes certain non-GAAP financial measures, including adjusted operating profit and adjusted operating margin, that are not prepared in accordance with GAAP. These non-GAAP measures are an addition, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to operating income, net income or any other performance measures derived in accordance with GAAP. We believe that these non-GAAP measures of financial results (including on a forward-looking or projected basis) provide useful supplemental information to investors about Crane Company. Our management uses certain forward-looking non-GAAP measures to evaluate projected financial and operating results. However, there are a number of limitations related to the use of these non-GAAP measures and their nearest GAAP equivalents. For example, other companies may calculate non-GAAP measures differently or may use other measures to calculate their financial performance, and therefore our non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

We believe that each of the following non-GAAP measures provides useful information to investors regarding the Company's financial conditions and operations:

"Adjusted Operating Profit" and "Adjusted Operating Profit Margin" add back to Operating Profit and Operating Profit Margin items which are outside of our core performance, some of which may or may not be non-recurring, and which we believe may complicate the interpretation of the Company's underlying earnings and operational performance. These items include income and expense such as: transaction related expenses, repositioning related (gains) charges. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.

For the year ended December 31 (\$ in millions, except per share data)

Totals may not sum due to rounding.

# COMMITTEES

As of December 31, 2025, the Board of Directors of Crane Company had four standing committees, namely the Executive Committee, Audit Committee, Management Organization and Compensation Committee, and Nominating and Governance Committee.

Other than the Executive Committee, each committee is composed entirely of independent directors as defined by independence standards of the NYSE.

## EXECUTIVE COMMITTEE

This committee, which meets when a quorum of the full Board of Directors cannot be readily obtained, may exercise any of the powers of the Board of Directors, except for: (i) approving an amendment of the Company's Certificate of Incorporation or By-Laws; (ii) adopting an agreement of merger or sale of substantially all of the Company's assets or dissolution of the Company; (iii) filling vacancies on the Board or any committee thereof; or (iv) electing or removing officers of the Company.

## AUDIT COMMITTEE

This committee is the Board's principal agent in fulfilling legal and fiduciary obligations with respect to matters involving the Company's accounting, auditing, financial reporting, internal control, legal compliance functions, risk management and conflicts of interest. This includes oversight of the integrity of financial statements, authority for retention and compensation of the Company's independent auditors, evaluation of qualifications, independence and performance of the Company's independent auditors, review of staffing and performance of the internal audit function and oversight of the Company's compliance with legal and regulatory requirements.

## MANAGEMENT ORGANIZATION AND COMPENSATION COMMITTEE

This committee's responsibilities include recommending to the Board of Directors all actions regarding compensation of the Chief Executive Officer, approving the compensation of all other executive officers, reviewing the compensation of other officers and business unit presidents, reviewing director compensation, administering the annual incentive compensation plans and stock incentive plan, and reviewing and approving any significant changes or additions to the compensation policies and practices of the Company. This committee will provide the Chief Executive Officer with an annual performance review. It is also responsible for determining that a satisfactory system is in effect for development and orderly succession of senior managers throughout the Company.

## NOMINATING AND GOVERNANCE COMMITTEE

This committee is responsible for developing criteria for the selection of, and identifying, screening and recommending to the Board candidates for service as directors. It is responsible for sponsoring an annual self-assessment of the Board's performance as well as the performance of each committee of the Board. It is also responsible for and oversees corporate governance matters, including determining the independence of the Company's Board members, and their fitness for service on the Board's various committees, and includes recommending the assignment of Board members to committees and appointment of committee chairs.

## CRANE COMPANY DIRECTORS AND COMMITTEE ASSIGNMENTS AS OF DECEMBER 31, 2025

**Martin R. Benante** (2, 4)  
Retired Chairman of the Board and Chief Executive Officer  
Curtiss-Wright Corporation  
*Supplier of highly engineered products and services to commercial, industrial, defense, and energy markets*

**Sanjay Kapoor** (2, 3)  
Retired Executive Vice President and Chief Financial Officer  
Spirit AeroSystems, Inc.  
*Manufacturer of aerostructures for commercial airplanes, defense platforms, and business/regional jets*

**Ronald C. Lindsay** (2, 4)  
Retired Chief Operating Officer  
Eastman Chemical Company  
*Manufacturer of specialty chemicals, plastics, and fibers*

**Susan D. Lynch** (2)  
Retired Chief Financial Officer  
V2X  
*Builds solutions that integrate physical and digital environments across the national security, defense, civilian, and international markets*

**Ellen McClain** (2, 3)  
Former Chief Executive Officer and President  
Year Up United  
*Not-for-profit provider of job training services*

**Charles G. McClure, Jr.** (3, 4)  
Managing Partner  
Michigan Capital Advisors  
*Private equity firm investing in global automotive and transportation suppliers*

**Max H. Mitchell** (1)  
Chairman of the Board, President, and Chief Executive Officer  
Crane Company

**Jennifer M. Pollino** (1, 3, 4)  
Executive Coach and Consultant  
JM Pollino LLC  
*Executive Coach and business consultant*

**James L. L. Tullis** (1, 3)  
Chairman  
Tullis Health Investors, Inc.  
*Venture capital investments in the health care industry*

## EXECUTIVE OFFICERS OF CRANE COMPANY AS OF DECEMBER 31, 2025

**Max H. Mitchell**  
Chairman of the Board, President, and Chief Executive Officer

**Richard A. Maue**  
Executive Vice President and Chief Financial Officer

**Alejandro Alcalá**  
Executive Vice President and Chief Operating Officer

**Anthony M. D'lorio**  
Executive Vice President, General Counsel and Secretary

**Jason D. Feldman**  
Senior Vice President, Investor Relations, Treasury & Tax

**Marijane Papanikolaou**  
Vice President, Controller and Chief Accounting Officer

**Tamara S. Polmanteer**  
Executive Vice President, Chief Human Resources Officer

(1) Member of the Executive Committee

(2) Member of the Audit Committee

(3) Member of the Management Organization and Compensation Committee

(4) Member of the Nominating and Governance Committee

Registrant's telephone number, including area code: (203) 363-7300

Securities registered pursuant to Section 12(b) of the Act:

| Title of each class                   | Trading Symbol | Name of each exchange on which registered |
|---------------------------------------|----------------|---|
| <b>Common Stock, par value \$1.00</b> | <b>CR</b>      | <b>New York Stock Exchange</b>            |

Securities registered pursuant to Section 12(g) of the Act:

**None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15 (d) of the Act

Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "non-accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.:

(check one):

|                         |                                     |                           |                          |
|-------------------------|-------------------------------------|---------------------------|--------------------------|
| Large accelerated filer | <input checked="" type="checkbox"/> | Accelerated filer         | <input type="checkbox"/> |
| Non-accelerated filer   | <input type="checkbox"/>            | Smaller reporting company | <input type="checkbox"/> |
|                         |                                     | Emerging growth company   | <input type="checkbox"/> |

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Based on the closing stock price of \$189.89 on June 30, 2025, the last business day of the registrant's most recently completed second fiscal quarter, the aggregate market value of the voting common equity held by nonaffiliates of the registrant was \$9,272,583,912.

The number of shares outstanding of the registrant's common stock, par value \$1.00, was 57,674,297 at January 30, 2026.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of the registrant's Proxy Statement for the 2025 Annual Meeting of Stockholders are incorporated herein by reference in Part III of this Annual Report on Form 10-K to the extent stated herein. Such proxy statement will be filed with the Securities and Exchange Commission within 120 days of the registrant's fiscal year ended December 31, 2025.

## FORWARD-LOOKING INFORMATION

This Annual Report on Form 10-K contains information about Crane Company, some of which includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements other than historical information or statements about our current condition. You can identify forward-looking statements by the use of terms such as: “believes,” “contemplates,” “expects,” “may,” “will,” “could,” “should,” “would,” or “anticipates,” other similar phrases, or the negatives of these terms.

We have based the forward-looking statements relating to our operations on our current expectations, estimates and projections about us and the markets we serve. We caution you that these statements are not guarantees of future performance and involve risks and uncertainties. These statements should be considered in conjunction with the discussion in Part I, the information set forth under Item 1A, “Risk Factors” and with the discussion of the business included in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” We have based many of these forward-looking statements on assumptions about future events that may prove to be inaccurate. Accordingly, our actual outcomes and results may differ materially from what we have expressed or forecast in the forward-looking statements. Any differences could result from a variety of factors, including the following:

- The effect of changes in economic conditions in the markets in which we operate, including financial market conditions, end markets for our products, fluctuations in raw material prices, inflationary pressures, supply chain disruptions and access to key raw materials, tariffs, higher interest rates and the financial condition of our customers and suppliers;
- Economic, social and political instability, currency fluctuation and other risks of doing business outside of the United States;
- Competitive pressures, including the need for technology improvement, successful new product development and introduction, impact from pricing strategies and/or any inability to pass increased costs of raw materials, including tariffs, to customers;
- Our ability to successfully identify, value and integrate acquisitions and to realize synergies and opportunities for growth and innovation;
- The impact of commercial air traffic levels which are affected by a different array of factors including pandemic health concerns, general economic conditions and global corporate travel spending, or terrorism;
- A reduction in congressional appropriations that affect defense spending;
- The ability of the U.S. government to terminate our government contracts;
- Our ongoing need to attract and retain highly qualified personnel and key management;
- Information systems and technology networks failures and breaches in data security, personally identifiable and other information, non-compliance with our contractual or other legal obligations regarding such information;
- The impact of governmental regulations and failure to comply with those regulations;
- Adverse effects of changes in tax, environmental and other laws and regulations in the United States and other countries in which we operate;
- The outcomes of legal proceedings, claims and contract disputes;
- Adverse effects as a result of further increases in environmental remediation activities, costs and related claims; and
- Investment performance of our pension plan assets and fluctuations in interest rates, which may affect the amount and timing of future pension plan contributions.

**Part I**

Reference herein to “Crane,” “we,” “us” and “our” refer to Crane Company and our subsidiaries unless the context specifically states or implies otherwise. Amounts in the following discussion are presented in millions, except employee, square feet, number of properties, share and per share data, or unless otherwise stated.

## Information about our Executive Officers

| Name                               | Position  | Business Experience   | Age | Crane Executive Officer Since |

<sup>(a)</sup> CEO succession planned for April 27, 2026, as previously disclosed in our Form 8-K filed on January 26, 2026.

## Item 1. Business

### General

Crane Company has delivered innovation and technology-led solutions for customers since its founding in 1855. Today, Crane is a leading manufacturer of highly engineered components for challenging, mission-critical applications focused on the aerospace, defense, space and process industry end markets. The Company has two reporting segments: Aerospace & Advanced Technologies (“AAT”) and Process Flow Technologies (“PFT”).

We have been committed to the highest standards of business conduct since our inception in 1855 when our founder, R.T. Crane, resolved “to conduct my business in the strictest honesty and fairness; to avoid all deception and trickery; to deal fairly with both customers and competitors; to be liberal and just toward employees; and to put my whole mind upon the business.”

Our strategy is to grow earnings and cash flow by focusing on the development and manufacturing of highly engineered industrial products for specific markets where our scale is a relative advantage, and where we can compete based on our proprietary and differentiated technology, our deep vertical expertise, and our responsiveness to unique and diverse customer needs. We continuously evaluate our portfolio, pursue acquisitions that complement our existing businesses and selectively divest businesses where appropriate. We strive to foster a performance-based culture focused on productivity and continuous improvement, to attract and retain a committed management team whose interests are directly aligned with those of our shareholders, and to maintain a focused and efficient corporate structure.

We operate a comprehensive set of business processes, philosophies and operational excellence tools to drive continuous improvement throughout our businesses (collectively, the Crane Business System). Beginning with a core value of integrity, we incorporate “Voice of the Customer” learnings (specific processes designed to capture our customers’ requirements) and a broad range of tools into a disciplined strategy deployment process to continuously improve safety, quality, delivery, cost and growth. An embedded intellectual capital development process helps ensure that we attract, develop, promote and retain the right talent to drive continuity and repeatable results.

### Recent Transactions

#### *Acquisition of Druck, Panametrics and Reuter-Stokes*

On January 1, 2026, the Company completed the acquisition of the Druck, Panametrics and Reuter-Stokes brands (previously known as Precision Sensors & Instrumentation) from the Baker Hughes Company.

Druck, Panametrics and Reuter-Stokes are all leading providers of sensor-based technologies for aerospace, nuclear and process industries. The Druck brand is being integrated into the Aerospace & Advanced Technologies segment. Panametrics and Reuter-Stokes brands are being integrated into the Process Flow Technologies segment.

#### *Acquisition of optek-Danulat*

Also on January 1, 2026, the Company completed the acquisition of optek-Danulat (“Optek”). Optek is a leading provider of inline process control optical measurement solutions for biopharma, pharmaceutical and other demanding markets. Optek is being integrated into the Process Flow Technologies segment.

#### *Divestiture of Engineered Materials*

On January 1, 2025, the Company completed the sale of the Engineered Materials segment. The Engineered Materials segment met the criteria of being reported as a discontinued operation as of December 31, 2024. As a result, the related assets, liabilities and operating results of Engineered Materials are presented as discontinued operations and, as such, have been excluded from both continuing operations and segment results for all periods presented. Throughout this Annual Report on Form 10-K, unless otherwise indicated, amounts and activity are presented on a continuing operations basis. See Item 8 under Note 3, “Discontinued Operations,” in the Notes to Consolidated Financial Statements for additional details.

### *Other Acquisitions*

On November 1, 2024, the Company completed the acquisition of Technifab Products, Inc. ("Technifab"). Technifab is a leading provider of vacuum insulated pipe systems and valves for cryogenic applications. Technifab has been integrated into the Process Flow Technologies segment.

On May 1, 2024, the Company completed the acquisition of CryoWorks, Inc. ("CryoWorks"). CryoWorks is a leading supplier of vacuum insulated pipe systems for hydrogen and cryogenic applications. CryoWorks has been integrated into the Process Flow Technologies segment.

On January 2, 2024, the Company completed the acquisition of Vian Enterprises, Inc. ("Vian"). Vian is a global designer and manufacturer of multi-stage lubrication pumps and lubrication system components technology for critical aerospace and defense applications with sole-sourced and proprietary content on the highest volume commercial and military aircraft platforms. Vian has been integrated into the Aerospace & Advanced Technologies segment.

On October 4, 2023, the Company completed the acquisition of Baum lined piping GmbH ("BAUM"). BAUM is a German based company that designs, manufactures, and distributes lined piping products primarily focused on chemical and industrial end markets. BAUM has been integrated into our Process Flow Technologies segment.

### *Separation*

On April 3, 2023, Crane Holdings, Co. completed the Separation into two independent, publicly-traded companies, Crane NXT, Co. and Crane Company (the "Separation"), through a pro-rata distribution (the "Distribution") of all of the outstanding common stock of Crane Company to the stockholders of Crane Holdings, Co., which on April 3, 2023 was renamed "Crane NXT, Co." As a result of the Distribution, Crane Company became an independent public company. Our common stock is listed under the symbol "CR" on the New York Stock Exchange. Due to Crane Company's larger operations, greater tangible assets, greater fair value and greater net sales, in each case, relative to Crane NXT, Co., among other factors, Crane Company was treated as the "accounting spinoff" and therefore was the "accounting successor" to Crane Holdings, Co. for accounting purposes, notwithstanding the legal form of the Separation. Therefore, following the Separation, the historical consolidated financial statements of Crane Company reflect the historical consolidated financial statements of Crane Holdings, Co. with the Payment & Merchandising Technologies segment and other distributed assets and liabilities classified as discontinued operations.

### **Reportable Segments**

For additional information on recent business developments and other information about us and our business, please refer to the information set forth under the captions, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in Part II, Item 7 of this report, as well as in Part II, Item 8 under Note 4, "Segment Information," in the Notes to Consolidated Financial Statements for sales, operating profit and assets employed by each segment.

### ***Aerospace & Advanced Technologies***

The Aerospace & Advanced Technologies segment supplies critical components and systems, including original equipment and aftermarket parts, primarily for the commercial aerospace, military aerospace, defense, and space markets. The commercial market and military market accounted for 61% and 39%, respectively, of total segment sales in 2025. Sales to original equipment manufacturers ("OEMs") and aftermarket customers were 66% and 34%, respectively, in 2025.

We provide mission critical systems that require high reliability and high accuracy, such as pressure sensors for aircraft engine control, aircraft braking systems for commercial aircraft and fighter jets, power conversion solutions for defense and space applications and lubrication systems for the harshest and most hazardous environmental conditions. Crane Company has invented many of the fundamental technologies that are now the industry standard in the areas where we compete, with a track record for performance, reliability and innovation. AAT's integrated capabilities include the following:

- **Power Solutions:** Provides enabling technology to accelerate electrification of air, land, space and sea vehicles and systems.
- **Sensing Systems:** Provides components and systems for condition and position sensing, and pressure and flow measurement, with high-accuracy, reliability and engineering to excel in rugged aerospace environments. With the acquisition of Druck, these capabilities have been expanded to include test and calibration equipment.
- **Fluid & Thermal Management:** Designs and manufactures positive displacement pumps, centrifugal pumps and true mass flowmeters for aerospace and defense applications.
- **Landing Systems:** Provides hydraulic and electric brake control systems with antiskid and autobrake functionality, as well as electronic and hydraulic subsystems for landing gear control.

- **Microwave Solutions:** Designs and manufactures high-performance radio frequency and intermediate frequency components and millimeter-wave systems and subsystems for defense, space and commercial end-use customers.

AAT has a long-term growth profile driven by positions on market leading platforms, recent new program wins and continued investment in technology readiness. The segment is also positioned to benefit from underlying market growth driven by increasing new commercial aircraft deliveries, air passenger travel growth, defense investment, ongoing maintenance, repair and overhaul requirements and emerging applications in the space market, as well as a strong trend driving greater electrification for aerospace and defense applications. Our unique position to drive sustained growth is driven by differentiated technology investment focused on high-growth market segments, including next-generation aircraft engines, advanced ground and sea-based radar systems, Low Earth Orbit satellite constellations, as well as high-power and bi-directional power conversion for numerous emerging commercial and military applications, including more-electric and hybrid-electric ground vehicles and hybrid-electric and pure electric-propulsion aircraft.

Manufacturing facilities are located in the United States, United Kingdom, Taiwan, and France.

### ***Process Flow Technologies***

The Process Flow Technologies segment is a provider of highly engineered fluid handling equipment for mission critical applications that require high reliability. The segment is comprised of Process Valves and Related Products, Pumps and Systems and Commercial Valves.

- **Process Valves and Related Products:** Manufactures a wide range of products and solutions for the process end markets. Capabilities include a wide range of sensing and instrumentation, sampling systems, valve positioning and control systems, vacuum insulated pipe and valve systems for advanced cryogenic applications, valve diagnostic and calibration systems, as well as a broad portfolio of on/off isolation valves and associated actuation. Across the portfolio, the primary focus is on pharmaceutical, cryogenic, chemical, nuclear, and general industrial end markets, with some additional exposure to energy and oil & gas. Manufacturing facilities, along with sales and service centers, are located across North America, South America, Europe, the Middle East, Asia and Australia.
- **Pumps and Systems:** Manufactures pumps products for water and wastewater applications, primarily in the United States municipal and industrial markets.
- **Commercial Valves:** Manufactures valves and related products for the non-residential construction, gas utility and municipal markets. The primary geographies served by the manufacturing operations are the United Kingdom, the Middle East and continental Europe.

Our portfolio strategically targets the higher growth and less cyclical pharmaceutical, cryogenic, water and wastewater, chemical and general industrial industries. We expect these segments to outgrow the overall process market, driven by investment in sustainability and clean energy, aging infrastructure, tightening wastewater regulations and an aging population with a growing demand for healthcare.

Crane has a track record of innovation and being a pioneer in the industry, “writing the book” on the flow of fluids with Technical Paper 410, which is still used as a definitive authority on the topic for engineers, professionals and other practitioners. By focusing on accelerating the rate of innovation through R&D investment, we have driven incremental market capture and improved new product sales vitality to support long term profitable growth.

### **Other Matters Relating to Our Business as a Whole**

#### **Competitive Conditions**

Our businesses participate in markets that are highly competitive. Because of the diversity of products manufactured and sold, our businesses typically have a different set of competitors in each geographic area and end market in which they participate. Accordingly, it is not possible to estimate the number of competitors, or precise market share; however, we believe that we are a principal competitor in most of our markets. Our primary basis of competition is providing high quality products, with technological differentiation, at competitive prices, with superior customer service and timely delivery.

Our products are sold into primary end markets which include aerospace, defense and space, process industries, non-residential and municipal construction, along with a wide range of general industrial end markets. As such, our revenues depend on numerous unpredictable factors, including changes in market demand, general economic conditions, customer capital spending, timing and amount of contract awards and credit availability. Since our products are sold in such a wide variety of markets, we do not believe that we can reliably quantify or predict the potential effects of changes in any of the

aforementioned factors. Our engineering and product development activities are focused on improving existing products, customizing existing products for particular customer requirements, as well as the development of new products. We own numerous patents, trademarks, copyrights, trade secrets and licenses to intellectual property, no one of which is of such importance that termination would materially affect our business. From time to time, however, we do engage in litigation to protect our intellectual property.

### **Raw Materials**

Our manufacturing operations employ a wide variety of raw materials, including steel, copper, cast iron, electronic components, aluminum, plastics and certain petroleum-based products. We purchase raw materials from a large number of independent sources around the world. Although market forces have at times caused increases in the costs of key raw materials, there have been no raw materials shortages that have had a material adverse impact on our business. We believe that we will generally be able to obtain adequate supplies of major raw material requirements or reasonable substitutes at acceptable costs. For a further discussion of risks related to raw materials, please refer to Item 1A. "Risk Factors."

### **Government Contracts**

We have agreements relating to the sale of products to government entities, primarily involving products in our Aerospace & Advanced Technologies segment and, to a lesser extent, our Process Flow Technologies segment. As a result, we are subject to various statutes and regulations that apply to companies doing business with the government. The laws and regulations governing government contracts differ from those governing private contracts. For example, some government contracts require disclosure of cost and pricing data and impose certain sourcing conditions that are not applicable to private contracts. Our failure to comply with these laws could result in suspension of these contracts, criminal or civil sanctions, administrative penalties and fines or suspension or debarment from government contracting or subcontracting for a period of time. For a further discussion of risks related to compliance with government contracting requirements, please refer to Item 1A. "Risk Factors."

### **Environmental Compliance and Climate Change**

We are regulated by federal, state and international environmental laws governing our use, transport and disposal of substances and control of emissions. Our manufacturing facilities generally do not produce significant volumes or quantities of byproducts that would be considered hazardous waste or otherwise harmful to the environment if not properly handled or maintained. Accordingly, continued compliance with these existing laws has not had a material impact on our capital expenditures or earnings.

However, we occasionally engage in environmental remediation activities as required by federal and state laws. In addition, we may be exposed to other environmental costs including participation in the characterization and remediation of federal Superfund sites, or analogous state sites. When it is reasonably probable we will pay remediation costs at a site, and those costs can be reasonably estimated, we accrue a liability for such future costs with a related charge against our earnings. For further discussion of environmental related risks, please refer to Item 1A. "Risk Factors." For further discussion of our environmental matters, please refer to Part II, Item 8 under Note 13, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements.

### **Human Capital Resources**

To remain a leading manufacturer of highly engineered industrial products, it is important that we continue to attract, develop, and retain exceptional talent across our global enterprise consistent with our culture.

The Company has a diverse global workforce located in 29 countries, spanning five continents. At December 31, 2025, we employed approximately 7,100 persons worldwide, of which substantially all were full time employees. In the United States, we employed approximately 4,100 people across 37 locations. At December 31, 2025, approximately 6% of our U.S. employees were represented by a union under a collective bargaining agreement. Employees based in some foreign countries may, from time to time, be represented by works councils or unions or subject to collective bargaining agreements. We consider our relations with our employees to be good.

To maintain the strength of our workforce, we consistently assess the current business environment and labor market to refine our compensation and benefits programs and other resources available to our associates. We are committed to developing our associates personally and professionally by leveraging a structured and disciplined Intellectual Capital ("IC") process. Our regular IC cadence includes constructive reviews and various talent and leadership development initiatives conducted by our leadership team and provided throughout an associate's career. Succession planning is a key benefit of our intellectual capital process across all functions. We are also committed to an inclusive and high-performance culture at all levels of the organization, based on trust and respect.

The manufacture and production of our products requires the use of a variety of tools, equipment, materials, and supplies. At Crane, we are strongly committed to the health and safety of our associates and strive to continuously adhere to global regulatory safety requirements and to reduce the incidence and severity of job-related injuries. We utilize strict compliance protocols, training programs, effective risk management practices, and sound science in our operations to minimize risk to our associates.

For a discussion of risks related to employee relations, please refer to Item 1A. "Risk Factors."

#### **Available Information**

We file annual, quarterly and current reports and amendments to these reports, proxy statements and other information with the U.S. Securities and Exchange Commission ("SEC"). The SEC maintains an Internet site that contains reports, proxy and information statements and other information regarding issuers, like us, that file electronically with the SEC. The address of the SEC's website is [www.sec.gov](http://www.sec.gov).

We also make our filings available free of charge through our Internet website, as soon as reasonably practicable after filing such material electronically with, or furnishing such material, to the SEC. Also posted on our website are our Corporate Governance Guidelines, Standards for Director Independence, Crane Company. Code of Ethics and the charters and a brief description of each of the Audit Committee, the Management Organization and Compensation Committee and the Nominating and Governance Committee. These items are available in the "Investors – Corporate Governance" section of our website at [www.craneco.com](http://www.craneco.com). The content of our website is not part of this report.

## Item 1A. Risk Factors

Our business, financial condition, results of operations and cash flows may be affected by a number of factors including, but not limited to those set forth below. This discussion should be considered in conjunction with the discussion under the caption “Forward-Looking Information” preceding Part I, the information set forth under Item 1, “Business” and with the discussion of the business included in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” These risks comprise the material risks of which we are aware. If any of the events or developments described below or elsewhere in this Annual Report on Form 10-K, or in any documents that we subsequently file publicly were to occur, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

### Risks Relating to Our Business

#### ***Macroeconomic fluctuations may harm our business, results of operations and stock price.***

Our business, financial condition, operating results and cash flows may be adversely affected by changes in global economic conditions and geopolitical risks, including credit market conditions, trade policies, including recently announced and potential additional tariffs on certain raw materials, levels of consumer and business confidence, commodity prices and availability, inflationary pressures, exchange rates, levels of government spending and deficits, political conditions, and other challenges that could affect the global economy, including the ongoing conflict in the Middle East as well as impacts associated with any economic sanctions imposed against Russia, in response to their invasion of the Ukraine. These economic and geopolitical conditions could affect businesses such as ours in a number of ways. Such conditions could have an adverse impact on our flexibility to react to changing economic and business conditions and on our ability to fund our operations, grow through operations or refinance maturing debt balances at economically favorable interest rates. In addition, restrictions on credit availability could adversely affect the ability of our customers to obtain financing for significant purchases and could result in decreases in or cancellation of orders for our products and services as well as impact the ability of our customers to make payments. Similarly, credit restrictions may adversely affect our supplier base and increase the potential for one or more of our suppliers to experience financial distress or bankruptcy. See “Specific Risks Related to Our Reportable Segments.”

#### ***Demand for our products is variable and subject to factors beyond our control, which could result in unanticipated events significantly impacting our results of operations.***

A substantial portion of our sales is subject to market conditions which may cause customer demand for our products to fluctuate. Reductions in demand from these industries would reduce the sales and profitability of the affected business segments.

- In our Aerospace & Advanced Technologies segment, a significant decline in demand for air travel, or a decline in airline profitability generally, could result in reduced orders for aircraft and could also cause airlines to reduce their purchases of spare parts from our businesses. In addition, our Aerospace & Advanced Technologies segment could be impacted to the extent that our major aircraft manufacturing customers encounter problems which impact their production rates and, correspondingly, reduce purchases of our products, or if pricing pressure from aircraft customers caused the manufacturers to press their suppliers to lower prices and/or extend payment terms; in addition, demand for military and defense products is dependent upon government spending in certain areas which can vary year to year.
- Our Process Flow Technologies segment is dependent on global economic conditions, customer capital spending and commodity prices. Deterioration in any of these economic factors could result in sales and profits falling below our current outlook.
- Ongoing or threatened U.S. government shutdowns which may impact our ability to obtain or progress on government contracts, primarily in our Aerospace and Advanced Technologies segment.
- Any pandemics or public health emergencies could result in disruptions to global supply chains, delays in supplier deliveries, higher raw material prices, delays in deliveries to customers, travel restrictions, site access and quarantine restrictions, and employee absences. The extent to which public health emergencies could impact our operations and financial performance is highly uncertain and would depend on future developments, including the duration of any such public health emergency, potential actions taken by governmental authorities, and how quickly economic conditions stabilize.

In addition, a major hurricane, earthquake, tornado, wildfire, flood, drought or other natural disaster or severe weather event could seriously disrupt our business and impact our results of operations and cash flows.

***We conduct a substantial portion of our business outside the U.S. and face risks inherent in non-domestic operations.***

Net sales by destination outside the U.S. from continuing operations were 41% of our consolidated amounts in 2025. We expect that non-U.S. sales will continue to account for a significant portion of our revenues for the foreseeable future. In addition, our operations outside the U.S. are subject to the risks associated with conducting business internationally, including, but not limited to:

- Changes in the U.S. government's approach to trade policy, including in some cases renegotiating and terminating certain existing bilateral or multi-lateral trade agreements. The adoption and expansion of trade restrictions, the occurrence of a trade war, or other governmental action related to tariffs or trade agreements or policies (such as those recently announced or potential additional tariffs by various countries) has the potential to adversely impact demand for our products, our costs, our customers, our suppliers, and the U.S. economy, which in turn could have a material adverse effect on our business, financial condition, results of operations and cash flows;
- Economic and political instability, including the risk of geopolitical conflict or territorial incursions, in the countries and regions in which we operate; and
- The risks of fluctuations in foreign currency exchange rates, primarily the euro and the British pound, could adversely affect our reported results, primarily in our Process Flow Technologies segment, as amounts earned in other countries are typically translated into U.S. dollars for reporting purposes.

***We may be unable to identify or to complete acquisitions, or to successfully integrate the businesses we acquire.***

We have evaluated, and expect to continue to evaluate, a wide array of potential acquisition transactions. Our acquisition program attempts to address the potential risks inherent in assessing the value, strengths, weaknesses, contingent or other liabilities, systems of internal control and profitability of acquisition candidates, as well as other challenges such as retaining the employees and integrating the operations of the businesses we acquire. Integrating acquired operations involves significant risks and uncertainties, including:

- Maintenance of uniform standards, controls, policies and procedures, in particular where acquisitions reflect carve-out transactions;
- Unplanned expenses associated with the integration efforts;
- Inability to achieve planned facility repositioning savings or related efficiencies from recent and ongoing investments; and
- Unidentified issues not discovered in the due diligence process, including legal contingencies.

There can be no assurance that suitable acquisition opportunities will be available in the future, that we will continue to acquire businesses or that any business acquired will be integrated successfully or prove profitable, which could adversely impact our growth rate. Our ability to achieve our growth goals depends in part upon our ability to identify and successfully acquire, finance and integrate companies and businesses at appropriate prices and realize anticipated cost savings.

***Our ability to source components and raw materials from our suppliers could be disrupted or delayed in our supply chain, which could adversely affect our results of operations.***

Our operations require significant amounts of necessary components and raw materials. We deploy a continuous, company-wide process to source our components and raw materials from fewer suppliers, and to obtain parts from suppliers in low-cost countries where possible. Consistent with the rest of the aerospace and defense industry, our AAT business has been experiencing, and may continue to experience, supply chain disruptions from an insufficient availability of certain components and raw materials. If we are unable to timely source these components or raw materials, our operations may be disrupted, or we could experience a delay or temporary stoppage in certain of our manufacturing operations. We believe that our supply management and production practices are based on an appropriate balancing of the foreseeable risks and the costs of alternative practices. Nonetheless, reduced availability or interruption in supplies, whether resulting from significant changes in demand; more stringent regulatory requirements; supplier financial condition; supplier product strategy changes; increases in duties and tariff costs; disruptions in transportation; an outbreak of a severe public health pandemic; severe weather; and the occurrence or threat of wars, could have an adverse effect on our financial condition, results of operations and cash flows.

***The prices of our components and raw materials could fluctuate dramatically, which may adversely affect our profitability.***

The costs of certain components and raw materials that are critical to our profitability can be volatile, which can have a significant impact on our profitability. The costs in our business segments are affected by fluctuations in the price of metals such as steel and copper as well as other raw materials such as resin and electronic components; cost are also impacted by imposed tariffs, which are often unpredictable. We have seen a period of sustained price increases for components and raw materials that may continue into the future as demand increases and supply may remain constrained, notably in our AAT

segment, which has resulted in, and may continue to result in, increased costs for us. While we have taken actions aimed at securing an adequate supply of raw materials at prices which are favorable to us, if the prices of critical components and raw materials increase or we are unable to pass increased costs of components and raw materials to customers, our operating profit could be adversely affected.

Any pandemics or public health emergencies could result in disruptions to global supply chains, delays in supplier deliveries, higher raw material prices, delays in deliveries to customers, travel restrictions, site access and quarantine restrictions, and employee absences. The extent to which public health emergencies could impact our operations and financial performance is highly uncertain and would depend on future developments, including the duration of any such public health emergency, potential actions taken by governmental authorities, and how quickly economic conditions stabilize.

***Information systems and technology networks failures and breaches in data security, personally identifiable and other information, non-compliance with our contractual or other legal obligations regarding such information, or a violation of our privacy and security policies with respect to such information, could adversely affect us.***

We are dependent on information technology networks and systems, to process, transmit and store electronic information, and, in the normal course of our business, we collect and retain certain types of personally identifiable and other information pertaining to our customers, stockholders and employees. The legal, regulatory and contractual environment surrounding information security and privacy is constantly evolving and companies that collect and retain such information are under increasing attack by cyber-criminals around the world. A theft, loss, fraudulent use or misuse of customer, vendor, employee or our proprietary data by cybercrime or otherwise, non-compliance with our contractual or other legal obligations regarding such data or a violation of our privacy and security policies with respect to such data could adversely impact our reputation and could result in costs, fines, litigation or regulatory action against us. Security breaches can create system disruptions and shutdowns that could result in disruptions to our operations. We cannot be certain that advances in criminal capabilities, new vulnerabilities or other developments will not compromise or breach the security solutions protecting our information technology, networks and systems. A cyber-attack on our information systems technology or those of our partners, vendors, suppliers could adversely affect our ability to process orders, maintain proper levels of inventory, collect accounts receivable and pay expenses; all of which could have an adverse effect on our results of operations, financial condition and cash flows. Failure to effectively prevent, detect and recover from security breaches, including attacks on information technology and infrastructure by hackers; viruses; breaches due to employee error or actions; or other disruptions could seriously harm our operations as well as the operations of our customers and suppliers. Such serious harm can involve, among other things, misuse of our assets, business disruptions, loss of data, unauthorized access to trade secrets and confidential business information, unauthorized access to personal information, legal claims or proceedings, reporting errors, processing inefficiencies, negative media attention, reputational harm, loss of sales, remediation and increased insurance costs, and interference with regulatory compliance. We have experienced and expect to continue to experience some of these types of cybersecurity threats and incidents, which could be material in the future.

***We may be unable to successfully develop and introduce new products, which would limit our ability to grow and maintain our competitive position and adversely affect our financial condition, results of operations and cash flow.***

Our growth depends, in part, on continued sales of existing products, as well as the successful development and introduction of new products or technologies, which face the uncertainty of customer acceptance and reaction from competitors. Any delay in the development or launch of a new product could result in our not being the first to market, which could compromise our competitive position. Further, the development and introduction of new products may require us to make investments in specialized personnel and capital equipment, increase marketing efforts and reallocate resources away from other uses. We also may need to modify our systems and strategy in light of new products that we develop. If we are unable to develop and introduce new products in a cost-effective manner or otherwise manage effectively the operations related to new products, our financial condition, results of operations and cash flows could be adversely impacted.

***We face significant competition which may adversely impact our financial condition, results of operations, and cash flows in the future.***

While we are a principal competitor in most of our markets, all of our markets are highly competitive. The competitors in many of our business segments can be expected in the future to improve technologies, reduce costs and develop and introduce new products. The ability of our business segments to achieve similar advances will be important to our competitive positions. Competitive pressures, including those discussed above, could cause one or more of our business segments to lose market share or could result in significant price erosion, either of which could have an adverse effect on our financial condition, results of operations and cash flows.

***We compete with other manufacturing businesses for highly qualified employees in the countries in which we operate, and we may not be able to retain our personnel or hire and retain additional personnel needed for us to sustain and grow our business as planned.***

Our business segments and corporate offices are dependent upon highly qualified personnel, and we generally are dependent upon the continued efforts of key management employees. A number of factors may adversely affect the labor force available to us or increase labor costs, including high employment levels, federal unemployment subsidies and other government regulations. While we believe we have a robust intellectual capital process, we may have difficulty retaining key personnel or locating and hiring additional qualified personnel. The loss of the services of any of such personnel or our failure to attract and retain other qualified and experienced personnel on acceptable terms could impair our ability to successfully sustain and grow our business, which could have an adverse effect on our results of operations and financial condition.

***Our businesses are subject to extensive governmental regulation; failure to comply with those regulations could adversely affect our financial condition, results of operations, cash flows and reputation.***

We are required to comply with various import and export control laws, which may affect transactions with certain customers. In certain circumstances, export control and economic sanctions, and other trade-related regulations may prohibit the export of certain products, services and technologies, and in other circumstances we may be required to obtain an export license before exporting the controlled item. A failure to comply with these requirements might result in suspension of associated contracts and suspension or debarment from government contracting or subcontracting. For example, compliance with regulations related to the sourcing of conflict-free minerals mined from the democratic Republic of Congo and adjoining countries could limit the pool of suppliers who can provide conflict-free minerals to us, and as a result, may cause us to incur additional expenses and may create challenges for us to obtain conflict-free minerals at competitive prices. In addition, we are subject to the Foreign Corrupt Practices Act, which prohibits U.S. companies and their intermediaries from making improper payments to foreign officials for the purpose of obtaining or retaining business or securing any improper advantage. We are also subject to the anti-bribery laws of other jurisdictions. Failure to comply with any of these and similar regulations could result in civil and criminal liability, monetary and non-monetary penalties, fines, disruptions to our business, limitations on our ability to export products and services, and damage to our reputation.

***Our business could be harmed if we are unable to protect our intellectual property.***

We rely on a combination of trade secrets, patents, trademarks, copyrights and confidentiality procedures to protect our products and technology. Existing trade secret, patent, trademark and copyright laws offer only limited protection. Our patents could be invalidated or circumvented. In addition, others may develop substantially equivalent, or superseding proprietary technology, or competitors may offer equivalent non-infringing products in competition with our products, thereby substantially reducing the value of our proprietary rights. The laws of some foreign countries in which our products are or may be manufactured or sold may not protect our products or intellectual property rights to the same extent as do the laws of the U.S. We cannot assure that the steps we take to protect our intellectual property will be adequate to prevent misappropriation of our technology. We could incur significant and/or unexpected costs in our efforts to successfully avoid, manage, defend and litigate intellectual property matters. Our inability to protect our intellectual property could have an adverse effect on our financial condition, results of operations and cash flows.

***Our future results of operations and financial condition could be adversely impacted by intangible asset impairment charges.***

As of December 31, 2025, we had goodwill and other intangible assets, net of accumulated amortization, of \$833.4 million, which represented approximately 22% of our total assets. Our goodwill is subject to an impairment test on an annual basis and is also tested whenever events and circumstances indicate that goodwill may be impaired. Any excess goodwill resulting from the impairment test must be written off in the period of determination. Intangible assets (other than goodwill) are generally amortized over the useful life of such assets. In addition, from time to time, we may acquire or make an investment in a business that will require us to record goodwill based on the purchase price and the value of the acquired assets. We may subsequently experience unforeseen issues with such business that adversely affect the anticipated returns of the business or value of the intangible assets and trigger an evaluation of the recoverability of the recorded goodwill and intangible assets for such business. Future determinations of significant write-offs of goodwill or intangible assets as a result of an impairment test or any accelerated amortization of other intangible assets could have an adverse effect on our financial condition and results of operations.

***Our operations expose us to the risk of environmental liabilities, costs, litigation and violations that could adversely affect our financial condition, results of operations, cash flows and reputation.***

Our operations are subject to extensive environmental and health and safety laws and regulations in the jurisdictions in which they operate, which impose limitations on the discharge of pollutants into the ground, air and water and establish standards

for the generation, treatment, use, storage and disposal of solid and hazardous wastes. We must also comply with various health and safety regulations in the U.S. and abroad in connection with our operations. The costs of compliance with these regulations results in ongoing costs that may increase over time. Failure to comply with any of these laws could result in civil and criminal liability, substantial monetary and non-monetary penalties and damage to our reputation. In addition, we cannot provide assurance that our costs related to remedial efforts or alleged environmental damage associated with past or current waste disposal practices or other hazardous materials handling practices will not exceed our estimates or adversely affect our financial condition, results of operations and cash flows.

***We could face potential product liability or warranty claims, we may not accurately estimate costs related to such claims, and we may not have sufficient insurance coverage available to cover such claims.***

Our products are used in a wide variety of commercial applications and certain residential applications, including, in many cases, in severe service or mission critical applications. We face an inherent business risk of exposure to product liability or other claims in the event our products are alleged to be defective or that the use of our products is alleged to have resulted in harm to others or to property. We may in the future incur liability if product liability lawsuits against us are successful. Moreover, any such lawsuits, whether or not successful, could result in adverse publicity to us, which could cause our sales to decline.

In addition, consistent with industry practice, we provide warranties on many of our products, and we may experience costs of warranty or breach of contract claims if our products have defects in manufacture or design or they do not meet contractual specifications. We estimate our future warranty costs based on historical trends and product sales, but we may fail to accurately estimate those costs and thereby fail to establish adequate warranty reserves for them.

While we maintain insurance coverage with respect to certain liability claims, that insurance coverage may not be adequate to cover all claims that may arise, or we may not be able to maintain adequate insurance coverage in the future at an acceptable cost. Any liabilities not covered by insurance or that exceed our established reserves could have an adverse effect on our financial condition, results of operations and cash flows.

***Fluctuations in interest rates could affect our financial results.***

Our indebtedness bears interest at variable rates that are linked to changing market interest rates. As a result, an increase in market interest rates would increase our interest expense and our debt service obligations. As of December 31, 2025, we had approximately \$1,150 million of indebtedness that bears interest at variable rates. As of December 31, 2025, a hypothetical 1% increase in prevailing interest rates would increase our 2025 interest expense by approximately \$11.5 million.

***We may be unable to improve productivity, reduce costs and align manufacturing capacity with customer demand.***

We are committed to continuous productivity improvement, and we continue to evaluate opportunities to reduce costs, simplify or improve global processes, and increase the reliability of order fulfillment and satisfaction of customer needs. In order to operate more efficiently and control costs, from time to time we execute restructuring activities, which include workforce reductions and facility consolidations.

***Additional tax expense or exposures could affect our financial condition, results of operations and cash flows.***

We are subject to income taxes in the U.S. and various international jurisdictions. Our financial condition, results of operations and cash flow could be affected by changes to tax laws, regulations, accounting principles and judicial rulings, the geographic mix of our earnings, the valuation of our deferred tax assets and liabilities, and the results of audits and examinations of previously filed tax returns. By way of example, the Organization for Economic Co-operation and Development has been coordinating negotiations among more than 140 countries with the goal of achieving consensus around substantial changes to international tax policies, including the implementation of a minimum global effective tax rate of 15%. While various countries have implemented legislation as of January 1, 2025, we currently do not expect a resulting material change to our tax liabilities in the near term as additional jurisdictions enact such legislation, nor do we expect our effective tax rate and cash tax payments to significantly increase in future years. In addition, the One Big Beautiful Bill Act (the "Act") became law on July 4, 2025 and introduced significant changes to U.S. tax law. The Act did not have a significant impact on our 2025 consolidated financial statements and we will continue to assess its potential impact on our future consolidated financial statements. We continue to monitor evolving tax legislation in the jurisdictions in which we operate.

***If our internal controls are found to be ineffective, our financial results or our stock price may be adversely affected.***

We believe that we currently have adequate internal control procedures in place for future periods, including processes related to newly acquired businesses; however, increased risk of internal control breakdowns generally exists in any business environment that is decentralized such as ours. In addition, if our internal control over financial reporting is found to be ineffective, investors may lose confidence in the reliability of our financial statements, which may adversely affect our stock price.

***Net periodic pension cost and pension contributions associated with our retirement benefit plans may fluctuate significantly depending upon changes in actuarial assumptions and future market performance of plan assets.***

Total net periodic pension cost and pension contributions were \$8.7 million and \$16.5 million, respectively in 2025. The costs of our defined benefit pension plans are dependent upon various factors, including rates of return on investment assets, discount rates for future payment obligations, and expected mortality, among other things. In addition, funding requirements for benefit obligations of our pension plans are subject to legislative and other government regulatory actions. Variances in related estimates could have an adverse effect on our financial condition, results of operations and cash flows.

**Specific Risks Relating to Our Reportable Segments**

***Aerospace & Advanced Technologies***

Our Aerospace & Advanced Technologies segment sales are primarily affected by conditions in the commercial aerospace industry, which is cyclical in nature, and by changes in defense spending by the U.S. government.

Commercial aircraft are procured primarily by airlines, and airline capital spending can be affected by a number of factors including credit availability and related cost, current and expected fuel prices, and current and forecast air traffic demand levels. Air traffic levels are affected by a different array of factors including general economic conditions and global corporate travel spending, although other non-economic events can also adversely impact airline traffic, including terrorism or pandemic health concerns. Our commercial business is also affected by the market for business jets where demand is typically tied to corporate profitability levels, and the freight markets which are most heavily influenced by general economic conditions. Demand for our commercial aftermarket business is closely tied to total aircraft flight hours. Any decrease in demand for new aircraft or equipment, or use of existing aircraft and equipment, would result in decreased sales of our products and services. In addition, our commercial business could also be impacted to the extent that our major aircraft manufacturing customers encounter problems which impact their production rates and, correspondingly, reduce purchases of our products, or if pricing pressure from aircraft customers caused the manufacturers to press their suppliers to lower prices and/or extend payment terms.

The defense portion of the segment's business is dependent primarily on U.S. government spending, and to a lesser extent, foreign government spending, on the specific military platforms and programs where our business participates. Any reduction in appropriations for these platforms or programs or delays caused by any potential extended U.S. government shut down, could impact the performance of our business. Our sales to defense customers are also affected by the level of activity in military flight operations.

We rely on certain subcontractors and suppliers to provide and produce raw materials, integrated components and sub-assemblies. If one or more of our suppliers or subcontractors continue to experience delivery delays or other performance problems, we may be unable to meet commitments to our customers and our financial position, results of operations and cash flows may be adversely impacted. In some instances, we depend upon a single source of supply. Any service disruption from one of these suppliers, either due to circumstances beyond the supplier's control, such as geopolitical developments, could have a material adverse effect on our ability to meet commitments to our customers or increase our operating costs.

We are required to comply with various export control laws, which may affect our transactions with certain customers. In certain circumstances, export control and economic sanctions regulations may prohibit the export of certain products, services and technologies, and in other circumstances we may be required to obtain an export license before exporting the controlled item. We are also subject to investigation and audit for compliance with the requirements governing government contracts, including requirements related to procurement integrity, manufacturing practices and quality procedures, export control, employment practices, the accuracy of records and the recording of costs and information security requirements. A failure to comply with these requirements could result in suspension of these contracts, and suspension or debarment from government contracting or subcontracting. Failure to comply with any of these regulations could result in civil and criminal liability, monetary and non-monetary penalties, fines, disruptions to our business, limitations on our ability to export products and services, and damage to our reputation.

Due to the lengthy research and development cycle involved in bringing commercial and military products to market, we cannot accurately predict the demand levels that will exist once a given new product is ready for market. In addition, if we are unable to develop and introduce new products in a cost-effective manner or otherwise effectively manage the introduction of new products and/or programs, our results of operations and financial condition could be adversely impacted. Demand for our products could also be adversely impacted by industry consolidation that could result in greater acceptance of competitors' products.

## ***Process Flow Technologies***

Our Process Flow Technologies segment competes in markets that are fragmented and highly competitive. The business competes against large, well-established global companies, as well as smaller regional and local companies. We compete based on our products' quality, reliability and safety, our brand reputation, value-added technical expertise and customer support and consistent on-time delivery.

Demand for our Process Flow Technologies products is heavily dependent on our customers' level of new capital investment and planned maintenance expenditures. Customer spending typically depends on general economic conditions, industrial capital investment, availability of credit, and expectations of future demand. For example, lower levels of new housing construction and other infrastructure spending has had a negative impact on chemical demand, both in the U.S. and Europe, which adversely impacted the sale of our valve and valve-related products. Slowing global economic growth and volatility in commodity prices could both contribute to lower levels of customer spending, and project delays or cancellations.

A portion of this segment's business is subject to government contracting rules and regulations. Failure to comply with these requirements could result in suspension or debarment from government contracting or subcontracting, civil and criminal liability, monetary and non-monetary penalties, disruptions to our business, limitations on our ability to export products and services, or damage to our reputation. At our foreign operations, results could also be adversely impacted by a weakening of local currencies against the U.S. dollar. Our Process Flow Technologies business has the greatest exposure to the euro and British pound, and lesser exposure to several other currencies.

### **Item 1B. Unresolved Staff Comments**

None

### **Item 1C. Cybersecurity**

#### ***Cybersecurity Risk Management and Strategy***

Our cybersecurity program is staffed by a team of skilled cybersecurity professionals, with many having Certified Information Systems Security Professional (CISSP) credentials, and one or more Global Information Assurance Certification (GIAC)/The Sans Institute (SANS) cybersecurity certificates. Our response team members are in various global locations to ensure 24/7 monitoring and response capabilities and are backed by a 24/7 Managed Security Services Provider (MSSP) who monitors cybersecurity alerts.

We maintain annual training for all employees on cybersecurity standards, as well provide monthly trainings on how to recognize and properly respond to phishing, social engineering schemes and other cyber threats. The Company provides our employees with an intuitive mechanism to easily report suspicious emails which are analyzed by our security systems and dedicated incident response team. Monthly "test" phishing emails are sent to our associates. Any failures trigger a retraining exercise if not properly reported and a monthly training vignette on cybersecurity awareness. We regularly engage independent third parties to test our information security processes and systems as part of our overall enterprise risk management program.

Crane Company was separated from its parent company, Crane Holdings, on April 3, 2023, and since the separation and during the 5 years prior to separation, no attempted cyber-attack or other attempted intrusion on our information technology networks has resulted in a material adverse impact on our operations or financial results, in any penalties or settlements, or in the loss or exfiltration of material or sensitive Company data. Crane recognizes the inherent cyber risks associated with relying on third-party vendors such as cloud service providers, software vendors, data processors, and IT service providers with access to Company information, systems, or processes. Crane is committed to managing these risks responsibly and transparently and has an active process in place to assess and reduce that risk, including performing due diligence on third-party vendors before onboarding and evaluation and assessing their cybersecurity policies. In the event an attack or other intrusion were to be successful, we have a response team of internal and external resources engaged and prepared to respond. Although our third-party service providers have encountered cybersecurity incidents, these incidents have not had a material impact on Crane Company, including our business strategy, results of operations or financial condition. The Company maintains cyber risk and related insurance policies as a measure of added protection

#### ***Cybersecurity Governance***

Our cybersecurity program is led by Crane Company's Chief Information Security Officer ("CISO"), who regularly reports to our executive team about our program, including a review of cyber threat trends, our information security organization and staffing, and the status of ongoing efforts and investments to strengthen our cybersecurity defenses. We utilize a risk based, multi-layered information security framework following the National Institute of Standards and Technology (NIST) Cybersecurity Framework (CSF) and the Center for Internet Security (CIS) critical security controls. We have adopted and

implemented a systematic approach measuring ourselves against this multi-layered framework to identify and mitigate security risks that we believe are commercially reasonable for manufacturing companies of our size and scope and commensurate with the risks we face. The senior executive team, including the CISO, provide a minimum of two formal program updates each year to the Audit Committee of our Board of Directors.

## Item 2. Properties

The following is a summary of our principal facilities as of December 31, 2025:

| Facilities - Owned       |                                   |                |                           |                  |           |                |           |                  |
|--------------------------|-----------------------------------|----------------|---------------------------|------------------|-----------|----------------|-----------|------------------|

**Item 3. Legal Proceedings.**

Discussion of legal matters is incorporated by reference to Part II, Item 8 under Note 13, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Part II**

**Item 5. Market for the Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

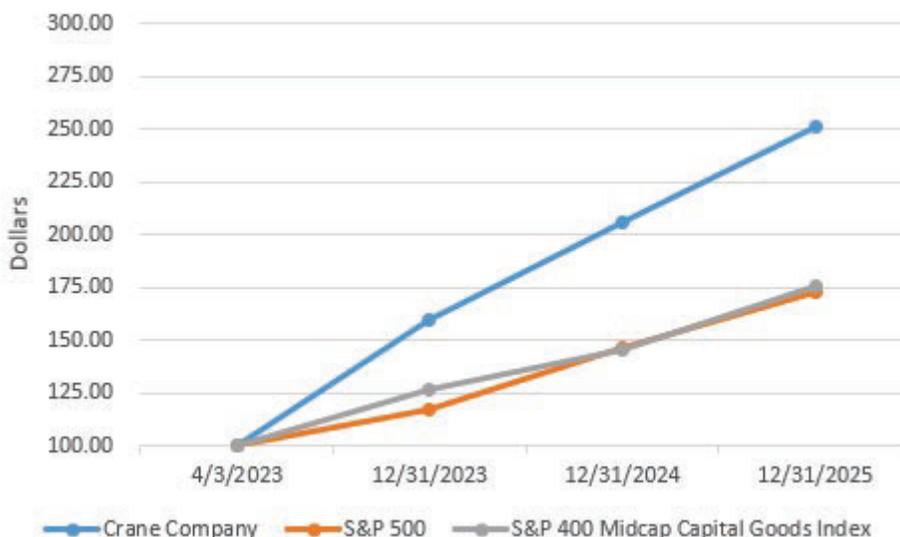

**Market Information**

Crane Company common stock is traded on the New York Stock Exchange (“NYSE”) under the symbol "CR". As of December 31, 2025, there were 1,364 holders of record of Crane Company common stock.

**Stock Performance Graph**

The following graph sets forth the cumulative total stockholder return to Crane Company’s stockholders for the period beginning April 3, 2023, the date of the Separation, through December 31, 2025, as well as the corresponding returns on the S&P 500 Index and the S&P 400 MidCap Capital Goods Index.

The graph assumes that the value of the investment in the common stock and each index was \$100 on April 3, 2023, and that all dividends were reinvested.

|                                    | 4/3/2023  | 12/31/2023 | 12/31/2024 | 12/31/2025 |
|------------------------------------|-----------|------------|------------|------------|
| Crane Company                      | \$ 100.00 | \$ 159.16  | \$ 205.56  | \$ 251.14  |
| S&P 500                            | 100.00    | 117.03     | 146.29     | 172.42     |
| S&P 400 Midcap Capital Goods Index | 100.00    | 126.09     | 145.33     | 175.10     |

**Purchases of Equity Securities**

Neither the Company nor any "affiliated purchaser" repurchased any shares of Company common stock during the year ended December 31, 2025.

**Equity Compensation Plans**

For information regarding equity compensation plans, see Item 12 of this annual report on Form 10-K.

**Item 6. [RESERVED]**

Not applicable.

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis of our financial condition and results of operations should be read together with our Consolidated financial statements and related notes included under Item 8 of this Annual Report on Form 10-K.

Crane Company has delivered innovation and technology-led solutions for customers since its founding in 1855. Today, Crane is a leading manufacturer of highly engineered components for challenging, mission-critical applications focused on the aerospace, defense, space and process industry end markets. The Company has two reporting segments: Aerospace & Advanced Technologies and Process Flow Technologies.

Our strategy is to grow earnings and cash flow by focusing on the development and manufacturing of highly engineered industrial products for specific markets where our scale is a relative advantage, and where we can compete based on our proprietary and differentiated technology, our deep vertical expertise, and our responsiveness to unique and diverse customer needs. We continuously evaluate our portfolio, pursue acquisitions that complement our existing businesses and are accretive to our growth profile, selectively divest businesses where appropriate, and pursue internal mergers to improve efficiency. We strive to foster a performance-based culture focused on productivity and continuous improvement, to attract and retain a committed management team whose interests are directly aligned with those of our shareholders, and to maintain a focused, efficient corporate structure.

We will continue to execute this strategy while remaining committed to the values of our founder, R.T. Crane, who resolved to conduct business "in the strictest honesty and fairness; to avoid all deception and trickery; to deal fairly with both customers and competitors; to be liberal and just toward employees; and to put my whole mind upon the business."

References to changes in "core sales" or "core growth" in this report include sales and the change in sales excluding the impact of foreign currency translation as well as acquisitions and divestitures from closing up to the first anniversary, of such acquisitions or divestitures.

Due to rounding, numbers presented throughout this report may not add up precisely to totals we provide, and percentages may not precisely reflect the absolute figures.

**Recent Events and Transactions*****Acquisition of Druck, Panametrics and Reuter-Stokes***

On June 6, 2025, the Company entered into a definitive Purchase Agreement with the Baker Hughes Company for the acquisition of Druck, Panametrics and Reuter-Stokes. Collectively, they are leading providers of sensor-based technologies for aerospace, nuclear and process industries. The Company completed the acquisition on January 1, 2026. The Druck brand is being integrated into the Aerospace & Advanced Technologies segment. Panametrics and Reuter-Stokes brands are being integrated into the Process Flow Technologies segment.

***Acquisition of optek-Danulat***

On January 1, 2026, the Company completed the acquisition of optek-Danulat ("Optek"). Optek is a leading provider of inline process control optical measurement solutions for biopharma, pharmaceutical and other demanding markets. Optek is being integrated into the Process Flow Technologies segment.

***Acquisitions and Items Affecting Comparability of Reported Results***

The comparability of our results for the years ended December 31, 2025, 2024 and 2023 is affected by the following significant items:

***Acquisitions***

On November 1, 2024, the Company completed the acquisition of Technifab Products, Inc. ("Technifab"). Technifab, is a leading provider of vacuum insulated pipe systems and valves for cryogenic applications. Technifab has been integrated into the Process Flow Technologies segment.

On May 1, 2024, the Company completed the acquisition of CryoWorks, Inc. ("CryoWorks"). CryoWorks, is a leading supplier of vacuum insulated pipe systems for cryogenic and hydrogen applications. CryoWorks has been integrated into the Process Flow Technologies segment.

On January 2, 2024, the Company completed the acquisition of Vian Enterprises, Inc. ("Vian"). Vian is a global designer and manufacturer of multi-stage lubrication pumps and lubrication system components technology for critical aerospace and defense applications with sole-sourced and proprietary content on the highest volume commercial and military aircraft platforms. Vian has been integrated into the Aerospace & Advanced Technologies segment.

On October 4, 2023, the Company completed the acquisition of Baum lined piping GmbH ("BAUM"). BAUM is a German based company that designs, manufactures, and distributes lined piping products primarily focused on chemical and industrial end markets. BAUM has been integrated into the Process Flow Technologies segment.

***Transaction Related Expenses***

In 2025, we recorded pre-tax transaction related expenses of \$14.8 million primarily related to the Druck, Panametrics, Reuter-Stokes and Optek acquisitions.

In 2024, we recorded pre-tax transaction related expenses of \$8.4 million primarily related to the Vian, CryoWorks and Technifab acquisitions and the divestiture of the Engineered Materials segment.

In 2023, we recorded pre-tax transaction related expenses of \$39.3 million related to the separation.

***Marion Site Hurricane Damage and Recovery***

In September 2024, our manufacturing site in Marion, North Carolina was directly affected by flooding from Hurricane Helene. Our insurance covered the repair or replacement of assets that suffered damage or loss and also provided for business interruption coverage, which included lost profits, and reimbursement for other expenses and costs that have been incurred relating to the damages and losses suffered. The recovery related to business interruption was recognized when realized and received. We worked with our insurance carrier to assess the damage and ascertain the amount of insurance recoveries due to us as a result of the damage and loss we incurred, as such the timing of insurance proceeds lagged behind the actual losses incurred. As of December 31, 2025, the full insurance claim has been settled and no additional proceeds are expected to be recovered.

For the year ended December 31, 2025 and 2024, we incurred expenses of \$6.0 million and \$23.3 million, respectively related to damage caused by the hurricane, which included professional fees to restore and maintain the site. These costs are included in Engineering, selling and administrative expenses in the Consolidated Statements of Operations. On a cumulative basis, we incurred expenses of \$29.3 million related to damage caused by the hurricane, all of which were fully covered by insurance except for the \$0.5 million deductible. During the year ended December 31, 2025, we also received insurance proceeds for lost profits of \$9.3 million, included in Miscellaneous income, net in the Consolidated Statements of Operations.

<sup>(a)</sup> For the years ended December 31, 2025, 2024 and 2023, Corporate expense included transaction related expenses of \$14.8 million, \$9.8 million and \$41.5 million, respectively.

**OVERALL**
**2025 compared to 2024**

Sales increased by \$173.8 million, or 8.2%, to \$2,305.0 million in 2025. The year-over-year higher sales included:

- an increase in core sales of \$132.7 million, or 6.2%, which was driven primarily by higher pricing;
- an increase in sales related to the CryoWorks, and Technifab acquisitions of \$29.1 million, or 1.4%; and
- favorable foreign currency translation of \$12.0 million, or 0.6%.

Cost of sales increased by \$68.8 million, or 5.4%, to \$1,332.2 million in 2025. The increase is primarily related to higher material, labor and other manufacturing costs, inclusive of tariffs of \$110.7 million, or 8.8%, the impact from the CryoWorks, and Technifab acquisitions of \$19.8 million, or 1.6%, unfavorable foreign currency translation of \$6.7 million, or 0.5%, partially offset by strong productivity gains of \$53.7 million, or 4.3%, lower volumes of \$9.8 million, or 0.8%, and cost savings of \$5.2 million, or 0.4%.

Engineering, selling and administrative expenses increased by \$36.6 million, or 7.1%, to \$548.6 million in 2025, primarily driven by the increase in administrative expenses of \$27.0 million, or 5.3%, coupled with higher selling expenses of \$5.0 million, or 1.0%. The increase in administrative expenses was primarily driven by investments in core businesses and the acquisitions of CryoWorks and Technifab.

Operating profit increased by \$68.4 million, or 19.2%, to \$424.2 million in 2025. The increase primarily reflected strong net price, inclusive of tariffs and productivity gains of \$66.3 million, or 18.6%.

**Comprehensive income**

| (in millions) For the year ended December 31,  | 2025     | 2024     | 2023     |
|--|----------|----------|----------|
| Net income attributable to common shareholders                                       | \$ 366.6 | \$ 294.7 | \$ 255.9 |
| Other comprehensive income (loss), net of tax  |          |          |          |
| Currency translation adjustment  | 51.4     | (30.6)   | 20.7     |
| Changes in pension and postretirement plan assets and benefit obligation, net of tax | 30.5     | 26.5     | 10.0     |
| Other comprehensive income (loss), net of tax  | 81.9     | (4.1)    | 30.7     |
| Comprehensive income before allocation to noncontrolling interests                   | 448.5    | 290.6    | 286.6    |
| Less: Noncontrolling interests in comprehensive income                               | —        | (0.2)    | (0.1)    |
| Comprehensive income attributable to common shareholders                             | \$ 448.5 | \$ 290.8 | \$ 286.7 |

For the year ended December 31, 2025, comprehensive income before allocation to noncontrolling interests was \$448.5 million compared to \$290.6 million in 2024. The \$157.9 million increase was primarily driven by \$71.9 million of higher net income before allocation to noncontrolling interests, \$82.0 million favorable impact of foreign currency translation adjustments, primarily related to the euro and British pound and a \$4.0 million increase primarily due to favorable pension plan asset performance.

| Operating margin  | 25.0 %            | 22.4 %          | 20.1 %          |

**2025 compared to 2024**

Aerospace & Advanced Technologies sales increased \$116.2 million, or 12.5%, to \$1,048.9 million in 2025, primarily due to higher pricing and volumes of \$114.6 million, or 12.3%. The commercial market and military market accounted for 61% and 39%, respectively, of total segment sales in 2025. Sales to OEM and aftermarket customers in 2025 were 66% and 34% of total segment sales, respectively.

- Sales of Commercial Original Equipment increased by \$47.9 million, or 13.7%, to \$397.3 million in 2025, reflecting strong demand from aircraft manufacturers.
- Sales of Military Original Equipment increased by \$24.4 million, or 8.9%, to \$297.5 million in 2025, reflecting strong demand from defense and space customers.
- Sales of Commercial Aftermarket Products increased by \$29.0 million, or 13.3%, to \$247.5 million in 2025, reflecting continued strong demand from airlines due to improving air traffic.
- Sales of Military Aftermarket Products increased by \$14.9 million, or 16.2%, to \$106.6 million in 2025, reflecting stronger demand for military products, partly in response to heightened geopolitical tensions globally.

Cost of sales increased \$57.4 million, or 10.0%, to \$631.8 million in 2025 compared to 2024, primarily reflecting higher material, labor and other manufacturing costs, inclusive of tariffs of \$56.4 million, or 9.8%, increased volumes and mix impacts of \$31.8 million, or 5.5%, partially offset by strong productivity gains of \$29.0 million, or 5.0%.

Engineering, selling, and administrative expense increased by \$5.3 million, or 3.5%, to \$154.6 million in 2025, primarily related to higher selling and administrative costs of \$6.7 million, or 4.5%, offset by lower engineering costs of \$1.6 million, or 1.1%.

Operating profit increased \$53.5 million, or 25.6%, to \$262.5 million in 2025, the increase primarily reflected higher volumes and strong net price, inclusive of tariffs and productivity gains of \$65.0 million, or 31.1%, offset by unfavorable mix of \$14.7 million, or 7.0%.

**PROCESS FLOW TECHNOLOGIES**

| (in millions, except %) For the year ended December 31, | 2025       | 2024       | 2023       |
|---|------------|------------|------------|
| Net sales by product line:                              |            |            |            |
| Process Valves and Related Products                     | \$ 947.6   | \$ 913.3   | \$ 811.3   |
| Commercial Valves                                       | 147.4      | 137.9      | 116.4      |
| Pumps and Systems                                       | 161.1      | 147.3      | 145.1      |
| Total net sales   | \$ 1,256.1 | \$ 1,198.5 | \$ 1,072.8 |
| Cost of sales   | \$ 700.4   | \$ 689.0   | \$ 615.9   |
| Engineering, selling and administrative                 | \$ 292.2   | \$ 269.2   | \$ 248.4   |
| Operating profit  | \$ 263.5   | \$ 240.3   | \$ 208.5   |
| Assets  | \$ 1,326.0 | \$ 1,265.0 | \$ 1,164.5 |
| Backlog   | \$ 359.9   | \$ 376.4   | \$ 379.0   |
| Operating margin  | 21.0 %     | 20.1 %     | 19.4 %     |

**2025 compared to 2024**

Sales increased by 57.6 million, or 4.8%, to \$1,256.1 million in 2025, primarily driven by the impact of the CryoWorks, and Technifab acquisitions of \$29.1 million, or 2.4%, higher core sales of \$18.1 million, or 1.5%, driven by higher pricing, and favorable foreign currency translation of \$10.4 million, or 0.9%.

- Sales of Process Valves and Related Products increased by \$34.3 million, or 3.8%, to \$947.6 million in 2025, primarily driven by the impact of the CryoWorks and Technifab acquisitions of \$29.1 million, or 3.2%, favorable foreign currency translation of \$6.6 million, or 0.7%, and to a lesser extent offset by lower core sales of \$1.4 million, or 0.2%, driven by lower volumes.
- Sales of Commercial Valves increased by \$9.5 million, or 6.9%, to \$147.4 million in 2025, primarily driven by increase in core sales of \$5.4 million, or 3.9%, driven by higher pricing, and favorable foreign currency translation of \$4.1 million, or 3.0%, as the British pound strengthened against the U.S. dollar.
- Sales of Pumps and Systems increased by \$13.8 million, or 9.4%, to \$161.1 million in 2025, reflecting an increase in core sales driven by higher pricing and volumes.

Cost of sales increased by \$11.4 million, or 1.7%, to \$700.4 million, reflecting higher material, labor and other manufacturing costs, inclusive of tariffs of \$54.3 million, or 7.9%, the impact of the CryoWorks, and Technifab acquisitions of \$19.8 million, or 2.9%, and unfavorable foreign currency translation of \$6.1 million, or 0.9%, partially offset by lower volumes and mix impacts of \$41.3 million, or 6%, strong productivity gains of \$24.7 million, or 3.6%, and to a lesser extent cost savings of \$2.8 million, or 0.4%.

Engineering, selling and administrative expense increased by \$23.0 million, or 8.5%, to \$292.2 million, reflecting an increase in administrative costs of \$17.5 million, or 6.5%, primarily from investments in core businesses and the impact of the CryoWorks and Technifab acquisitions.

Operating profit increased by 23.2 million, or 9.7%, to \$263.5 million in 2025. The increase is primarily due to strong net price, inclusive of tariffs and productivity gains of \$31.2 million, or 13%, partially offset by the net impact of lower volumes and mix impacts of \$12.2 million, or 5.1%.

**CORPORATE**

| (in millions) For the year ended December 31, | 2025       | 2024      | 2023       |
|---|------------|-----------|------------|
| Corporate expense                             | \$ (101.8) | \$ (93.5) | \$ (117.1) |
| Total Corporate expense                       | \$ (101.8) | \$ (93.5) | \$ (117.1) |

**2025 compared to 2024**

Total Corporate expense increased by \$8.3 million, or 8.9%, in 2025, primarily reflecting higher transaction related expenses of \$5.0 million, or 5.3%.

**INTEREST AND MISCELLANEOUS INCOME, NET**

| (in millions) For the year ended December 31, | 2025      | 2024      | 2023      |
|---|-----------|-----------|-----------|
| Interest income                               | \$ 11.2   | \$ 5.5    | \$ 5.1    |
| Interest expense                              | \$ (11.3) | \$ (27.2) | \$ (22.7) |
| Miscellaneous income, net                     | \$ 8.7    | \$ 4.4    | \$ 0.3    |

**2025 compared to 2024**

Interest expense decreased by \$15.9 million, or 58.5%, resulting from the repayment of the 2023 Term facility during 2025. Miscellaneous income, net, increased \$4.3 million, primarily related to the insurance proceeds received in connection with Hurricane Helene (see Note 13, "Commitment and Contingencies" for further detail).

**INCOME TAX**

| (in millions, except %) For the year ended December 31, | 2025     | 2024     | 2023     |
|---|----------|----------|----------|
| Income before tax — U.S.                                | \$ 312.8 | \$ 207.0 | \$ 127.1 |
| Income before tax — non-U.S.                            | 120.0    | 131.5    | 106.0    |
| Income before tax — worldwide                           | \$ 432.8 | \$ 338.5 | \$ 233.1 |
| Provision for income taxes                              | \$ 101.1 | \$ 70.3  | \$ 57.2  |
| Effective tax rate                                      | 23.4 %   | 20.8 %   | 24.5 %   |

Our effective tax rate is affected by a number of items, both recurring and discrete, including the amount of income we earn in different jurisdictions and their respective statutory tax rates, acquisitions and dispositions, changes in the valuation of our deferred tax assets and liabilities, changes in tax laws, regulations and accounting principles, the continued availability of statutory tax credits and deductions, and examinations initiated by tax authorities around the world. See "Application of Critical Accounting Policies" included later in this Item 7 for additional information about our provision for income taxes. A reconciliation of the statutory U.S. federal tax rate to our effective tax rate is set forth under Note 10, "Income Taxes" in the Notes to Consolidated Financial Statements.

**The One Big Beautiful Bill Act**

On July 4, 2025, the "One Big Beautiful Bill Act" was signed into law. This legislation did not have a material impact on our income tax expense for the year ended December 31, 2025, and while the Company is continuing to evaluate the financial statement impact of these new provisions on future reporting periods it is not expected to have a material impact in 2026.

| (in millions) For the year ended December 31,                         | 2025       | 2024      | 2023       |
|---|------------|-----------|------------|
| Net cash provided by (used for):                                      |            |           |            |
| Operating activities from continuing operations                       | \$ 394.8   | \$ 257.8  | \$ 162.1   |
| Investing activities from continuing operations                       | (48.1)     | (230.0)   | (128.8)    |
| Financing activities from continuing and discontinued operations      | 838.8      | (49.7)    | (423.2)    |
| Discontinued operations   | 213.6      | 11.8      | 58.3       |
| Effect of exchange rate on cash, cash equivalents and restricted cash | 24.0       | (11.3)    | 3.6        |
| Increase (decrease) in cash, cash equivalents and restricted cash     | \$ 1,423.1 | \$ (21.4) | \$ (328.0) |

Our operating philosophy is to deploy cash provided from operating activities, when appropriate, to provide value to shareholders by reinvesting in existing businesses, by making acquisitions that will strengthen and complement our portfolio, by divesting businesses that are no longer strategic or aligned with our portfolio and where such divestitures can generate capacity for strategic investments and initiatives that further optimize our portfolio, and by paying dividends and/or repurchasing shares. At any given time, and from time to time, we may be evaluating one or more of these opportunities, although we cannot assure you if or when we will consummate any such transactions.

The Company raised the annual dividend for 2026 by 11% to \$1.02 per share.

Our current cash balance, together with cash we expect to generate from future operations and borrowing capacity available under our revolving credit facility, is expected to be sufficient to finance our short- and long-term capital requirements, as well as to fund expected pension contributions.

In September 2025, we entered into a \$900 million senior unsecured delayed draw term loan facility (the "Term Facility"), which matures on September 30, 2030, and a \$900 million senior unsecured revolving facility (the "Revolving Facility"), which also matures on September 30, 2030. In December 2025, the Company borrowed \$900 million under the Term Facility and an additional \$250 million under the Revolving Facility. The borrowings under the Term Facility and Revolving Facility, along with cash on-hand, were used to fund the January 2026 acquisitions of Druck, Panametrics, Reuter-Stokes and optek-Danulat.

***Operating Activities***

Cash provided by operating activities from continuing operations, a key source of our liquidity, was \$394.8 million in 2025, compared to \$257.8 million in 2024. The increase in cash provided by operating activities from continuing operations was primarily driven by the \$79.0 million increase in net income from continuing operations, adjusted for the exclusion of non-cash items and improved working capital of \$60.7 million.

***Investing Activities***

Cash flows relating to investing activities from continuing operations consist primarily of cash used for capital expenditures and acquisitions of businesses. Cash used for investing activities from continuing operations was \$48.1 million in 2025, compared to \$230.0 million in 2024. The decrease in cash used for investing activities was primarily driven by the net cash paid of \$197.4 million in the prior period for the acquisitions of Vian Enterprises, Inc., CryoWorks, Inc. and Technifab Products, Inc., partially offset by a \$16.9 million increase in capital expenditures. Capital expenditures are made primarily for increasing capacity, replacing equipment, supporting new product development, and improving information systems.

***Financing Activities***

Financing cash flows consist primarily of dividend payments to shareholders, repayments of indebtedness, proceeds from our Credit Facilities and proceeds from the issuance of common stock in connection with employee stock plans.

Cash provided by financing activities was \$838.8 million in 2025, compared to cash used for financing activities of \$49.7 million in 2024. The increase in cash provided by financing activities was driven by:

- \$960.0 million increase in borrowings under our Term Facility and Revolving Facility; partially offset by
  - \$55.6 million increase in debt repayments;
  - \$6.0 million increase in dividend payments;
  - \$5.6 million increase in debt refinancing costs; and

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

- \$4.3 million increase in payments for taxes related to net share settlements of equity awards, net of proceeds from stock option exercises.

**Financing Arrangements**

Total net debt was \$1,148.2 million and \$247.0 million as of December 31, 2025 and 2024, respectively.

As of December 31, 2025, our total debt to total capitalization ratio was 35.8%, computed as follows:

| (in millions)                        |            |
|--------------------------------------|------------|
| Total debt                           | \$ 1,148.2 |
| Equity                               | 2,063.4    |
| Capitalization                       | \$ 3,211.6 |
|                                      |            |
| Total indebtedness to capitalization | 35.8 %     |

See Item 8 under Note 14, "Financing," in the Notes to Consolidated Financial Statements for details regarding our financing arrangements.

**Credit Ratings**

As of December 31, 2025, we have not sought a rating from the credit agencies, and we have no immediate plans to do so. Although the Company is currently unrated, we believe that we have adequate access to capital through the bank market and our current Revolving Credit Facility.

**Contractual Obligations**

Under various agreements, we are obligated to make future cash payments in fixed amounts. These include payments under our short-term and long-term debt agreements and rent payments required under operating lease agreements from continuing operations. The following table summarizes our fixed cash obligations as of December 31, 2025:

| (in millions)   | Payment due by Period |                 |                 |                 |                 |                   |                 | 2031 and after |
|---|-----------------------|-----------------|-----------------|-----------------|-----------------|-------------------|-----------------|----------------|
|   | Total                 | 2026            | 2027            | 2028            | 2029            | 2030              |                 |                |
| Debt <sup>(a)</sup>   | \$ 1,150.0            | \$ —            | \$ 22.5         | \$ 45.0         | \$ 45.0         | \$ 1,037.5        | \$ —            |                |
| Operating lease payments  | 83.5                  | 17.7            | 16.7            | 12.6            | 8.8             | 6.6               | 21.1            |                |
| Purchase obligations  | 326.4                 | 297.9           | 12.1            | 0.7             | 0.2             | 0.3               | 15.2            |                |
| Pension and postretirement benefits <sup>(b)</sup>                                  | 526.8                 | 54.0            | 54.4            | 55.6            | 52.7            | 52.6              | 257.5           |                |
| Other long-term liabilities reflected on Consolidated Balance Sheets <sup>(c)</sup> | —                     | —               | —               | —               | —               | —                 | —               |                |
| <b>Total</b>  | <b>\$ 2,086.7</b>     | <b>\$ 369.6</b> | <b>\$ 105.7</b> | <b>\$ 113.9</b> | <b>\$ 106.7</b> | <b>\$ 1,097.0</b> | <b>\$ 293.8</b> |                |

(a) Debt includes scheduled principal payments and borrowings under our Revolving Facility.

(b) Pension benefits are primarily funded by the respective pension trusts. Pension benefits are included through 2035.

(c) As the timing of future cash outflows is uncertain, the following long-term liabilities (and related balances) are excluded from the above table: long-term environmental liability of \$5.1 million, gross unrecognized tax benefits of \$10.3 million and related gross interest and penalties of \$3.2 million.

**OUTLOOK - CONTINUING OPERATIONS**

Our sales depend heavily on industries that are cyclical in nature or are subject to market conditions, which may cause customer demand for our products to be volatile and unpredictable. Demand in these industries is affected by fluctuations in domestic and international economic conditions, as well as currency fluctuations, commodity costs, and a variety of other factors.

For 2026, we expect total sales growth in the low-to-mid 20%s, driven by the Druck, Panametrics, Reuter-Stokes, and optek-Danulat acquisitions, as well as mid-single digit core sales growth and a slight foreign exchange benefit. We expect an improvement in operating profit driven primarily by productivity benefits and operating leverage on higher volumes, lower transaction related expenses, higher pricing net of inflation and contributions from the Druck, Panametrics, Reuter-Stokes, and optek-Danulat acquisitions.

**Aerospace & Advanced Technologies**

In 2026, we expect Aerospace & Advanced Electronics sales to increase in the low to mid 20% range driven by high-single digit core sales growth, a low-to-mid-teen percentage contribution from the Druck acquisition and a slight benefit from favorable foreign exchange.

We expect a substantial improvement in our commercial OEM business driven by higher aircraft build rates, and increased demand for our military OEM business driven by continued global geopolitical uncertainty. We also expect growth in our commercial and military aftermarket businesses driven by continued high utilization of aircraft, but at decelerating rates compared to 2024 and 2025 reflecting increasingly challenging year-over-year comparisons.

We expect segment operating profit to increase compared to 2025 due to higher volumes, positive net price and the contribution from the Druck acquisition. However, we expect operating margin to decline modestly compared to 2025 driven by the dilutive impact of the above-mentioned acquisitions.

**Process Flow Technologies**

In 2026, we expect Process Flow Technologies sales to increase in the low-to-mid 20%s driven by flat-to-low single digit core sales growth, a low-20% contribution from the Panametrics, Reuter-Stokes, and optek-Danulat acquisitions, as well as a 1% benefit from foreign exchange.

We expect core sales to be driven by demand in the pharmaceutical, water and waste-water and cryogenic markets offset by ongoing sluggishness in the chemical markets.

We expect segment operating profit to increase compared to 2025 due primarily to the contribution from the Panametrics, Reuter-Stokes, and optek-Danulat acquisitions. However, we expect operating margin to decline modestly compared to 2025 driven primarily by the dilutive impact of the acquisitions.

**APPLICATION OF CRITICAL ACCOUNTING ESTIMATES**

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. Certain accounting policies require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. On an ongoing basis, we evaluate our estimates and assumptions, and the effects of revisions are reflected in the financial statements in the period in which they are determined to be necessary. The accounting estimates described below are those that most frequently require us to make estimates and judgments and, therefore, are critical to understanding our results of operations. We have discussed the development and selection of these accounting estimates and the related disclosures with the Audit Committee of our Board of Directors. Our significant accounting policies are more fully described in Item 8 under Note 1, "Nature of Operations and Significant Accounting Policies" in the Notes to Consolidated Financial Statements.

**Revenue Recognition.** We primarily generate revenue through the manufacture and sale of engineered industrial products. Each product within a contract generally represents a separate performance obligation, as we do not provide a significant service of integrating or installing the products, the products do not customize each other, and the products can function independently of each other. Control of products generally transfers to the customer at a point in time, as the customer does not control the products as they are manufactured. We exercise judgment and consider the timing of right to payment, transfer of risk and rewards, transfer of title, transfer of physical possession, and customer acceptance when determining when control transfers to the customer. As a result, revenue from the sale of products is generally recognized at a point in time - either upon shipment or delivery - based on the specific shipping terms agreed with our customers.

Certain products however, are customized or sold directly to the U.S. government or indirectly to the U.S. government through subcontracts. In these cases, revenue is recognized over time because control is transferred continuously to customers, as the contract progresses. We exercise judgment to determine whether the products have an alternative use to us. When an alternative use does not exist for these products and we are entitled to payment for performance completed to date which includes a reasonable profit margin, revenue is recognized over time. When a contract with the U.S. government or subcontract for the U.S. government contains clauses indicating that the U.S. government owns any work-in-progress as the contracted product is being built, revenue is recognized over time. The measure of progress applied by us is the cost-to-cost method as this provides the most accurate depiction of the pattern of transfer of control. Under this method, we measure progress by comparing costs incurred to date to the total estimated costs to provide the performance obligation. This method effectively reflects our progress toward completion, as this methodology includes any work-in-process amounts as part of the measure of progress. Costs incurred represent work performed, which corresponds with, and thereby depicts, the transfer of control to the customer. Total revenue recognized and cost estimates are updated monthly. In 2025, the Company recognized approximately \$109.1 million in revenue over time related to contracts in progress as of December 31, 2025, or 4.7% of total sales.

These estimates are subject to uncertainties and require judgment. Estimates of contract costs include labor hours and rates, and material costs. These estimates consider historical performance, the complexity of the work to be performed, the estimated time to complete the project, and other economic factors such as inflation. We update our estimates on a periodic basis and any revisions to such estimates are recorded in earnings in the period in which they are determined. Provisions for estimated losses, if any, on uncompleted long-term contracts, are made in the period in which such losses are determined. We do not believe that any discrete event or adjustment to an individual contract within the aggregate changes in contract estimates for 2025, 2024 or 2023 was material to the Consolidated Statement of Operations for such annual periods.

**Income Taxes.** We account for income taxes in accordance with ASC Topic 740 "Income Taxes" ("ASC 740"), which requires an asset and liability approach for the financial accounting and reporting of income taxes. Under this method, deferred income taxes are recognized for the expected future tax consequences of differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. These balances are measured using the enacted tax rates expected to apply in the year(s) in which these temporary differences are expected to reverse. The effect of a change in tax rates on deferred income taxes is recognized in income in the period when the change is enacted.

Based on consideration of all available evidence regarding their utilization, we record net deferred tax assets to the extent that it is more likely than not that they will be realized. Where, based on the weight of all available evidence, it is more likely than not that some amount of a deferred tax asset will not be realized, we establish a valuation allowance for the amount that, in our judgment, is sufficient to reduce the deferred tax asset to an amount that is more likely than not to be realized. The evidence we consider in reaching such conclusions includes, but is not limited to; (1) future reversals of existing taxable temporary differences, (2) future taxable income exclusive of reversing taxable temporary differences, (3) taxable income in prior carryback year(s) if carryback is permitted under the tax law, (4) cumulative losses in recent years, (5) a history of tax losses or credit carryforwards expiring unused, (6) a carryback or carryforward period that is so brief it limits realization of tax

benefits, and (7) a strong earnings history exclusive of the loss that created the carryforward and support showing that the loss is an aberration rather than a continuing condition.

We account for unrecognized tax benefits in accordance with ASC 740, which prescribes a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation, based solely on the technical merits of the position. The tax benefit recognized is the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement.

We recognize interest and penalties related to unrecognized tax benefits within the income tax expense line of the Consolidated Statement of Operations, while accrued interest and penalties are included within the related tax liability line of the Consolidated Balance Sheets.

**Goodwill and Other Intangible Assets.** As of December 31, 2025, we had \$683.9 million of goodwill and \$149.5 million of net intangible assets, of which \$22.9 million were intangibles with indefinite useful lives, consisting of trade names. As of December 31, 2024, we had \$661.6 million of goodwill and \$159.9 million of net intangible assets, of which \$21.4 million were intangibles with indefinite useful lives, consisting of trade names.

Our business acquisitions have typically resulted in the recognition of goodwill and other intangible assets. We follow the provisions under ASC Topic 350, "Intangibles – Goodwill and Other" ("ASC 350") as it relates to the accounting for goodwill in the Consolidated Financial Statements. These provisions require that we, on at least an annual basis, evaluate the fair value of the reporting units to which goodwill is assigned and attributed and compare that fair value to the carrying value of the reporting unit to determine if an impairment has occurred. We perform our annual impairment testing during the fourth quarter. Impairment testing takes place more often than annually if events or circumstances indicate a change in status that would indicate a potential impairment. We believe that there have been no events or circumstances which would more likely than not reduce the fair value of our reporting units below its carrying value. A reporting unit is an operating segment unless discrete financial information is prepared and reviewed by segment management for businesses one level below that operating segment (a "component"), in which case the component would be the reporting unit. As of December 31, 2025, we had three reporting units.

When performing our annual impairment assessment, we compare the fair value of each of our reporting units to our respective carrying value. Goodwill is potentially impaired when the net book value of the reporting unit exceeds its estimated fair value. Fair values are established primarily by discounting estimated future cash flows at an estimated cost of capital which varies for each reporting unit and which, as of our most recent annual impairment assessment, was 9.0%, reflecting the respective inherent business risk of each of the reporting units tested. This methodology for valuing our reporting units (commonly referred to as the Income Method) has not changed since the adoption of the provisions under ASC 350. The determination of discounted cash flows is based on the businesses' strategic plans and long-range planning forecasts, which change from year to year. The revenue growth rates included in the forecasts represent best estimates based on current and forecasted market conditions. Profit margin assumptions are projected by each reporting unit based on the current cost structure and anticipated net cost increases/reductions.

There are inherent uncertainties related to these assumptions, including changes in market conditions, and management judgment is necessary in applying them to the analysis of goodwill impairment. In addition to the foregoing, for each reporting unit, market multiples are used to corroborate discounted cash flow results where fair value is estimated based on earnings multiples determined by available public information of comparable businesses. While we believe we have made reasonable estimates and assumptions to calculate the fair value of our reporting units, it is possible a material change could occur. If actual results are not consistent with management's estimates and assumptions, goodwill and other intangible assets may then be determined to be overstated and a charge would need to be taken against net earnings. To evaluate the sensitivity of the fair value calculations on the goodwill impairment test, we applied a hypothetical, reasonably possible 10% decrease to the fair values of each reporting unit. The effects of this hypothetical 10% decrease would still result in a fair value calculation exceeding our carrying value for each of our reporting units. No impairment charges have been required during 2025, 2024 or 2023.

As stated above, intangibles with indefinite useful lives are tested annually for impairment, or when events or changes in circumstances indicate the potential for impairment. If the carrying amount of an indefinite lived intangible asset exceeds its fair value, the intangible asset is written down to its fair value. Fair value is calculated using relief from royalty method. We amortize the cost of definite-lived intangibles over their estimated useful lives.

Examples of events or changes in circumstances could include, but are not limited to, a prolonged economic downturn, current period operating or cash flow losses combined with a history of losses or a forecast of continuing losses associated with the use of an asset or asset group, or a current expectation that an asset or asset group will be sold or disposed of before the end of its previously estimated useful life. Recoverability is based upon projections of anticipated future undiscounted

cash flows associated with the use and eventual disposal of the definite-lived intangible asset (or asset group), as well as specific appraisal in certain instances. Reviews occur at the lowest level for which identifiable cash flows are largely independent of cash flows associated with other long-lived assets or asset groups and include estimated future revenues, gross profit margins, operating profit margins and capital expenditures which are based on the businesses' strategic plans and long-range planning forecasts, which change from year to year. The revenue growth rates included in the forecasts represent our best estimates based on current and forecasted market conditions, and the profit margin assumptions are based on the current cost structure and anticipated net cost increases or reductions. There are inherent uncertainties related to these assumptions, including changes in market conditions, and management's judgment in applying them to the analysis. If the future undiscounted cash flows are less than the carrying value, then the definite-lived intangible asset is considered impaired and a charge would be taken against net earnings based on the amount by which the carrying amount exceeds the estimated fair value. Judgments that we make which impact these assessments relate to the expected useful lives of definite lived assets and its ability to realize any undiscounted cash flows in excess of the carrying amounts of such assets and are affected primarily by changes in the expected use of the assets, changes in technology or development of alternative assets, changes in economic conditions, changes in operating performance and changes in expected future cash flows. Since judgment is involved in determining the recoverable amount of definite-lived intangible assets, there is risk that the carrying value of our definite-lived intangible assets may require adjustment in future periods. Historical results to date have generally approximated expected cash flows for the identifiable cash flow generating level. We believe there have been no events or circumstances which would more likely than not reduce the fair value of our indefinite-lived or definite-lived intangible assets below their carrying value. As of the last annual assessment, fair values have been substantially in excess of carrying values.

**Environmental.** For environmental matters, we record a liability for estimated remediation costs when it is probable that we will be responsible for such costs and they can be reasonably estimated. Generally, third party specialists assist in the estimation of remediation costs. The environmental remediation liability as of December 31, 2025 is substantially all for the former manufacturing site in Goodyear, Arizona (the "Goodyear Site"). Estimates of our environmental liabilities at the Goodyear Site are based on currently available facts, present laws and regulations and current technology available for remediation, and are recorded on an undiscounted basis. These estimates consider our prior experience in the Goodyear Site investigation and remediation, as well as available data from, and in consultation with, our environmental specialists. Estimates at the Goodyear Site have been subject to significant uncertainties caused primarily by the dynamic nature of the Goodyear Site conditions, the range of remediation alternatives available, together with the corresponding estimates of cleanup methodology and costs, as well as ongoing, required regulatory approvals, primarily from the EPA. During the fourth quarter of 2019, we received conceptual agreement from the EPA on an alternative remediation strategy which was expected to further reduce the contaminant plume. Accordingly, we recorded a pre-tax charge of \$18.9 million, net of reimbursements, to extend our forecast period through 2027 and reflect our revised workplan. The total estimated gross liability was \$12.9 million and \$16.4 million as of December 31, 2025 and 2024, respectively.

On July 31, 2006, we entered into a consent decree with the U.S. Department of Justice on behalf of the Department of Defense and the Department of Energy pursuant to which, among other things, the U.S. Government reimburses us for 21% of qualifying costs of investigation and remediation activities at the Goodyear Site. We have recorded a receivable of \$2.3 million and \$3.0 million for the expected reimbursements from the U.S. Government in respect of the aggregate liability as of December 31, 2025 and 2024, respectively.

**Pension Plans.** In the United States, we sponsor a defined benefit pension plan that covers approximately 10% of all U.S. employees. Effective January 1, 2013, pension eligible non-union employees no longer earn future benefits in the domestic defined benefit pension plan. The benefits are based on years of service and compensation on a final average pay basis, except for certain hourly employees where benefits are fixed per year of service. Charges to expense are based upon costs computed by an independent actuary. Contributions are intended to provide for future benefits earned to date. Additionally, a number of our non-U.S. subsidiaries sponsor defined benefit pension plans cover approximately 10% of all non-U.S. employees. The benefits are typically based upon years of service and compensation. Most of these plans are funded by company contributions to pension funds, which are held for the sole benefit of plan participants and beneficiaries.

The expected return on plan assets component of net periodic benefit cost is determined by applying the assumed expected return on plan assets to the fair value of plan assets. For one of the U.K. pension plans, a market-related value of assets is used in lieu of the fair value of plan assets for this purpose. The net actuarial loss (gain) is amortized to the extent that it exceeds 10% of the greater of the fair value of plan assets and the projected benefit obligation. The amortization period is the average life expectancy of plan participants for most plans. The amortization period for plans with a significant number of active participants accruing benefits is the average future working lifetime of plan participants. The prior service cost (credit) is amortized over the average future working lifetime of plan participants whose prior service benefits were changed.

The net periodic pension cost was \$8.7 million, \$4.3 million and \$11.2 million in 2025, 2024 and 2023, respectively. The net periodic pension cost increased in 2025 compared to 2024, primarily driven by lower expected return on assets and higher

interest costs for both U.S. and Non U.S. Plans. Employer cash contributions were \$16.5 million, \$16.6 million and \$18.1 million in 2025, 2024 and 2023, respectively.

Holding all other factors constant, a decrease in the expected long-term rate of return on plan assets by 0.25 percentage points would have increased 2025 pension expense by \$1.1 million for U.S. pension plans and \$0.6 million for non-U.S. pension plans. Also, holding all other factors constant, a decrease in the discount rate used to determine net periodic pension cost by 0.25 percentage points would have increased 2025 pension expense by less than \$0.1 million for U.S. pension plans and \$0.1 million for non-U.S. pension plans.

#### **Recent Accounting Pronouncements**

Information regarding new accounting pronouncements is included in Item 8 under Note 1 to the Consolidated Financial Statements.

#### **Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

Our cash flows and earnings are subject to fluctuations from changes in interest rates and foreign currency exchange rates. We manage our exposures to these market risks through internally established policies and procedures and, when deemed appropriate, through the use of interest-rate swap agreements and forward exchange contracts. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

Total net debt outstanding was \$1,148.2 million as of December 31, 2025. Interest on loans advanced under the Credit Agreement accrues, at our option, at a rate per annum equal to;

(a) adjusted term SOFR for the applicable interest period plus a margin ranging from 1.50% to 2.25% or

(b) a base rate plus a margin ranging from 0.50% to 1.25%, in each case, with such margin determined based on the lower of the ratings of our senior, unsecured long-term debt and our total net leverage ratio.

The following is an analysis of the potential changes in interest rates and currency exchange rates based upon sensitivity analysis that models effects of shifts in rates. These are not forecasts.

- As of December 31, 2025, a hypothetical 1% increase in prevailing interest rates would increase our variable rate interest expense by approximately \$11.5 million.
- Based on a sensitivity analysis as of December 31, 2025, a 10% change in the foreign currency exchange rates for the year ended December 31, 2025 would have impacted our net earnings by approximately \$8.6 million, due primarily to the British pound and euro. This calculation assumes that all currencies change in the same direction and proportion relative to the U.S. dollar and there are no indirect effects, such as changes in non-U.S. dollar sales volumes or prices.

## Item 8. Financial Statements and Supplementary Data

### MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying Consolidated Financial Statements of Crane Company have been prepared by management in conformity with accounting principles generally accepted in the United States of America and, in the judgment of management, present fairly and consistently the Company's financial position and results of operations and cash flows. These statements by necessity include amounts that are based on management's best estimates and judgments and give due consideration to materiality.

Management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance to the Company's management and board of directors regarding the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2025. In making its assessment, management has utilized the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in its Internal Control—Integrated Framework, released in 2013. Based on our assessment we believe that, as of December 31, 2025, the Company's internal control over financial reporting is effective based on those criteria.

Deloitte & Touche LLP, the independent registered public accounting firm that also audited the Company's Consolidated Financial Statements included in this Annual Report on Form 10-K, audited the internal control over financial reporting as of December 31, 2025, and issued their related attestation report which is included herein.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Crane Company

### Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Crane Company and subsidiaries (the “Company”) as of December 31, 2025 and 2024, the related consolidated statements of operations, comprehensive income, cash flows, and changes in equity, for each of the three years in the period ended December 31, 2025, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2025, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 26, 2026, expressed an unqualified opinion on the Company’s internal control over financial reporting.

### Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

### Revenue – Over-Time Basis — Refer to Note 1 to the financial statements

#### Audit Matter Description

The Company recognizes revenue as they fulfill their performance obligations and transfer control of products to their customers. The Company has certain revenue contracts with the U.S. government or indirectly to the U.S. government through subcontracts. The clauses of those contracts stipulate that any amounts included in work-in-progress are the property of the U.S. government as they own any work-in progress as the contracted product is being built. The Company uses the cost-to-cost method of determining their progress, measuring progress by comparing costs incurred to date to the total estimated costs to provide the performance obligation. In 2025, the Company recognized approximately \$109.1 million in revenue over time related to contracts in progress as of December 31, 2025.

We identified revenue recognized over time as a critical audit matter because of the judgments necessary for management to determine the margin to be used to estimate revenue for the overtime revenue. This required a high degree of auditor judgment when performing audit procedures to audit management’s estimates of margin at completion used to recognize revenue over time and evaluating the results of those procedures.

## How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures performed related to the recognition of revenue recognized over-time included the following, among others:

- We tested the effectiveness of controls related to the revenue recognized over-time, including management's controls over costs incurred to date and estimates of margin at completion, as well as the accurate classification of contracts in the system during the order entry process.
- We selected a sample of contracts with customers that were recognized over time, and we performed the following:
  - Evaluated whether the contracts were properly included in management's calculation of long-term contract revenue based on the terms and conditions of each contract, including whether continuous transfer of control to the customer occurred as progress was made toward fulfilling the performance obligation.
  - Evaluated the appropriateness and consistency of the methods of calculation and assumptions used by management to develop the margin at completion applied to determine the revenue recognized.
- We tested the mathematical accuracy of management's calculation of revenue recognized.
- We evaluated management's ability to estimate future costs and margins at completion accurately by comparing actual costs and margins at completion for similar contracts that were previously completed to management's historical estimates for such contracts.

**Note 1 – Nature of Operations and Significant Accounting Policies***Nature of Operations*

Crane Company has delivered innovation and technology-led solutions for customers since its founding in 1855. Today, Crane is a leading manufacturer of highly engineered components for challenging, mission-critical applications focused on the aerospace, defense, space and process industry end markets. The Company has two reporting segments: Aerospace & Advanced Technologies and Process Flow Technologies. See Note 4, “Segment Information” for the relative size of these segments in relation to the total company (both net sales and total assets).

*Divestiture Engineered Materials*

Effective on January 1, 2025, the Company completed the sale of the Engineered Materials segment for approximately \$208.0 million, on a cash-free and debt-free basis. During the second quarter of 2025, the Company received \$7.8 million related to a final working capital adjustment. In connection with the divestiture, the Company recognized a pre-tax gain of \$43.5 million, recorded in income from discontinued operations.

As a result of the sale, the operating results of Engineered Materials are presented as discontinued operations and, as such, have been excluded from both continuing operations and segment results for all periods presented. Additionally, the assets and liabilities of the Engineered Materials segment were classified as held for sale at December 31, 2024. Throughout these notes, unless otherwise indicated, amounts and activity are presented on a continuing operations basis. See Note 3, “Discontinued Operations,” in the Notes to Financial Statements for additional details.

*Separation*

On March 30, 2022, the Company announced that its Board of Directors unanimously approved a plan to pursue a separation into two independent, publicly-traded companies (the “Separation”).

On April 3, 2023, Crane Holdings, Co. completed the Separation into two independent, publicly-traded companies, Crane NXT, Co. and Crane Company, through a pro-rata distribution (the “Distribution”) of all of the outstanding common stock of Crane Company to the stockholders of Crane Holdings, Co., which on April 3, 2023 was renamed “Crane NXT, Co.” The Distribution was effective at 5:00 p.m., Eastern Time, on April 3, 2023. As a result of the Distribution, Crane Company became an independent public company. Our common stock is listed under the symbol “CR” on the New York Stock Exchange. Due to Crane Company’s larger operations, greater tangible assets, greater fair value and greater net sales, in each case, relative to Crane NXT, Co., among other factors, Crane Company was treated as the “accounting spinor” and therefore was the “accounting successor” to Crane Holdings, Co. for accounting purposes, notwithstanding the legal form of the Separation. Therefore, following the Separation, the historical Consolidated Financial Statements of Crane Company reflect the historical Consolidated Financial Statements of Crane Holdings, Co. with the Payment & Merchandising Technologies segment and other distributed assets and liabilities classified as discontinued operations.

In connection with the Separation on April 3, 2023, Crane Holdings, Co., which was renamed “Crane NXT, Co.,” and Crane Company entered into various agreements to effect the Separation and provide a framework for their relationship after the Separation, including a separation and distribution agreement, a transition services agreement, an employee matters agreement, a tax matters agreement and an intellectual property matters agreement. These agreements provide for the allocation between Crane NXT, Co. and Crane Company of assets, employees, liabilities and obligations (including property and employee benefits and tax-related assets and liabilities) attributable to periods prior to, at, and after the consummation of the Separation and govern certain relationships between Crane NXT, Co. and Crane Company after the Separation. The tax matter agreement includes to a limited extent, indemnifying Crane NXT, Co. for uncertain tax benefits which are attributable to the Company’s business. Such total liability amounts are included in other liabilities on our Consolidated Balance Sheets and were \$1.9 million and \$3.1 million as of December 31, 2025 and 2024, respectively.

The Company recorded \$1.3 million and \$5.0 million of income within Miscellaneous income, net related to such agreements including a reduction of the indemnification liability resulting from the expiration of statute of limitations on certain tax positions, for the years ended December 31, 2025 and 2024, respectively. The Company had a receivable of \$0.2 million as of December 31, 2025 and \$2.0 million as of December 31, 2024, related to the transition services agreement and tax matters agreement. Additionally, as part of the Separation, to a limited extent, the Company has agreed to indemnify Crane NXT, Co. for uncertain tax benefits, which are attributable to the Company’s business.

On April 3, 2023, prior to the consummation of the Separation, the Board of Directors of Crane Company declared and paid a one-time cash dividend in the amount of \$275 million to Crane Holdings, Co., its sole stockholder at that time, as part of establishing the capital structure at Crane NXT, Co.

In connection with the Separation, we distributed net assets of \$804.5 million through equity, including the cash dividend of \$275 million and \$303 million in cash balances. The net assets distributed includes an adjustment of \$9.3 million recorded in the year ended December 31, 2024, to correct the amount previously recognized at the time of the Distribution.

As a result of the Separation, the Payment & Merchandising segment qualified as a discontinued operation and accordingly, the assets, liabilities and results of operations of this segment are reported as discontinued operations. See Note 3 for additional information.

#### *Significant Accounting Policies*

**Accounting Principles.** Our Consolidated Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Consolidated Financial Statements include the accounts of Crane Company and our subsidiaries. All intercompany balances and transactions have been eliminated upon consolidation. As used in these notes, the terms "we," "us," "our," "Crane" and the "Company" mean Crane Company and our subsidiaries unless the context specifically states or implies otherwise.

**Basis of presentation.** Certain amounts in the prior years' Consolidated Financial Statements have been reclassified to conform to the current year presentation.

Due to rounding, numbers presented throughout this report may not add up precisely to totals we provide, and percentages may not precisely reflect the absolute figures.

**Use of Estimates.** Our accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results may differ from those estimated. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period in which they are determined to be necessary. Estimates are used when accounting for such items as asset valuations, allowance for doubtful accounts, depreciation and amortization, impairment assessments, reserve for excess and obsolete inventory, reserve for warranty provision, restructuring provisions, employee benefits, taxes, environmental liability, contingencies and any related insurance recoveries, as applicable.

**Currency Translation.** Assets and liabilities of subsidiaries that prepare financial statements in currencies other than the U.S. dollar are translated at the rate of exchange in effect on the balance sheet date; results of operations are translated at the monthly average rates of exchange prevailing during the year. The related translation adjustments are included in accumulated other comprehensive income (loss) in a separate component of equity.

**Revenue Recognition.** In accordance with Accounting Standards Codification ("ASC") Topic 606 "Revenue from Contracts with Customers," we recognize revenue when control of the promised goods or services in a contract transfers to the customer, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. We account for a contract when both parties have approved and committed to the terms, each party's rights and payment obligations under the contract are identifiable, the contract has commercial substance, and it is probable that we will collect substantially all of the consideration. When shipping and handling activities are performed after the customer obtains control of product, we elect to account for shipping and handling as activities to fulfill the promise to transfer the product. In determining the transaction price of a contract, we exercise judgment to determine the total transaction price when it includes estimates of variable consideration, such as rebates and milestone payments. We generally estimate variable consideration using the expected value method and consider all available information (historical, current, and forecasted) in estimating these amounts. Variable consideration is only included in the transaction price to the extent that it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. We elect to exclude from the transaction price all taxes assessed by a governmental authority that are both imposed on and concurrent with a specific revenue-producing transaction and collected by us from a customer.

We primarily generate revenue through the manufacture and sale of engineered industrial products. Each product within a contract generally represents a separate performance obligation, as we do not provide a significant service of integrating or installing the products, the products do not customize each other, and the products can function independently of each other. Control of products generally transfers to the customer at a point in time, as the customer does not control the products as they are manufactured. We exercise judgment and consider the timing of right to payment, transfer of risk and rewards, transfer of title, transfer of physical possession, and customer acceptance when determining when control transfers to the customer. As a result, revenue from the sale of products is generally recognized at a point in time - either upon shipment or delivery - based on the specific shipping terms in the contract. When products are customized or products are sold directly to the U.S. government or indirectly to the U.S. government through subcontracts, revenue is recognized over time because control is transferred continuously to customers, as the contract progresses. We exercise judgment to determine whether the products have an alternative use to us. When an alternative use does not exist for these products and we are entitled to payment for performance

completed to date which includes a reasonable profit margin, revenue is recognized over time. When a contract with the U.S. government or subcontract for the U.S. government contains clauses indicating that the U.S. government owns any work-in-progress as the contracted product is being built, revenue is recognized over time. The measure of progress applied by us is the cost-to-cost method as this provides the most faithful depiction of the pattern of transfer of control. Under this method, we measure progress by comparing costs incurred to date to the total estimated costs to provide the performance obligation. This method effectively reflects our progress toward completion, as this methodology includes any work-in-process amounts as part of the measure of progress. Costs incurred represent work performed, which corresponds with, and thereby depicts, the transfer of control to the customer. Total revenue recognized and cost estimates are updated on a monthly basis. In 2025, the Company recognized approximately \$109.1 million in revenue over time related to contracts in progress as of December 31, 2025.

When there are multiple performance obligations in a single contract, the total transaction price is allocated to each performance obligation based on their relative standalone selling prices. We maximize the use of observable data inputs and consider all information (including market conditions, segment-specific factors, and information about the customer or class of customer) that is reasonably available. The standalone selling price for our products and services is generally determined using an observable list price, which differs by class of customer.

Revenue recognized from performance obligations satisfied in previous periods (for example, due to changes in the transaction price or estimates), was not material in any period.

Payment for products is due within a limited time period after shipment or delivery, and we generally do not offer extended payment terms. Payment is typically due within 30-90 calendar days of the respective invoice dates. Customers generally do not make large upfront payments. Any advanced payments received do not provide us with a significant benefit of financing, as the payments are meant to secure materials used to fulfill the contract, as opposed to providing us with a significant financing benefit.

When an unconditional right to consideration exists, we record these amounts as receivables. When amounts are dependent on factors other than the passage of time in order for payment from a customer to become due, we record a contract asset. Contract assets represent unbilled amounts that typically arise from contracts for customized products or contracts for products sold directly to the U.S. government or indirectly to the U.S. government through subcontracts, where revenue recognized using the cost-to-cost method exceeds the amount billed to the customer. Contract assets are assessed for impairment and recorded at their net realizable value. Contract liabilities represent advance payments from customers. Revenue related to contract liabilities is recognized when control is transferred to the customer.

We pay sales commissions related to certain contracts, which qualify as incremental costs of obtaining a contract. However, the sales commissions generally relate to contracts for products or services satisfied at a point in time or over a period of time less than one year. As a result, we apply the practical expedient that allows an entity to recognize incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that would have been recognized is one year or less.

See Note 5, "Revenue" for further details.

*Cost of Goods Sold.* Cost of goods sold includes the costs of inventory sold and the related purchase and distribution costs. In addition to material, labor and direct overhead and inventoried cost, cost of goods sold include allocations of other expenses that are part of the production process, such as inbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, amortization of production related intangible assets and depreciation expense. We also include costs directly associated with products sold, such as warranty provisions.

*Engineering, Selling, and Administrative Expenses.* Engineering, selling, and administrative expenses are recognized as incurred. Such expenses include the costs of promoting and selling products and include such items as compensation, advertising, sales commissions and travel. Also included are costs related to compensation for other operating activities such as executive office administrative and engineering functions, as well as general operating expenses such as office supplies, non-income taxes, insurance and office equipment rentals.

*Income Taxes.* We account for income taxes in accordance with ASC Topic 740 "Income Taxes" ("ASC 740") which requires an asset and liability approach for the financial accounting and reporting of income taxes. Under this method, deferred income taxes are recognized for the expected future tax consequences of differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. These balances are measured using the enacted tax rates expected to apply in the year(s) in which these temporary differences are expected to reverse. The effect of a change in tax rates on deferred income taxes is recognized in income in the period when the change is enacted.

Based on consideration of all available evidence regarding their utilization, we record net deferred tax assets to the extent that it is more likely than not that they will be realized. Where, based on the weight of all available evidence, it is more likely than not that some amount of a deferred tax asset will not be realized, we establish a valuation allowance for the amount that, in

management's judgment, is sufficient to reduce the deferred tax asset to an amount that is more likely than not to be realized. The evidence we consider in reaching such conclusions includes, but is not limited to, (1) future reversals of existing taxable temporary differences, (2) future taxable income exclusive of reversing taxable temporary differences, (3) taxable income in prior carryback year(s) if carryback is permitted under the tax law, (4) cumulative losses in recent years, (5) a history of tax losses or credit carryforwards expiring unused, (6) a carryback or carryforward period that is so brief it limits realization of tax benefits, and (7) a strong earnings history exclusive of the loss that created the carryforward and support showing that the loss is an aberration rather than a continuing condition.

We account for unrecognized tax benefits in accordance with ASC 740, which prescribes a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation, based solely on the technical merits of the position. The tax benefit recognized is the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement.

We recognize interest and penalties related to unrecognized tax benefits within the income tax expense line of our Consolidated Statement of Operations, while accrued interest and penalties are included within the related tax liability line of our Consolidated Balance Sheets.

*Earnings Per Share.* Our basic earnings per share calculations are based on the weighted average number of common shares outstanding during the year. Potentially dilutive securities include outstanding stock options, restricted share units, deferred stock units and performance-based restricted share units. The dilutive effect of potentially dilutive securities is reflected in diluted earnings per common share by application of the treasury method. Diluted earnings per share gives effect to all potential dilutive common shares outstanding during the year.

| (in millions, except per share data) For the year ended December 31,      | 2025     | 2024     | 2023     |
|---|----------|----------|----------|
| Net income from continuing operations attributable to common shareholders | \$ 331.7 | \$ 268.2 | \$ 175.9 |
| Income from discontinued operations, net of tax (Note 3)                  | 34.9     | 26.5     | 80.0     |
| Net income attributable to common shareholders                            | \$ 366.6 | \$ 294.7 | \$ 255.9 |
| Average basic shares outstanding  | 57.5     | 57.2     | 56.7     |
| Effect of dilutive share-based awards                                     | 1.1      | 1.1      | 0.8      |
| Average diluted shares outstanding  | 58.6     | 58.3     | 57.5     |
| Earnings per basic share:   |          |          |          |
| Earnings per basic share from continuing operations                       | \$ 5.77  | \$ 4.69  | \$ 3.10  |
| Earnings per basic share from discontinued operations                     | 0.61     | 0.46     | 1.41     |
| Earnings per basic share  | \$ 6.38  | \$ 5.15  | \$ 4.51  |
| Earnings per diluted share:   |          |          |          |
| Earnings per diluted share from continuing operations                     | \$ 5.66  | \$ 4.60  | \$ 3.06  |
| Earnings per diluted share from discontinued operations                   | 0.60     | 0.45     | 1.39     |
| Earnings per diluted share  | \$ 6.26  | \$ 5.05  | \$ 4.45  |

The computation of diluted earnings per share excludes the effect of the potential exercise of stock options when the average market price of the common stock is lower than the exercise price of the related stock options. During 2025, 2024 and 2023, the number of stock options excluded from the computation was 0.2 million, 0.2 million and 0.4 million, respectively.

*Cash and Cash Equivalents.* Cash and cash equivalents include highly liquid investments with original maturities of three months or less that are readily convertible to cash and are not subject to significant risk from fluctuations in interest rates. As a result, the carrying amount of cash and cash equivalents approximates fair value.

*Restricted Cash.* Restricted cash consists of funds held in an escrow account related to the acquisition of Druck, Panametrics, and Reuter-Stokes brands (see Note 16, “Subsequent Events” for further information). We present cash and cash equivalents separately from restricted cash within our consolidated balance sheets. However, we include restricted cash with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown in the consolidated statements of cash flows. A reconciliation of cash, cash equivalents and restricted cash to the consolidated balance sheet follows:

| (in millions) For the year ended December 31,    | 2025       | 2024     | 2023     |
|--|------------|----------|----------|
| Cash and cash equivalents                        | \$ 506.5   | \$ 306.7 | \$ 329.6 |
| Restricted Cash                                  | 1,223.3    | —        | —        |
| Total cash, cash equivalents and restricted cash | \$ 1,729.8 | \$ 306.7 | \$ 329.6 |

*Accounts Receivable, Net.* Accounts receivable are carried at net realizable value. The allowance for doubtful accounts was \$8.4 million and \$8.7 million as of December 31, 2025 and 2024, respectively. The allowance for doubtful accounts activity was not material to our financial results for the years ended December 31, 2025 and 2024. Concentrations of credit risk with respect to accounts receivable are limited due to the large number of customers and relatively small account balances within the majority of our customer base and their dispersion across different businesses. We periodically evaluate the financial strength of our customers and believe that our credit risk exposure is limited.

*Inventories, net.* Inventories consist of the following:

| (in millions) December 31, | 2025     | 2024     |
|----------------------------|----------|----------|
| Finished goods             | \$ 58.6  | \$ 64.2  |
| Work in process            | 106.6    | 102.1    |
| Raw materials              | 211.3    | 214.1    |
| Total inventories, net     | \$ 376.5 | \$ 380.4 |

Inventories, net include the costs of material, labor and overhead and are stated at the lower of cost or net realizable value. Domestic inventories are stated at either the lower of cost or net realizable value using the last-in, first-out (“LIFO”) method or the lower of cost or net realizable value using the first-in, first-out (“FIFO”) method. Inventories held in foreign locations are primarily stated at the lower of cost or market using the FIFO method. The LIFO method is not being used at our foreign locations as such a method is not allowable for tax purposes. Changes in the levels of LIFO inventories have increased cost of sales by \$4.6 million, \$4.0 million and \$4.7 million for the years ended December 31, 2025, 2024 and 2023, respectively. The portion of inventories costed using the LIFO method was 53.6% and 52.6% of consolidated inventories as of December 31, 2025, and 2024, respectively. If inventories that were valued using the LIFO method had been valued under the FIFO method, they would have been higher by \$33.6 million and \$29.0 million as of December 31, 2025 and 2024, respectively. The reserve for excess and obsolete inventory was \$93.1 million and \$81.2 million as of December 31, 2025, and 2024, respectively.

*Valuation of Long-Lived Assets.* We review our long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Examples of events or changes in circumstances could include, but are not limited to, a prolonged economic downturn, current period operating or cash flow losses combined with a history of losses or a forecast of continuing losses associated with the use of an asset or asset group, or a current expectation that an asset or asset group will be sold or disposed of before the end of its previously estimated useful life. Recoverability is based upon projections of anticipated future undiscounted cash flows associated with the use and eventual disposal of the long-lived asset (or asset group), as well as specific appraisal in certain instances. Reviews occur at the lowest level for which identifiable cash flows are largely independent of cash flows associated with other long-lived assets or asset groups. If the future undiscounted cash flows are less than the carrying value, then the long-lived asset is considered impaired and a loss is recognized based on the amount by which the carrying amount exceeds the estimated fair value. Judgments which impact these assessments relate to the expected useful lives of long-lived assets and our ability to realize any undiscounted cash flows in excess of the carrying amounts of such assets, and are affected primarily by changes in the expected use of the assets, changes in technology or development of alternative assets, changes in economic conditions, changes in operating performance and changes in expected future cash flows. Since judgment is involved in determining the recoverable amount of long-lived assets, there is risk that the carrying value of our long-lived assets may require adjustment in future periods.

*Property, Plant and Equipment, net.* Property, plant and equipment, net consists of the following:

| (in millions) December 31,          | 2025     | 2024     |
|-------------------------------------|----------|----------|
| Land                                | \$ 46.2  | \$ 43.8  |
| Buildings and improvements          | 176.4    | 156.2    |
| Machinery and equipment             | 523.4    | 482.9    |
| Gross property, plant and equipment | 746.0    | 682.9    |
| Less: accumulated depreciation      | 467.2    | 421.6    |
| Property, plant and equipment, net  | \$ 278.8 | \$ 261.3 |

Property, plant and equipment is stated at cost and depreciation is calculated by the straight-line method over the estimated useful lives of the respective assets, which range from 10 to 25 years for buildings and improvements and three to 10 years for machinery and equipment. Depreciation expense was \$36.4 million, \$33.4 million and \$29.3 million for the years ended December 31, 2025, 2024 and 2023, respectively.

*Goodwill and Other Intangible Assets.* Our business acquisitions have typically resulted in the recognition of goodwill and other intangible assets. We follow the provisions under ASC Topic 350, "Intangibles – Goodwill and Other" ("ASC 350") as it relates to the accounting for goodwill in the Consolidated Financial Statements. These provisions require that we, on at least an annual basis, evaluate the fair value of the reporting units to which goodwill is assigned and attributed and compare that fair value to the carrying value of the reporting unit to determine if an impairment has occurred. We perform our annual impairment testing during the fourth quarter. Impairment testing takes place more often than annually if events or circumstances indicate a change in status that would indicate a potential impairment. We believe that there have been no other events or circumstances which would more likely than not reduce the fair value of our reporting units below its carrying value. A reporting unit is an operating segment unless discrete financial information is prepared and reviewed by segment management for businesses one level below that operating segment (a "component"), in which case the component would be the reporting unit. As of December 31, 2025, we had three reporting units.

When performing our annual impairment assessment, we compare the fair value of each of our reporting units to our respective carrying value. Goodwill is considered to be potentially impaired when the net book value of the reporting unit exceeds its estimated fair value. Fair values are established primarily by discounting estimated future cash flows at an estimated cost of capital which varies for each reporting unit and which, as of our most recent annual impairment assessment, was 9.0% reflecting the respective inherent business risk of each of the reporting units tested. This methodology for valuing our reporting units (commonly referred to as the Income Method) has not changed since the adoption of the provisions under ASC 350. The determination of discounted cash flows is based on the businesses' strategic plans and long-range planning forecasts, which change from year to year. The revenue growth rates included in the forecasts represent best estimates based on current and forecasted market conditions. Profit margin assumptions are projected by each reporting unit based on the current cost structure and anticipated net cost increases/reductions. There are inherent uncertainties related to these assumptions, including changes in market conditions, and management judgment is necessary in applying them to the analysis of goodwill impairment. In addition to the foregoing, for each reporting unit, market multiples are used to corroborate discounted cash flow results where fair value is estimated based on earnings multiples determined by available public information of comparable businesses. While we believe we have made reasonable estimates and assumptions to calculate the fair value of our reporting units, it is possible a material change could occur. If actual results are not consistent with management's estimates and assumptions, goodwill and other intangible assets may then be determined to be overstated and a charge would need to be taken against net earnings. No impairment charges have been required during the years ended December 31, 2025, 2024 or 2023.

Changes to goodwill are as follows:

| (in millions)                   | Aerospace &<br>Advanced<br>Technologies <sup>(a)</sup> | Process Flow<br>Technologies <sup>(b) (c)</sup> | Total    |
|---------------------------------|--|---|----------|
| Balance as of December 31, 2023 | \$ 202.4   | \$ 374.0  | \$ 576.4 |
| Acquisition                     | 46.2   | 50.3  | 96.5     |
| Currency translation            | (0.1)  | (11.2)  | (11.3)   |
| Balance as of December 31, 2024 | \$ 248.5   | \$ 413.1  | \$ 661.6 |

<sup>(a)</sup> For the year ended December 31, 2024, adjustments within the Aerospace & Advanced Technologies segment of \$46.2 million relate to the acquisition of Vian. See Note 2 for further information.

<sup>(b)</sup> For the year ended December 31, 2024, adjustments within the Process Flow Technologies segment of \$50.3 million relate to the acquisitions of Technifab and CryoWorks. See Note 2 for further information.

<sup>(c)</sup> For the year ended December 31, 2025, adjustments within the Process Flow Technologies segment of \$0.2 million relate to the acquisition of Technifab. See Note 2 for further information.

Intangibles with indefinite useful lives are tested annually for impairment, or when events or changes in circumstances indicate the potential for impairment. If the carrying amount of an indefinite lived intangible asset exceeds its fair value, the intangible asset is written down to its fair value. Fair value is calculated using relief from royalty method. We amortize the cost of definite-lived intangibles over their estimated useful lives.

In addition to annual testing for impairment of indefinite-lived intangible assets, we review all of our definite-lived intangible assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Examples of events or changes in circumstances could include, but are not limited to, a prolonged economic downturn, current period operating or cash flow losses combined with a history of losses or a forecast of continuing losses associated with the use of an asset or asset group, or a current expectation that an asset or asset group will be sold or disposed of before the end of its previously estimated useful life. Recoverability is based upon projections of anticipated future undiscounted cash flows associated with the use and eventual disposal of the definite-lived intangible asset (or asset group), as well as specific appraisal in certain instances. Reviews occur at the lowest level for which identifiable cash flows are largely independent of cash flows associated with other long-lived assets or asset groups and include estimated future revenues, gross profit margins, operating profit margins and capital expenditures which are based on the businesses' strategic plans and long-range planning forecasts, which change from year to year. The revenue growth rates included in the forecasts represent our best estimates based on current and forecasted market conditions, and the profit margin assumptions are based on the current cost structure and anticipated net cost increases or reductions. There are inherent uncertainties related to these assumptions, including changes in market conditions, and management's judgment in applying them to the analysis. If the future undiscounted cash flows are less than the carrying value, then the definite-lived intangible asset is considered impaired and a charge would be taken against net earnings based on the amount by which the carrying amount exceeds the estimated fair value. Judgments that we make which impact these assessments relate to the expected useful lives of definite-lived assets and its ability to realize any undiscounted cash flows in excess of the carrying amounts of such assets, and are affected primarily by changes in the expected use of the assets, changes in technology or development of alternative assets, changes in economic conditions, changes in operating performance and changes in expected future cash flows. Since judgment is involved in determining the recoverable amount of definite-lived intangible assets, there is risk that the carrying value of our definite-lived intangible assets may require adjustment in future periods. Historical results to date have generally approximated expected cash flows for the identifiable cash flow generating level.

As of December 31, 2025, we had \$149.5 million of net intangible assets, of which \$22.9 million were intangibles with indefinite useful lives, consisting of trade names. As of December 31, 2024, we had \$159.9 million of net intangible assets, of which \$21.4 million were intangibles with indefinite useful lives, consisting of trade names.

Changes to intangible assets are as follows:

| (in millions) December 31,                                      | 2025     | 2024     | 2023    |
|---|----------|----------|---------|
| Balance at beginning of period, net of accumulated amortization | \$ 159.9 | \$ 87.1  | \$ 70.7 |
| Additions <sup>(a)</sup> <sup>(b)</sup>                         | —        | 92.4     | 21.1    |
| Amortization expense  | (13.8)   | (17.6)   | (6.1)   |
| Currency translation and other                                  | 3.4      | (2.0)    | 1.4     |
| Balance at end of period, net of accumulated amortization       | \$ 149.5 | \$ 159.9 | \$ 87.1 |

<sup>(a)</sup> For the year ended December 31, 2024, additions of \$92.4 million relate to the acquisitions of Vian, CryoWorks and Technifab. See Note 2 for further information.

<sup>(b)</sup> For the year ended December 31, 2023, additions of \$21.1 million relate to the acquisition of BAUM. See Note 2 for further information.

A summary of intangible assets follows:

| (in millions)                      | Weighted Average Amortization Period of Finite Lived Assets (in years) | December 31, 2025 |                          |          | December 31, 2024 |                          |          |
|------------------------------------|--|-------------------|--------------------------|----------|-------------------|--------------------------|----------|
|                                    |  | Gross Asset       | Accumulated Amortization | Net      | Gross Asset       | Accumulated Amortization | Net      |
| Intellectual property rights       | 16.4   | \$ 82.0           | \$ 44.8                  | \$ 37.2  | \$ 79.8           | \$ 42.4                  | \$ 37.4  |
| Customer relationships and backlog | 20.5   | 194.6             | 83.8                     | 110.8    | 191.0             | 70.2                     | 120.8    |
| Drawings                           | 40.0   | 11.1              | 10.9                     | 0.2      | 11.1              | 10.8                     | 0.3      |
| Other                              | 25.9   | 38.4              | 37.1                     | 1.3      | 37.9              | 36.5                     | 1.4      |
| Total                              | 20.8   | \$ 326.1          | \$ 176.6                 | \$ 149.5 | \$ 319.8          | \$ 159.9                 | \$ 159.9 |

Future amortization expense associated with intangibles is expected to be:

| Year           | (in millions) |
|----------------|---------------|
| 2026           | \$ 12.2       |
| 2027           | \$ 11.4       |
| 2028           | \$ 10.2       |
| 2029           | \$ 10.2       |
| 2030           | \$ 10.2       |
| 2031 and after | \$ 72.4       |

*Accumulated Other Comprehensive (Loss) Income*

The tables below provide the accumulated balances for each classification of accumulated other comprehensive loss, as reflected on the Consolidated Balance Sheets.

| (in millions)  | Defined Benefit<br>Pension and Other<br>Postretirement<br>Items | Currency<br>Translation<br>Adjustment | Total <sup>(a)</sup> |

Recent Accounting Pronouncements - Not Yet Adopted as of December 31, 2025

In November 2024, the FASB issued ASU 2024-03, Income Statement-Reporting Comprehensive Income-Expense Disaggregation *Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. The amendment requires new financial statement disclosures to provide disaggregated information for certain types of expenses, including purchases of inventory, employee compensation, depreciation, and amortization in commonly presented expense captions such as cost of revenue and selling, general and administrative expenses. The amendments in this ASU are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption is permitted. Upon adoption, ASU 2024-03 should be applied on a prospective basis while retrospective application is permitted. We are currently evaluating this guidance to determine the impact on our disclosures.

In September 2025, the FASB issued ASU 2025-06, Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software. The amendments in this update improve the operability of the guidance by removing all references to software development project stages so that the guidance is neutral to different software development methods. This update is effective for annual periods beginning after December 15, 2027, including interim periods within those fiscal years, though early adoption is permitted. We are currently evaluating the potential impact of adopting this new guidance on our consolidated financial statements and related disclosures.

Recent Accounting Pronouncements - Adopted

In December 2023, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The amendments require that public business entities disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold (if the effect of those reconciling items is equal to or greater than 5 percent of the amount computed by multiplying pretax income by the applicable statutory income tax rate). The amendments are effective for fiscal years beginning after December 15, 2024 and may be applied prospectively or retrospectively. We have prospectively adopted this guidance, which did not have an impact on our financial statements, although it did result in expanded income tax-related disclosures, which are included in Note 10 “Income Taxes” to our consolidated financial statements.

The Company considered the applicability and impact of all other Accounting Standards Updates issued by the Financial Accounting Standards Board (“FASB”) and determined them to be either not applicable or are not expected to have a material impact on the Company’s Consolidated Statement of Operations, Balance Sheets and Cash Flows.

**Note 2 – Acquisitions****Technifab Acquisition**

On November 1, 2024, the Company completed the acquisition of Technifab Products, Inc. (“Technifab”) for \$38.8 million on a cash-free and debt-free basis. During the first quarter of 2025, the Company paid \$0.2 million to the seller related to a final working capital adjustment

Technifab is a leading provider of vacuum insulated pipe systems and valves for cryogenic applications. Technifab has been integrated into the Process Flow Technologies segment. The amount allocated to goodwill reflects the expected cost synergies. Goodwill from this acquisition is not deductible for tax purposes.

| Net assets acquired (in millions) |         |
|-----------------------------------|---------|
| Total current assets              | \$ 6.1  |
| Property, plant and equipment     | 5.9     |
| Intangible assets                 | 15.0    |
| Goodwill                          | 19.4    |
| Total assets acquired             | \$ 46.4 |
|                                   |         |
| Total current liabilities         | \$ 2.8  |
| Other liabilities                 | 4.6     |
| Total assumed liabilities         | \$ 7.4  |
| Net assets acquired               | \$ 39.0 |

The amounts allocated to acquired intangible assets, and their associated weighted-average useful lives which were determined based on the period in which the assets are expected to contribute directly or indirectly to our future cash flows, consist of the following:

| Intangible Assets ( <i>dollars in millions</i> ) | Intangible Fair Value | Weighted Average Life (in years) |
|--|-----------------------|----------------------------------|
| Trademarks/Trade names                           | \$ 2.5                | 9.0                              |
| Customer relationships                           | 11.0                  | 12.0                             |
| Backlog  | 1.5                   | 1.0                              |
| <b>Total acquired intangible assets</b>          | <b>\$ 15.0</b>        |                                  |

### **CryoWorks Acquisition**

On May 1, 2024, the Company completed the acquisition of CryoWorks, Inc. (“CryoWorks”) for \$60.7 million on a cash-free and debt-free basis. During the third quarter of 2024, the Company received \$1.6 million from the seller related to a final working capital adjustment.

CryoWorks is a leading supplier of vacuum insulated pipe systems for cryogenic and hydrogen applications. CryoWorks has been integrated into the Process Flow Technologies segment. The amount allocated to goodwill reflects the expected cost synergies. Goodwill from this acquisition is not deductible for tax purposes.

| Net assets acquired ( <i>in millions</i> ) |                |
|--|----------------|
| Total current assets                       | \$ 6.6         |
| Property, plant and equipment              | 0.5            |
| Other assets                               | 1.9            |
| Intangible assets                          | 24.0           |
| Goodwill                                   | 31.1           |
| <b>Total assets acquired</b>               | <b>\$ 64.1</b> |
|  |                |
| Total current liabilities                  | \$ 3.5         |
| Other liabilities                          | 1.5            |
| <b>Total assumed liabilities</b>           | <b>\$ 5.0</b>  |
| <b>Net assets acquired</b>                 | <b>\$ 59.1</b> |

The amounts allocated to acquired intangible assets, and their associated weighted-average useful lives which were determined based on the period in which the assets are expected to contribute directly or indirectly to our future cash flows, consist of the following:

| Intangible Assets ( <i>dollars in millions</i> ) | Intangible Fair Value | Weighted Average Life (in years) |
|--|-----------------------|----------------------------------|
| Trademarks/Trade names                           | \$ 5.0                | 16.0                             |
| Customer relationships                           | 17.5                  | 12.0                             |
| Backlog  | 1.5                   | 1.0                              |
| <b>Total acquired intangible assets</b>          | <b>\$ 24.0</b>        |                                  |

### **Vian Acquisition**

On January 2, 2024, the Company completed the acquisition of Vian Enterprises, Inc. (“Vian”) for \$102.5 million on a cash-free and debt-free basis, and potential additional payments of up to \$7.5 million depending on the resolution of outstanding contingencies. During the third quarter of 2024, the Company received \$3.0 million from the seller related to a final working capital adjustment.

Vian is a global designer and manufacturer of multi-stage lubrication pumps and lubrication system components technology for critical aerospace and defense applications with sole-sourced and proprietary content on commercial and military aircraft platforms. Vian has been integrated into the Aerospace & Advanced Technologies segment. The amount allocated to goodwill reflects the expected cost synergies. Goodwill from this acquisition is not deductible for tax purposes.

|  |                 |
|--|-----------------|
| <b>Net assets acquired (in millions)</b> |                 |
| Total current assets                     | \$ 21.0         |
| Property, plant and equipment            | 6.8             |

| <b>Total assumed liabilities</b>         | <b>\$ 35.3</b>  |
| <b>Net assets acquired</b>               | <b>\$ 99.5</b>  |

The amounts allocated to acquired intangible assets, and their associated weighted-average useful lives which were determined based on the period in which the assets are expected to contribute directly or indirectly to our future cash flows, consist of the following:

| <b>Intangible Assets (dollars in millions)</b> | <b>Intangible Fair Value</b> | <b>Weighted Average Life (in years)</b> |
|--|------------------------------|---|
| Trademarks/trade names                         | \$ 2.0                       | 17.0                                    |
| Customer relationships <sup>(a)</sup>          | 43.0                         | 29.0                                    |
| Manufacturing know-how                         | 3.2                          | 4.0                                     |
| Backlog  | 5.2                          | 1.0                                     |
| <b>Total acquired intangible assets</b>        | <b>\$ 53.4</b>               |   |

<sup>(a)</sup> The useful life of the customer relationship intangible asset related to Vian of 29 years is primarily driven by large customer relationships tied to sole sourced, long-duration aircraft platforms.

### **BAUM Acquisition**

On October 4, 2023, the Company completed the acquisition of Baum lined piping GmbH (“BAUM”) for \$93.5 million on a cash-free and debt-free basis. During the first quarter of 2024, the Company paid \$3.1 million to the seller, related to the final working capital adjustment.

BAUM, is a German-based company that designs, manufactures, and distributes lined piping products primarily focused on chemical and industrial end markets. BAUM has been integrated into the Process Flow Technologies segment.

The allocation of consideration transferred to net assets acquired is as follows:

|  |                 |
|--|-----------------|
| <b>Net assets acquired (in millions)</b> |                 |
| Total current assets                     | \$ 24.7         |
| Property, plant and equipment            | 18.0            |
| Other assets                             | 9.5             |
| Intangible assets                        | 21.1            |
| Goodwill                                 | 49.9            |
| <b>Total assets acquired</b>             | <b>\$ 123.2</b> |
| <b>Total current liabilities</b>         |                 |
| Other liabilities                        | 16.5            |
| <b>Total assumed liabilities</b>         | <b>\$ 29.7</b>  |
| <b>Net assets acquired</b>               | <b>\$ 93.5</b>  |

The amounts allocated to acquired intangible assets, and their associated weighted-average useful lives which were determined based on the period in which the assets are expected to contribute directly or indirectly to our future cash flows, consist of the following:

| <b>Intangible Assets (dollars in millions)</b> | <b>Intangible Fair Value</b> | <b>Weighted Average Life</b> |
|--|------------------------------|------------------------------|
| Trade names                                    | \$ 2.1                       | 16.0                         |
| Customer relationships                         | 17.9                         | 12.0                         |
| Backlog  | 1.1                          | 1.0                          |
| <b>Total acquired intangible assets</b>        | <b>\$ 21.1</b>               |                              |

#### **Valuation of Intangible Assets**

For all acquisitions, the fair values of the trade name and manufacturing know-how intangible assets were determined by using an income approach, specifically the relief-from-royalty approach, which is a commonly accepted valuation approach. This approach is based on the assumption that in lieu of ownership, a firm would be willing to pay a royalty in order to exploit the related benefits of this asset. Therefore, a portion of earnings, equal to the after-tax royalty that would have been paid for the use of the asset, can be attributed to our ownership.

The fair values of the customer relationships and backlog intangible assets were determined by using an income approach which is a commonly accepted valuation approach. Under this approach, the net earnings attributable to the asset or liability being measured are isolated using the discounted projected net cash flows. These projected cash flows are isolated from the projected cash flows of the combined asset group over the remaining economic life of the intangible asset or liability being measured. Both the amount and the duration of the cash flows are considered from a market participant perspective. Our estimates of market participant net cash flows considered historical and projected pricing, operational performance including market participant synergies, aftermarket retention, product life cycles, material and labor pricing, and other relevant customer, contractual and market factors. Where appropriate, the net cash flows were adjusted to reflect the potential attrition of existing customers in the future, as existing customers are expected to decline over time. The attrition-adjusted future cash flows are then discounted to present value using an appropriate discount rate.

Intangible assets are being amortized on a straight-line basis which approximates the economic pattern of benefits.

**Note 3 - Discontinued Operations****Engineered Materials**

A business is classified as held for sale when management having the authority to approve the action commits to a plan to sell the business, the sale is probable to occur during the next 12 months at a price that is reasonable in relation to its current fair value and certain other criteria are met. A business classified as held for sale is recorded at the lower of its carrying amount or estimated fair value less cost to sell. When the carrying amount of the business exceeds its estimated fair value less cost to sell, a loss is recognized and updated each reporting period as appropriate.

Executing on our strategy to focus our growth investments on our two remaining segments, on December 2, 2024, we entered into an agreement to sell our Engineered Materials. In the fourth quarter of 2024, the assets and liabilities of the segment were classified as held for sale, and the segment's results are presented as discontinued operations. This change was applied on a retrospective basis.

Effective January 1, 2025, the Company completed the transaction for approximately \$208.0 million on a cash-free and debt-free basis. During the second quarter of 2025, the Company received \$7.8 million related to a final working capital adjustment.

The following represents financial results from Engineered Materials included in discontinued operations:

| (in millions)                                   | For the year ended December 31, |          |          |

| Income tax provision                            | —                               | —    | 11.4     |
| Income from discontinued operations, net of tax | \$ —                            | \$ — | \$ 52.1  |

**Note 4 – Segment Information**

In accordance with ASC Topic 280, “Segment Reporting,” for purposes of segment performance measurement, we do not allocate to the business segments items that are of a non-operating nature, including charges which occur from time to time related to our legacy environmental liabilities, as such liabilities are not related to current business activities; or corporate organizational and functional expenses of a governance nature. Corporate expenses consist of corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs. Assets of the business segments exclude general corporate assets, which principally consist of cash and cash equivalents, deferred tax assets, certain property, plant and equipment, and certain other assets.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. We account for intersegment sales and transfers as if the sales or transfers were to third parties at current market prices.

The Company’s segments maintain separate financial information. The Chief Operating Decision Maker (“CODM”), who is the Company’s Chief Executive Officer, uses forecast-to-actual variances and year-over-year variances on a monthly basis when assessing segment performance and forecasts in deciding how to allocate resources among the segments. The CODM evaluates the performance of the Company’s segments based on operating profit. We currently have two reporting segments: Aerospace & Advanced Technologies and Process Flow Technologies.

A brief description of each of our current segments is as follows:

**Aerospace & Advanced Technologies**

The Aerospace & Advanced Technologies segment supplies critical components and systems, including original equipment and aftermarket parts, primarily for the commercial aerospace, and the military aerospace, defense and space markets. Its brands have decades of proven experience, and in many cases invented the critical technologies in their respective markets. The business designs and delivers proven systems, reliable components, and flexible power solutions that excel in tough and mission-critical environments. Products and services are organized into six integrated solutions: Sensing Components & Systems, Electrical Power Solutions, Fluid Management Solutions, Landing & Control Systems, and Microwave Solutions.

**Process Flow Technologies**

The Process Flow Technologies segment is a provider of highly engineered fluid handling equipment for mission critical applications that require high reliability. The segment is comprised of Process Valves and Related Products, Commercial Valves, and Pumps and Systems. Process Valves and Related Products include on/off valves and related products for critical and demanding applications in the chemical, oil & gas, power, and general industrial end markets globally. Commercial Valves includes the manufacturing and distribution of valves and related products for the non-residential construction, general industrial, and to a lesser extent, municipal markets. Pumps and Systems include pumps and related products primarily for water and wastewater applications in the industrial, municipal, commercial and military markets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Financial information by reportable segment is set forth below:

| <b>Total Net Sales</b>                             | <b>\$ 2,305.0</b> | <b>\$ 2,131.2</b> | <b>\$ 1,862.1</b> |

*Remaining Performance Obligations*

The transaction price allocated to remaining performance obligations represents the transaction price of firm orders which have not yet been fulfilled, which we also refer to as total backlog. As of December 31, 2025, backlog was \$1,435.4 million. We expect to recognize approximately 81% of our remaining performance obligations as revenue in 2026, an additional 15% by 2027 and the balance thereafter.

*Contract Assets and Contract Liabilities*

Contract assets represent unbilled amounts that typically arise from contracts for customized products or contracts for products sold directly to the U.S. government or indirectly to the U.S. government through subcontracts, where revenue recognized using the cost-to-cost method exceeds the amount billed to the customer. Contract assets are assessed for impairment and recorded at their net realizable value. Contract liabilities represent advance payments from customers. Revenue related to contract liabilities is recognized when control is transferred to the customer. We report contract assets, which are included within "Other current assets" in our Consolidated Balance Sheets, and contract liabilities, which are included within "Accrued liabilities" on our Consolidated Balance Sheets, on a contract-by-contract net basis at the end of each reporting period. Net contract assets and contract liabilities consisted of the following:

| (in millions) December 31, | 2025    | 2024    |
|----------------------------|---------|---------|
| Contract assets            | \$ 71.7 | \$ 65.7 |
| Contract liabilities       | \$ 46.0 | \$ 36.3 |

During 2025 we recognized revenue of \$33.7 million related to contract liabilities as of December 31, 2024.

**Note 6 – Research and Development**

Research and development costs are expensed when incurred and are included in “Engineering, Selling, and administrative” in our Consolidated Statements of Operations.

| (in millions) December 31,     | 2025    | 2024    | 2023    |
|--------------------------------|---------|---------|---------|
| Research and Development Costs | \$ 47.8 | \$ 46.1 | \$ 54.8 |

**Note 7 – Pension and Postretirement Benefits**

*Pension Plan*

In the United States, we sponsor a defined benefit pension plan that covers approximately 10% of all U.S. employees. Effective January 1, 2013, pension eligible non-union employees no longer earn future benefits in the domestic defined benefit pension plan. The benefits are based on years of service and compensation on a final average pay basis, except for certain hourly employees where benefits are fixed per year of service. Charges to expense are based upon costs computed by an independent actuary. Contributions are intended to provide for future benefits earned to date. Additionally, a number of our non-U.S. subsidiaries sponsor defined benefit pension plans cover approximately 10% of all non-U.S. employees. The benefits are typically based upon years of service and compensation. Most of these plans are funded by company contributions to pension funds, which are held for the sole benefit of plan participants and beneficiaries.

*Postretirement Plans*

Postretirement health care and life insurance benefits are provided for certain employees hired before January 1, 1990, who meet minimum age and service requirements.

A summary of the projected benefit obligations, fair value of plan assets and funded status is as follows:

| (in millions) December 31,                                   | Pension Benefits |           | Postretirement Benefits |          |
|--|------------------|-----------|-------------------------|----------|
|  | 2025             | 2024      | 2025                    | 2024     |

In the U.S., 2025 actuarial losses in the projected benefit obligation were primarily the result of a decrease in the discount rate. Other sources of gains or losses such as plan experience, updated census data and minor adjustments to actuarial assumptions generated combined gains of less than 1% of expected year end obligations. In the Non-U.S. countries, 2025 actuarial gains in the projected benefit obligation were primarily the result of increases in discount rates and decreased UK inflation. Other sources of gains or losses such as plan experience combined for losses of approximately 1% of expected year end obligations.

In the U.S., 2024 actuarial gain in the projected benefit obligation were primarily the result of an increase in the discount rate. Other sources of gains or losses such as plan experience, updated census data and minor adjustments to actuarial assumptions generated combined losses of less than 1% of expected year end obligations. In the Non-U.S. countries, 2024 actuarial gains in the projected benefit obligation were primarily the result of increases in discount rates and updated UK mortality. Other sources of gains or losses such as plan experience, updated census data, changes to forecast inflation, mortality table updates and minor adjustments to other actuarial assumptions generated combined losses of less than 1% of expected year end obligations.

Amounts recognized on our Consolidated Balance Sheets consist of:

| (in millions) December 31,                  | Pension Benefits |           | Postretirement Benefits |          |

| Interest credit rate                   | N/A              | N/A    | N/A    | N/A                     | N/A    | N/A    |

The long-term expected rate of return on plan assets assumptions were determined with input from independent investment consultants and plan actuaries, utilizing asset pricing models and considering historical returns. The discount rates used by us for valuing pension liabilities are based on a review of high-quality corporate bond yields with maturities approximating the remaining life of the projected benefit obligations.

In the U.S. plan, the 7.25% expected rate of return on assets assumption for 2025 reflected a long-term target comprised of an asset allocation range of 46% in equity securities, 45% fixed income securities and 9% alternative assets. As of December 31, 2025, the actual asset allocation for the U.S. plan was 42.8% equity securities, 47.5% fixed income securities, 8.3% alternative assets and 1.5% cash and cash equivalents. However, in November 2025, the pension committee voted to reduce the funded

status risk by increasing the allocation to liability matching fixed income investments to 70% reflecting the improved funded status of the U.S. plan over the last year, and this asset reallocation was completed in January 2026.

For the non-U.S. plans, the 5.68% expected rate of return on assets assumption for 2025 reflected a weighted average of the long-term asset allocation targets for our various non-U.S. plans. As of December 31, 2025, the actual weighted average asset allocation for the non-U.S. plans was 7.3% equity securities, 67.3% fixed income securities, 19.7% alternative assets/other and 5.7% cash and cash equivalents.

The assumed health care cost trend rates are as follows:

| December 31,  | 2025   | 2024   |
|---|--------|--------|
| Health care cost trend rate assumed for next year                                 | 7.00 % | 7.25 % |
| Rate to which the cost trend rate is assumed to decline (the ultimate trend rate) | 4.50 % | 4.50 % |
| Year that the rate reaches the ultimate trend rate                                | 2035   | 2035   |

Assumed health care cost trend rates have a significant effect on the amounts reported for our health care plans.

#### *Plan Assets*

Our pension plan target allocations and weighted-average asset allocations by asset category are as follows:

| Asset Category December 31, | Target Allocation | Actual Allocation |      |
|-----------------------------|-------------------|-------------------|------|
|                             |                   | 2025              | 2024 |
| Equity securities           | 15%-55%           | 31 %              | 34 % |
| Fixed income securities     | 30%-75%           | 54 %              | 49 % |
| Alternative assets/Other    | 0%-30%            | 12 %              | 14 % |
| Cash and money market       | 0%-10%            | 3 %               | 3 %  |

Independent investment consultants are retained to assist in executing the plans' investment strategies. A number of factors are evaluated in determining if an investment strategy will be implemented in our pension trusts. These factors include, but are not limited to, investment style, investment risk, investment manager performance and costs. We periodically review investment managers and their performance in relation to our plans' investment objectives.

The primary investment objective of our various pension trusts is to maximize the value of plan assets, focusing on capital preservation, current income and long-term growth of capital and income. The plans' assets are typically invested in a broad range of equity securities, fixed income securities, alternative assets and cash instruments.

Equity securities include investments in large, mid, and small-capitalization companies located in both developed countries and emerging markets around the world. Fixed income securities include government bonds of various countries, corporate bonds that are primarily investment-grade, mortgage-backed securities and other liability hedging assets. Alternative assets include investments in real estate and hedge funds employing a wide variety of strategies.

The fair value of our pension plan assets as of December 31, 2025, by asset category, are as follows:

| (in millions)                                   | Active Markets for Identical Assets Level 1 | Other Observable Inputs Level 2 | Unobservable Inputs Level 3 | Net Asset Value ("NAV") Practical Expedient <sup>(a)</sup> | Total Fair Value |

<sup>(a)</sup> Investments are measured at fair value using the net asset value per share practical expedient, and therefore, are not classified in the fair value hierarchy.

*Cash Flows*

We expect, based on current actuarial calculations, to contribute cash of approximately \$2.0 million to our defined benefit pension plans during 2026. Cash contributions in subsequent years will depend on a number of factors including the investment performance of plan assets.

*Estimated Future Benefit Payments*

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

| Estimated future payments (in millions) | Pension Benefits | Postretirement Benefits |
|---|------------------|-------------------------|
| 2026                                    | \$ 53.6          | \$ 0.4                  |
| 2027                                    | 54.0             | 0.4                     |
| 2028                                    | 55.3             | 0.3                     |
| 2029                                    | 52.5             | 0.2                     |
| 2030                                    | 52.4             | 0.2                     |
| 2031 to 2035                            | 256.6            | 0.9                     |
| Total payments                          | \$ 524.4         | \$ 2.4                  |

*Defined Contribution Plans*

We sponsor savings and investment plans that are available to our eligible employees including employees of our subsidiaries. We made matching contributions to the plans of \$10.2 million, \$9.1 million and \$8.4 million in 2025, 2024 and 2023, respectively.

In addition to participant deferral contributions and company matching contributions on those deferrals, we provide a 3% non-matching contribution to eligible participants. We made non-matching contributions to these plans of \$12.4 million, \$10.8 million and \$9.7 million in 2025, 2024 and 2023, respectively.

**Note 8 – Stock-Based Compensation Plans**

At December 31, 2025, we had stock-based compensation awards outstanding under the Crane Company 2023 Stock Incentive Plan (the “2023 Plan”). The 2023 Plan was approved by the Board of Directors of the Company (the “Board”) on February 27, 2023, and by Crane Holdings, Co. as the sole shareholder of the Company on February 27, 2023. The 2023 Plan authorized the issuance of up to 9,750,000 shares of stock pursuant to awards under the plan.

In accordance with the Employee Matters Agreement entered into between Crane Holdings, Co. and Crane Company, as further described in Note 1, “Basis of Presentation,” previously outstanding equity compensation awards granted under the historical Crane Holdings, Co. 2018 Amended and Restated Stock Incentive Plans prior to the Separation and held by certain executives and employees of Crane Holdings, Co. were adjusted to reflect the impact of the Separation on these awards.

To preserve the aggregate intrinsic value of these equity compensation awards, as measured immediately before and immediately after the Separation, each Crane Holdings, Co. equity-based compensation award was adjusted using either the shareholder method or the replacement method.

Any stock-based compensation award held by an Executive Officer or Non-Employee Director was adjusted using the shareholder method, in which each Crane Holdings, Co. equity compensation award outstanding prior to the Separation was adjusted into a Crane NXT, Co. Equity Compensation Award under one of the continuing Crane Holdings, Co. Stock Incentive Plans and a Crane Company equity compensation award under the Crane Company 2023 Stock Incentive Plan. All other stock based compensation awards were adjusted using the replacement method in which each Crane Holdings, Co. equity compensation award outstanding prior to the Separation was adjusted into either a Crane NXT, Co. equity compensation award under one of the continuing Crane Holdings, Co. Stock Incentive Plans or a Crane Company Equity Compensation Award under the Crane Company 2023 Stock Incentive Plan, based on whether the award holder is employed by Crane NXT, Co. or Crane Company immediately after the Separation.

The stock incentive plans are used to provide long-term incentive compensation through stock options, restricted share units, performance-based restricted share units and deferred stock units.

*Stock Options*

Options are granted under the Stock Incentive Plan to officers and other key employees and directors at an exercise price equal to the closing price on the date of grant. Unless otherwise determined by the Compensation Committee which administers the plan, options become exercisable at a rate of 25% after the first year, 50% after the second year, 75% after the third year and 100% after the fourth year from the date of grant. All options granted to directors and options granted to officers and employees after 2014 expire 10 years after the date of grant.

We determine the fair value of each grant using the Black-Scholes option pricing model. The weighted-average assumptions for grants made during the years ended December 31, 2025, 2024 and 2023 are as follows:

|                         | 2025    | 2024    | 2023    |
|-------------------------|---------|---------|---------|
| Dividend yield          | 0.53 %  | 0.66 %  | 1.57 %  |
| Volatility              | 33.71 % | 32.83 % | 32.33 % |
| Risk-free interest rate | 4.40 %  | 4.12 %  | 3.67 %  |
| Expected lives in years | 7.8     | 7.8     | 7.7     |

Expected dividend yield is based on our dividend rate. Expected stock volatility was determined based upon the historical volatility for the four-year period preceding the date of grant. The risk-free interest rate was based on the yield curve in effect at the time the options were granted, using U.S. constant maturities over the expected life of the option. The expected lives of the awards represent the period of time that options granted are expected to be outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Activity in our stock option plans for the year ended December 31, 2025, were as follows:

| Option Activity                             | Number of Shares<br>(in 000's) | Weighted Average Exercise Price | Weighted Average Remaining Life (Years) |
|---|--------------------------------|---------------------------------|---|
| Options outstanding as of January 1, 2025   | 1,218                          | \$ 61.33                        |   |
| Granted                                     | 50                             | 173.50                          |   |
| Exercised                                   | (189)                          | 50.38                           |   |
| Canceled                                    | (7)                            | 89.89                           |   |
| Options outstanding as of December 31, 2025 | 1,072                          | \$ 68.28                        | 4.5                                     |
| Options exercisable as of December 31, 2025 | 904                            | \$ 58.68                        | 3.9                                     |

Information regarding our stock option activity is as follows:

| (in millions, except fair value per award) December 31, | 2025     | 2024     | 2023     |
|---|----------|----------|----------|
| Weighted-average grant-date fair value per award        | \$ 76.71 | \$ 52.50 | \$ 42.47 |
| Total fair value of options vested                      | \$ 2.5   | \$ 2.7   | \$ 5.7   |
| Total intrinsic value of options exercised              | \$ 23.8  | \$ 22.7  | \$ 24.3  |
| Aggregate intrinsic value of exercisable options        | \$ 113.6 | \$ 95.4  | \$ 67.7  |
| Total proceeds from option exercises                    | \$ 9.5   | \$ 10.5  | \$ 30.3  |
| Tax benefit relating to option exercises                | \$ 5.5   | \$ 4.1   | \$ 5.0   |

Included in our share-based compensation was expense recognized for our stock option awards of \$4.7 million, \$4.0 million and \$4.5 million in 2025, 2024 and 2023, respectively. These amounts include expense related to discontinued operations of \$0.0 million, \$0.1 million and \$0.3 million in 2025, 2024 and 2023, respectively.

As of December 31, 2025, there was \$2.7 million of total future compensation cost related to unvested share-based awards to be recognized over a weighted-average period of 0.91 years.

*Restricted Share Units and Performance-Based Restricted Share Units*

Restricted share units vest at a rate of 25% after the first year, 50% after the second year, 75% after the third year and 100% after the fourth year from the date of grant and are subject to forfeiture restrictions which lapse over time. The vesting of performance-based restricted share units is determined in three years based on relative total shareholder return for Crane Company compared to the S&P Midcap 400 Capital Goods Group, with payout potential ranging from 0% to 200% but capped at 100% if our three-year total shareholder return is negative.

Included in our share-based compensation was expense recognized for our restricted share unit and performance-based restricted share unit awards of \$22.1 million, \$18.5 million and \$14.5 million in 2025, 2024 and 2023, respectively. These amounts include expense related to discontinued operations of \$0.0 million, \$0.3 million and \$0.9 million in 2025, 2024 and 2023, respectively.

The tax benefit for the vesting of the restricted share units was \$7.7 million, \$6.5 million and \$2.0 million as of December 31, 2025, 2024 and 2023, respectively.

As of December 31, 2025, there was \$17.5 million of total future compensation cost related to restricted share unit and performance-based restricted share unit awards, to be recognized over a weighted-average period of 1.30 years.

Changes in our restricted share units for the year ended December 31, 2025, were as follows:

| Restricted Share Unit Activity                     | Restricted Share Units<br>(in 000's) | Weighted Average Grant-Date Fair Value |
|--|--------------------------------------|--|
| Restricted share units as of January 1, 2025       | 390                                  | \$ 97.47                               |
| Restricted share units granted                     | 74                                   | 170.77                                 |
| Restricted share units vested                      | (129)                                | 81.45                                  |
| Restricted share units forfeited                   | (18)                                 | 102.23                                 |
| Performance-based restricted share units granted   | 75                                   | 145.88                                 |
| Performance-based restricted share units vested    | (85)                                 | 71.14                                  |
| Performance-based restricted share units forfeited | (6)                                  | 62.89                                  |
| Restricted share units as of December 31, 2025     | 301                                  | \$ 138.99                              |

#### *Liability Performance-Based Restricted Share Units*

As a result of Separation, certain executives hold performance-based restricted share units (“PRSUs”) that have undergone an equity-to-liability modification and are denominated in Crane NXT, Co. stock. As the PRSUs vest based on the performance of Crane NXT, Co.’s stock, the PRSUs are classified as a liability. The fair value of the PRSU liability was estimated based on a Monte Carlo simulation, which models multiple stock price paths of Crane NXT, Co.’s stock and that of its peer group to evaluate and determine its ultimate expected relative TSR. The awards are fair valued throughout the vesting period via the Monte Carlo simulation.

During the years ended December 31, 2025, 2024, and 2023, the Company recognized \$0.4 million, \$3.5 million and \$7.9 million in share-based compensation expense related to the liability PRSUs, respectively. During the years ended December 31, 2025 and 2024, 88,505 and 101,182 units vested and were settled by Crane NXT Co. The impact from settlement of this liability was reflected on the Consolidated Statement of Changes in Equity as a \$5.7 million and \$6.1 million capital contribution as of December 31, 2025 and 2024, respectively. As of December 31, 2025 and 2024, the total liability related to these awards was \$2.1 million and \$7.4 million, respectively, and included in other liabilities on our Consolidated Balance Sheets.

#### **Note 9 - Leases**

Arrangements that explicitly or implicitly relate to property, plant and equipment are assessed at inception to determine if the arrangement is or contains a lease. Generally, we enter into operating leases as the lessee and recognize right-of-use assets and lease liabilities based on the present value of future lease payments over the lease term.

We lease certain vehicles, equipment, manufacturing facilities, and non-manufacturing facilities. We have leases with both lease components and non-lease components, such as common area maintenance, utilities, or other repairs and maintenance. For all asset classes, we applied the practical expedient to account for each separate lease component and its associated non-lease component(s) as a single lease component.

We identify variable lease payments, such as maintenance payments based on actual activities performed or costs incurred, at lease commencement by assessing the nature of the payment provisions, including whether the payments are subject to a minimum.

Certain leases include options to renew for an additional term or company-controlled options to terminate. We generally determine it is not reasonably certain to assume the exercise of renewal options because there is no economic incentive to renew. As termination options often include penalties, we generally determine it is reasonably certain that termination options will not be exercised because there is an economic incentive not to terminate. Therefore, these options generally do not impact the lease term or the determination or classification of the right-of-use asset and lease liability.

We do not enter arrangements where restrictions or covenants are imposed by the lessor that, for example, relate to incurring additional financial obligations. Furthermore, we also have not entered into any significant sublease arrangements.

We use our collateralized incremental borrowing rate based on the information available at commencement date to determine the present value of future payments and the appropriate lease classification. The rate implicit in the lease is generally unknown, as we generally operate in the capacity of the lessee.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Our Consolidated Balance Sheet includes the following related to leases:

| (in millions) December 31,     | Classification      | 2025           | 2024           |
|--------------------------------|---------------------|----------------|----------------|
| <b>Assets</b>                  |                     |                |                |
| Operating right-of-use assets  | Other assets        | \$ 64.8        | \$ 69.1        |
| <b>Liabilities</b>             |                     |                |                |
| Current lease liabilities      | Accrued liabilities | \$ 13.6        | \$ 13.0        |
| Long-term lease liabilities    | Other liabilities   | 54.4           | 59.3           |
| <b>Total lease liabilities</b> |                     | <b>\$ 68.0</b> | <b>\$ 72.3</b> |

The components of lease cost were as follows:

| (in millions) December 31, | 2025           | 2024           | 2023           |
|----------------------------|----------------|----------------|----------------|
| Operating lease cost       | \$ 19.4        | \$ 17.2        | \$ 16.0        |
| Variable lease cost        | 5.5            | 7.1            | 5.1            |
| <b>Total lease cost</b>    | <b>\$ 24.9</b> | <b>\$ 24.3</b> | <b>\$ 21.1</b> |

The weighted average remaining lease terms and discount rates for our operating leases were as follows:

| December 31,  | 2025  | 2024  |
|---|-------|-------|
| Weighted-average remaining lease term - operating leases (in years) | 6.5   | 6.9   |
| Weighted-average discount rate - operating leases                   | 4.4 % | 4.3 % |

Supplemental cash flow information related to our operating leases were as follows:

| (in millions) December 31,  | 2025    | 2024    | 2023    |
|---|---------|---------|---------|
| Cash paid for amounts included in measurement of operating lease liabilities - operating cash flows | \$ 17.8 | \$ 16.4 | \$ 14.0 |
| Right-of-use assets obtained in exchange for new operating lease liabilities                        | \$ 6.4  | \$ 20.8 | \$ 16.7 |

Future minimum operating lease payments are as follows:

| (in millions)  | December 31,<br>2025 |
|--|----------------------|
| 2026   | \$ 17.7              |
| 2027   | 16.7                 |
| 2028   | 12.6                 |
| 2029   | 8.8                  |
| 2030   | 6.6                  |
| Thereafter   | 21.1                 |
| <b>Total future minimum operating lease payments</b> | <b>\$ 83.5</b>       |
| <b>Imputed interest</b>                              | <b>15.5</b>          |
| <b>Present value of lease liabilities reported</b>   | <b>\$ 68.0</b>       |

**Note 10 – Income Taxes**

*Provision for Income Taxes*

Our income before taxes is as follows:

| (in millions) For year ended December 31, | 2025     | 2024     | 2023     |
|---|----------|----------|----------|
| U.S. operations                           | \$ 312.8 | \$ 207.0 | \$ 127.1 |
| Non-U.S. operations                       | 120.0    | 131.5    | 106.0    |
| Total                                     | \$ 432.8 | \$ 338.5 | \$ 233.1 |

Our provision (benefit) for income taxes consists of:

| (in millions) For the year ended December 31, | 2025     | 2024    | 2023    |
|---|----------|---------|---------|
| Current:                                      |          |         |         |
| U.S. federal tax                              | \$ 58.7  | \$ 39.7 | \$ 36.0 |
| U.S. state and local tax                      | 6.7      | 4.0     | 3.8     |
| Non-U.S. tax                                  | 37.8     | 38.2    | 36.1    |
| Total current                                 | 103.2    | 81.9    | 75.9    |
| Deferred:                                     |          |         |         |
| U.S. federal tax                              | 1.2      | (7.4)   | (13.0)  |
| U.S. state and local tax                      | 0.1      | (1.7)   | (1.5)   |
| Non-U.S. tax                                  | (3.4)    | (2.5)   | (4.2)   |
| Total deferred                                | (2.1)    | (11.6)  | (18.7)  |
| Total provision for income taxes              | \$ 101.1 | \$ 70.3 | \$ 57.2 |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We adopted ASU 2023-09 "Income Taxes (Topic 740): Improvements To Income Tax Disclosures" on a prospective basis beginning with the year ended December 31, 2025.

A reconciliation of the statutory U.S. federal tax rate to our effective tax rate is as follows:

| (in millions, except %) For the year ended December 31, 2025    | Amount   | Percent |
|---|----------|---------|
| US Federal Statutory Tax Rate                                   | \$ 90.9  | 21.0 %  |
| State and Local Income Taxes, Net of Federal Income Tax Effect* | 5.1      | 1.2 %   |
| <b>Foreign Tax Effects</b>                                      |          |         |
| Other Foreign jurisdictions                                     | 9.3      | 2.1 %   |
| <b>Effect of Cross-Boarder Tax Laws</b>                         |          |         |
| Global intangible low-taxed income                              | 11.0     | 2.5 %   |
| Foreign-derived intangible income                               | (7.2)    | (1.7)%  |
| Other   | 2.2      | 0.5 %   |
| <b>Tax Credits</b>  |          |         |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table presents the components of income taxes paid, net of refunds:

| (in millions) For year ended December 31, | 2025           |
|---|----------------|
| Federal                                   | \$ 53.8        |
| State                                     | 5.3            |
| Foreign:                                  |                |
| France                                    | 5.8            |
| United Kingdom                            | 7.6            |
| Other foreign jurisdictions               | 24.0           |
| Total                                     | <u>\$ 96.5</u> |

Income taxes paid, net of refunds, for the periods ended December 31, 2024 and 2023 were \$88.9 million and \$110.5 million.

As of December 31, 2025, we have made the following determinations with regard to our non-U.S. earnings:

| (in millions)      | Permanently<br>reinvested | Not<br>permanently<br>reinvested |
|--------------------|---------------------------|----------------------------------|
| Amount of earnings | \$ 232.9                  | \$ 803.7                         |
| Associated tax     | NA *                      | \$ 10.3                          |

\* Determination of U.S. income taxes and non-U.S. withholding taxes due upon repatriation of this \$232.9 million of earnings is not practicable because the amount of such taxes depends upon circumstances existing in numerous taxing jurisdictions at the time the remittance occurs.

*Tax Related to Comprehensive Income*

During 2025, 2024 and 2023, tax provision (benefit) of \$10.5 million, \$9.2 million and \$3.2 million, respectively, related to changes in pension and post-retirement plan assets and benefit obligations, were recorded to accumulated other comprehensive loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

*Deferred Taxes and Valuation Allowances*

The components of deferred tax assets and liabilities included in our Consolidated Balance Sheets are as follows:

| (in millions) December 31,                                   | 2025              | 2024              |
|--|-------------------|-------------------|
| <b>Deferred tax assets:</b>                                  |                   |                   |
| Tax loss and credit carryforwards                            | \$ 40.5           | \$ 45.5           |
| Inventories  | 33.1              | 30.0              |

| <b>Total deferred tax liabilities</b>                        | <b>\$ (115.6)</b> | <b>\$ (107.8)</b> |
| <b>Net deferred tax asset (liability)</b>                    | <b>\$ (42.4)</b>  | <b>\$ (23.6)</b>  |
| <b>Balance sheet classification:</b>                         |                   |                   |
| Long-term deferred tax assets                                | 3.5               | 11.2              |
| Long-term deferred tax liability                             | (45.9)            | (34.8)            |
| <b>Net deferred tax asset (liability)</b>                    | <b>\$ (42.4)</b>  | <b>\$ (23.6)</b>  |

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of December 31, 2025, valuation allowances were \$40.9 million, including \$40.2 million for loss and credit carryforwards and \$0.7 million for other assets not expected to be realized. At December 31, 2024, valuation allowances were \$46.2 million, including \$45.5 million for loss and credit carryforwards and \$0.7 million for other assets.

As of December 31, 2025, we had U.S. federal, U.S. state, and non-U.S. tax loss and credit carryforwards that will expire, if unused, as follows:

| (in millions)<br>Year of expiration     | U.S.<br>Federal<br>Tax<br>Credits | U.S.<br>State<br>Tax<br>Credits | U.S.<br>State<br>Tax<br>Effectuated<br>Losses | Non- U.S.<br>Tax Effectuated<br>Losses | Total   |
|---|-----------------------------------|---------------------------------|---|--|---------|
| 2026-2030                               | \$ —                              | \$ 0.4                          | \$ 1.1  | \$ 0.8                                 | \$ 2.3  |
| After 2030                              | 1.3                               | 0.3                             | 5.6   | 0.2                                    | 7.4     |
| Indefinite                              | —                                 | 15.7                            | 2.5   | 12.6                                   | 30.8    |
| Deferred tax asset on tax carryforwards | \$ 1.3                            | \$ 16.4                         | \$ 9.2  | \$ 13.6                                | \$ 40.5 |

*Unrecognized Tax Benefits*

A reconciliation of the beginning and ending amount of our gross unrecognized tax benefits, excluding interest and penalties, is as follows:

| (in millions)   | 2025    | 2024   | 2023   |
|---|---------|--------|--------|
| Balance of liability as of January 1,                               | \$ 8.4  | \$ 7.9 | \$ 6.9 |
| Increase as a result of tax positions taken during a prior year     | 0.2     | 0.1    | 0.2    |
| Decrease as a result of tax positions taken during a prior year     | —       | (0.4)  | (0.1)  |
| Increase as a result of tax positions taken during the current year | 2.1     | 1.9    | 1.7    |
| Decrease as a result of settlements with taxing authorities         | —       | —      | —      |
| Reduction as a result of a lapse of the statute of limitations      | (0.4)   | (1.1)  | (0.8)  |
| Balance of liability as of December 31,                             | \$ 10.3 | \$ 8.4 | \$ 7.9 |

As of December 31, 2025, 2024, and 2023, the amount of our unrecognized tax benefits that, if recognized, would affect our effective tax rate was \$12.4 million, \$10.4 million, and \$9.3 million, respectively. The difference between these amounts and those reflected in the table above relates to (1) offsetting tax effects from other tax jurisdictions, and (2) interest expense, net of deferred taxes.

We recognize interest and penalties related to unrecognized tax benefits as a component of our income tax expense. During the years ended December 31, 2025, 2024, and 2023, we recognized interest and penalty (income)/ expense of \$0.5 million, \$0.5 million, and \$0.3 million, respectively, in our Consolidated Statements of Operations. As of December 31, 2025 and 2024, we had accrued \$3.2 million, \$2.7 million, respectively, of interest and penalties related to unrecognized tax benefits on our Consolidated Balance Sheets.

*Income Tax Examinations*

Our income tax returns are generally subject to examination by the U.S. federal, U.S. state and local, and non-U.S. tax authorities. Prior to the separation, Crane Company was included in Crane NXT Co.'s consolidated federal income tax group and consolidated tax return. However, as a result of the separation, as described above in Note 1, Crane Company became an independent public company required to file its own corporate income tax returns. Subject to certain limitations and conditions, we have agreed to indemnify Crane NXT Co., for certain pre-separation tax liabilities. For these reasons, and with few exceptions, the years for which we filed returns that are open to examination are as follows:

| Jurisdiction         | Year        |
|----------------------|-------------|
| U.S. state and local | 2019 - 2024 |
| Non-U.S.             | 2019 - 2024 |

Currently, we and our subsidiaries are under examination in Canada (2013 through 2018).

**Note 11 – Accrued Liabilities**

Accrued liabilities consist of:

| (in millions) December 31, | 2025            | 2024            |
|----------------------------|-----------------|-----------------|
| Employee related expenses  | \$ 117.1        | \$ 116.2        |
| Current lease liabilities  | 13.6            | 13.0            |
| Contract liabilities       | 46.0            | 36.3            |
| Environmental liabilities  | 7.8             | 7.9             |
| Other                      | 84.8            | 129.8           |
| <b>Total</b>               | <b>\$ 269.3</b> | <b>\$ 303.2</b> |

**Note 12 – Other Liabilities**

A summary of the other liabilities is as follows:

| (in millions) December 31,  | 2025           | 2024            |
|-----------------------------|----------------|-----------------|
| Environmental               | \$ 5.1         | \$ 8.6          |
| Long-term lease liabilities | 54.4           | 59.3            |
| Other                       | 28.2           | 38.2            |
| <b>Total</b>                | <b>\$ 87.7</b> | <b>\$ 106.1</b> |

**Note 13 - Commitments and Contingencies**Environmental Matters

For environmental matters, we record a liability for estimated remediation costs when it is probable that we will be responsible for such costs and they can be reasonably estimated. Generally, third party specialists assist in the estimation of remediation costs. The environmental remediation liability as of December 31, 2025 is substantially related to the former manufacturing site in Goodyear, Arizona (the “Goodyear Site”) discussed below.

On August 12, 2022, Crane Holdings, Co., Crane Company, a then wholly-owned subsidiary of Crane Holdings, Co., and Redco Corporation (f/k/a Crane Co. (“Redco”)) a then wholly-owned subsidiary of Crane Company that held liabilities including asbestos liabilities and related insurance assets, entered into a Stock Purchase Agreement (the “Redco Purchase Agreement”) with Spruce Lake Liability Management Holdco LLC (“Redco Buyer”), an unrelated third party long-term liability management company specializing in the acquisition and management of legacy corporate liabilities, whereby Crane Company transferred to Redco Buyer all of the issued and outstanding shares of Redco (the “Redco Sale”). Pursuant to the terms of the Redco Purchase Agreement, Crane Company and Redco Buyer will each indemnify the other for breaches of representations and warranties, breaches of covenants and obligations and certain liabilities, subject to the terms of the Redco Purchase Agreement. Such covenants and obligations include obligations of Crane Company to indemnify Redco and its affiliates for all other historical liabilities of Redco, which include certain potential environmental liabilities. Crane Holdings, Co. guaranteed the full payment and performance of Crane Company’s indemnification obligations under the Redco Purchase Agreement. On April 3, 2023, Crane Holdings, Co. completed the Separation, pursuant to which, among other things, all outstanding shares of Crane Company were distributed to Crane Holdings, Co.’s stockholders. Upon completion of the Separation, pursuant to the terms of the Redco Purchase Agreement, Crane Holdings, Co. was released from its guarantee of Crane Company’s indemnification obligations under the Redco Purchase Agreement. Prior to the effective date of the Redco Sale, the U.S. Department of Justice agreed that Crane Holdings, Co. and, following completion of the Separation, Crane Company will be primarily liable for the Goodyear Site. The New Jersey Department of Environmental Protection agreed to transfer the liability of the Roseland Site to Crane Holdings, Co., and to further transfer this environmental liability to Crane Company upon effectiveness of the Separation. The potential liability for the Crab Orchard Site referenced below remains a direct obligation of Redco. As noted above, however, Crane Company has agreed to indemnify Redco and Redco Buyer against the Goodyear, Roseland, and Crab Orchard environmental liabilities. Thus, references below in this Note 13 to “we”, and “us” refer to Crane Company in its capacity as the primarily responsible party for the Goodyear and Roseland Sites, and as indemnitor to and agent for the Redco Buyer on the Crab Orchard Site.

Goodyear Site

The Goodyear Site was operated by UniDynamics/Phoenix, Inc. (“UPI”), which became an indirect subsidiary in 1985 when Crane Co. (n/k/a Redco) acquired UPI’s parent company, UniDynamics Corporation. UPI was an indirect subsidiary of Crane

Holdings, Co. pre-Separation and became an indirect subsidiary of Crane Company following completion of the Separation. UPI manufactured explosive and pyrotechnic compounds, including components for critical military programs, for the U.S. Government at the Goodyear Site from 1962 to 1993, under contracts with the U.S. Department of Defense and other government agencies and certain of their prime contractors. In 1990, the U.S. Environmental Protection Agency (“EPA”) issued administrative orders requiring UPI to design and conduct certain remedial actions, which UPI has done. Groundwater extraction and treatment systems have been in operation at the Goodyear Site since 1994. On July 26, 2006, we entered a consent decree with the EPA with respect to the Goodyear Site providing for, among other things, a work plan for further investigation and remediation activities (inclusive of a supplemental remediation investigation and feasibility study). During the third quarter of 2014, the EPA issued a Record of Decision (“ROD”) amendment permitting, among other things, additional source area remediation resulting in us recording a charge of \$49.0 million, extending the accrued costs through 2022. Following the 2014 ROD amendment, we continued our remediation activities and explored an alternative strategy to accelerate remediation of the site. During the fourth quarter of 2019, we received conceptual agreement from the EPA on our alternative remediation strategy which is expected to further reduce the contaminant plume. Accordingly, in 2019, we recorded a pre-tax charge of \$18.9 million, net of reimbursements, to extend our forecast period through 2027 and reflect our revised workplan. The remediation of the PGA North Site comprises two main remedial components: a plume management and remediation system (in accordance with the requirements of the 2006 Consent Decree) and source area remediation (to comply with the requirements of the 2014 ROD Amendment). The 2019 conceptual agreement and modified remedial approach focused on enhanced extraction of contaminated groundwater and targeted reinjection of treated groundwater and was designed to accelerate remedial progress at the site. The modified remedial approach required certain capital investments and infrastructure upgrades across the broader plume area, with the final components of this approach commissioned in 2022. In addition, the modified source area treatment remedy was commissioned in late 2023. As part of our approved remedial plans, the Company is required to conduct periodic groundwater monitoring to demonstrate the effectiveness of these system enhancements and provide the EPA with a report evaluating remedial performance, restoration time frames and potential inefficiencies (which may warrant further system upgrade or modifications). The year 2027 was selected as a milestone to enable the collection of 3 to 4 years of post-commissioning data, analysis of data and submission of a performance monitoring report to the EPA with recommendations. This report will document the project restoration time frames for groundwater and outline the future operational scheme, including the key milestones for transitioning from active groundwater treatment to monitoring only. This report will be submitted to the EPA for approval and in combination with regulatory discussions and consultations, and is expected to provide clarity on future remedial requirements at the site and associated costs. The total estimated gross liability was \$12.9 million and \$16.4 million as of December 31, 2025 and 2024, respectively, and as described below, a portion is reimbursable by the U.S. Government. The current portion of the total estimated liability was \$7.8 million as of December 31, 2025 and 2024, and represents our best estimate, in consultation with our technical advisors, of total remediation costs expected to be paid during the next twelve-month period. It is not possible at this point to reasonably estimate the amount of any obligation in excess of our current accruals through the 2027 forecast period because of the aforementioned uncertainties, in particular, the continued significant changes in the Goodyear Site conditions and additional expectations of remediation activities experienced in recent years.

On July 31, 2006, we entered into a consent decree with the U.S. Department of Justice on behalf of the Department of Defense and the Department of Energy pursuant to which, among other things, the U.S. Government reimburses us for 21% of qualifying costs of investigation and remediation activities at the Goodyear Site. As of December 31, 2025 and 2024, we recorded a receivable of \$2.3 million and \$3.0 million, respectively, for the expected reimbursements from the U.S. Government in respect of the aggregate liability as at that date. The receivable is reduced as reimbursements and other payments from the U.S. Government are received.

Other Environmental Matters*Roseland, NJ Site*

The Roseland Site was operated by Resistoflex Corporation (“Resistoflex”), which became an indirect subsidiary in 1985 when Crane Co. (n/k/a Redco) acquired Resistoflex’s parent company, UniDynamics Corporation. Resistoflex manufactured specialty lined pipe and fittings at the site from the 1950s until it was closed in the mid-1980s. We undertook an extensive soil remediation effort at the Roseland Site following our closure and had been monitoring the Site’s condition in the years that followed. In response to changes in remediation standards, in 2014 we began to conduct further site characterization and delineation studies at the Site. We have completed a comprehensive delineation of contaminants of concern in soil, groundwater, surface water, sediment, and indoor air in certain buildings, as well as required soil and groundwater remediation at the site all in accordance with the New Jersey Department of Environmental Protection (“NJDEP”) guidelines and directives. We completed our remediation action reports and subsequently submitted our permit applications for soil and groundwater in April 2021 and March 2024, respectively. Our permit application for soil was accepted by the NJDEP in May 2025, and we expect feedback on our groundwater permit application within two years. We anticipate that only periodic inspections and monitoring will be required at the site for the near to medium term.

*Marion, IL Site*

Crane Co. (n/k/a Redco) has been identified as a potentially responsible party (“PRP”) with respect to environmental contamination at the Crab Orchard National Wildlife Refuge Superfund Site (the “Crab Orchard Site”). The Crab Orchard Site is located near Marion, Illinois, and consists of approximately 55,000 acres. Beginning in 1941, the United States used the Crab Orchard Site for the production of ordnance and other related products for use in World War II. In 1947, about half of the Crab Orchard Site was leased to a variety of industrial tenants whose activities (which continue to this day) included manufacturing ordnance and explosives. UniDynamics Corporation formerly leased portions of the Crab Orchard Site and conducted manufacturing operations at the Crab Orchard Site from 1952 until 1964. General Dynamics Ordnance and Tactical Systems, Inc. (“GD-OTS”) is in the process of conducting a remedial investigation and feasibility study (“RI-FS”) for portions of the Crab Orchard Site, which include areas where UniDynamics maintained operations, pursuant to an Administrative Order on Consent (the “AOC”). A remedial investigation report was approved in February 2015, and work on the feasibility study is underway. It is unclear when the final feasibility study will be completed, or when a final Record of Decision (“ROD”) may be issued. As noted above, we have agreed to indemnify Redco against the Crab Orchard environmental liabilities, and accordingly we act as Redco’s agent with respect to such liabilities.

GD-OTS asked Crane Co. (n/k/a Redco) to participate in a voluntary, multi-party mediation exercise with respect to response costs that GD-OTS has incurred or will incur in performing its obligations under the AOC, and Crane Co. (n/k/a Redco), the U.S. Government, and other PRPs entered into a non-binding mediation agreement in 2015 (we have since stepped into Redco’s position as a participant in the mediation). The first phase of the mediation, involving certain former munitions or ordnance storage areas, began in November 2017, but did not result in a multi-party settlement agreement. Subsequently, Redco entered discussions directly with GD-OTS and reached an agreement, as of July 13, 2021, to contribute toward GD-OTS’s past RI-FS costs associated with the first-phase areas for an immaterial amount. We, as indemnitor, have also agreed to pay a modest percentage of future RI-FS costs and the United States’ claimed past response costs relative to the first-phase areas, a sum that has proven to be and that we expect to continue to be, in the aggregate, an immaterial amount. We understand that GD-OTS has also reached agreements with the U.S. Government and other participating PRPs related to the first-phase areas of concern.

Ensuing negotiations between GD-OTS, the U.S. Government and remaining participants with respect to resolution of the U.S. Government’s liability for, and contribution claims with respect to, RI/FS costs associated with the remaining areas of the site, including those portions of the Crab Orchard Site where Redco’s predecessor conducted manufacturing and research activities, have resulted in the consummation of a consent decree for resolving the U.S. Government’s share of RI/FS costs, and our liability to the United States for its claimed past response costs, which was entered by the United States District Court for the Southern District of Illinois on June 12, 2025. In addition we have entered into separate settlement and escrow agreements to memorialize the parties’ agreement with respect to their respective contributions to the United States’ response costs, pursuant to which we made an immaterial payment.

There has not been a resolution of GD-OTS’ claim against us for costs that GD-OTS has incurred and expects to incur in performing its obligations under the AOC. We at present cannot predict when any determination of the ultimate allocable share of GD-OTS response costs for which we may be liable is likely to be completed. Further none of these discussions, or the recently-entered consent decree, address responsibility for the performance of, or payment of costs incurred in connection with, any remedial design or remedial action that may be required pursuant to the ROD (when it is ultimately issued). It is not possible at this time to reasonably estimate the total amount of any obligation for remediation of the Crab Orchard Site as a whole because the allocation among PRPs, selection of remediation alternatives, and concurrence of regulatory authorities

have not yet advanced to the stage where a reasonable estimate can be made. Insurers with contractual coverage obligations for this site have been notified of this potential liability and have been providing coverage, subject to reservations of rights.

LyondellBasell Chemical Leak

In July 2023, Crane Company, along with certain of its subsidiaries (“Crane”), were added as defendants in ongoing product liability/personal injury lawsuits filed by 58 victims of a 2021 chemical leak incident that occurred at a LyondellBasell facility in La Porte, Texas. The multi-district lawsuits were consolidated for proceedings in state court in Harris County, Texas, and were pending since 2021, when the initial set of defendants were sued. Crane was alleged to have manufactured a valve involved in the incident. Plaintiffs also added other defendants to the suits in July 2023 who allegedly either sold or serviced the subject valve or a valve accessory, and discovery for the newly added defendants began moving forward in February 2024. Crane had valid defenses, and insurance coverage that attached after a modest self-insured retention. All of our insurance providers were timely notified of this potential liability and cooperated with Crane as it engaged in the litigation process. An initial settlement agreement was reached with a portion of the claimants in September 2024, and final settlement agreements were reached with all remaining claimants in February 2025. The entire settlement amount, except for our modest deductible obligation, was within our coverage limits and the insurance carriers have fully funded the settlements as of June 30, 2025. There is no material loss related to this matter as it was covered by insurance.

Marion NC Site Hurricane Damage and Recovery

In September 2024, our manufacturing site in Marion, North Carolina was directly affected by flooding from Hurricane Helene. Our insurance covered the repair or replacement of assets that suffered damage or loss and also provided for business interruption coverage, which included lost profits, and reimbursement for other expenses and costs that have been incurred relating to the damages and losses suffered. The recovery related to business interruption was recognized when realized and received. We worked with our insurance carrier to assess the damage and ascertain the amount of insurance recoveries due to us as a result of the damage and loss we incurred, as such the timing of insurance proceeds lagged behind the actual losses incurred. As of December 31, 2025, the insurance claim has been settled and no additional proceeds are expected to be recovered and no additional costs are expected to be incurred.

For the year ended December 31, 2025 and 2024, we incurred expenses of \$6.0 million and \$23.3 million, respectively related to damages caused by the hurricane, which included professional fees to restore and maintain the site. These costs are included in Engineering, selling and administrative expenses in the Consolidated Statements of Operations. On a cumulative basis, we incurred expenses of \$29.3 million related to damage caused by the hurricane and received corresponding insurance recoveries of \$31.7 million, and recorded a net gain of \$2.4 million which includes the \$2.9 million gain from insurance recoveries on impaired property, plant and equipment, less the deductible of \$0.5 million recognized in 2024. During the year ended December 31, 2025, we also received insurance proceeds for lost profits \$9.3 million, included in Miscellaneous income, net in the Consolidated Statements of Operations.

The following table summarizes the components of Loss from natural disaster, net of insurance recoveries and business interruption proceeds:

| (in millions)  |      |       |      |        |
|--|------|-------|------|--------|
| For the year ended December 31,  | 2025 |       | 2024 |        |
| Site clean-up and remediation costs                                      | \$   | 4.7   | \$   | 18.7   |
| Impairment and Repairs of property, plant and equipment                  |      | 0.9   |      | 2.3    |
| Impairment and rework of inventory                                       |      | 0.1   |      | 1.8    |
| Other  |      | 0.3   |      | 0.5    |
| Total expenses and losses  | \$   | 6.0   | \$   | 23.3   |
| Insurance recoveries received  | \$   | (6.0) | \$   | (20.0) |
| Insurance recoveries to be received                                      |      | —     |      | 2.8    |
| Loss from natural disaster, net of insurance recoveries                  | \$   | —     | \$   | 0.5    |
| Insurance proceeds for lost profits                                      | \$   | 9.3   | \$   | —      |
| Gain from insurance recoveries on impaired property, plant and equipment | \$   | 2.9   | \$   | —      |

Other Proceedings

We regularly review the status of lawsuits, claims and proceedings that have been or may be asserted against us relating to the conduct of our business, including those pertaining to product liability, including government contracting violations, patent infringement, commercial, employment, employee benefits, environmental and stockholder matters. We record a provision for a liability for such matters when it is considered probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions, if any, are reviewed quarterly and adjusted as additional information becomes available. If either or both of the criteria are not met, we assess whether there is at least a reasonable possibility that a loss, or additional losses, may have been incurred. If there is a reasonable possibility that a loss or additional loss may have been incurred for such matters, we disclose the estimate of the amount of loss or range of loss, disclose that the amount is immaterial, or disclose that an estimate of loss cannot be made, as applicable. We believe that as of December 31, 2025, there was no reasonable possibility that a material loss, or any additional material losses, may have been incurred for such matters, and that adequate provision has been made in our financial statements for the potential impact of all such matters.

**Note 14 – Financing**

Our debt as of December 31, 2025 and 2024 consisted of the following:

| (in millions) December 31,   | 2025       | 2024     |
|------------------------------|------------|----------|
| Term Facility <sup>(a)</sup> | \$ 898.2   | \$ 247.0 |
| Revolving Facility           | 250.0      | —        |
| Total long-term debt         | \$ 1,148.2 | \$ 247.0 |

<sup>(a)</sup> Debt issuance costs totaled \$1.8 million and \$0.5 million as of December 31, 2025 and 2024, respectively, and have been netted against the aggregate principal amount.

On September 30, 2025, Crane Company entered into a credit agreement (the “Credit Agreement”), by and among the Company, as borrower, CR Holdings, C.V., a subsidiary of the Company, as a subsidiary borrower, the lenders and issuing banks party thereto and JPMorgan Chase Bank, N.A., as administrative agent. The Credit Agreement provides for a senior unsecured delayed draw term loan facility in an aggregate principal amount of \$900 million (the “Term Facility”), which matures on September 30, 2030, and a senior unsecured revolving facility in an aggregate committed amount of \$900 million (the “Revolving Facility”), which also matures on September 30, 2030. Debt refinancing fees associated with the Revolving Facility were \$3.8 million, and are included in Other assets on the Consolidated Balance Sheets.

On December 29, 2025, the Company borrowed \$900 million under the Term Facility and an additional \$250 million under the Revolving Facility. The borrowings under the Term Facility and Revolving Facility were used, along with cash on-hand, to fund the consummation of the Company’s previously announced January 2026 acquisitions of Druck, Panametrics Reuter-Stokes, and optek-Danulat.

During the year ended December 31, 2025, the Company made principal repayments of \$247.5 million on the 2023 Term Facility. In connection with the entry into the Credit Agreement, the Company’s existing credit agreement, dated as of March 17, 2023, was terminated.

The Revolving Facility allows us to borrow, repay and re-borrow funds from time to time prior to the maturity of the Revolving Facility without any penalty or premium, subject to customary borrowing conditions for facilities of this type and the reimbursement of breakage costs. Borrowings under the Term Facility are prepayable without premium or penalty, subject to customary reimbursement of breakage costs. Borrowings made in U.S. dollars shall bear interest based, at the Company’s option, (i) on an alternate base rate plus a margin, or (ii) on a term SOFR rate plus a margin. Borrowings made in Euros shall bear interest based on an adjusted EURIBOR rate plus a margin. Borrowings made in Canadian Dollars shall bear interest based on an adjusted CORRA rate plus a margin as described below. The margin for each of the foregoing rates (other than the alternate base rate) ranges from 1.50% to 2.25% based on the Company’s consolidated total net leverage ratio (the “Pricing Ratio”). The margin for alternate base rate borrowings ranges from 0.50% to 1.25% depending on the Pricing Ratio. A commitment fee on the daily unused portion of the commitments under the Revolving Facility will accrue at a rate per annum ranging from 0.20% to 0.35% depending on the Pricing Ratio.

The Company will be required to repay borrowings under the Term Facility on the last day of each fiscal quarter, commencing with the last day of the fifth full fiscal quarter ending after the Term Facility Funding Date (such day, the “Amortization Commencement Date”), in an amount equal to (i) with respect to the last day of each of the first through fourth full fiscal quarters ending on or after the Amortization Commencement Date, 0.625% of the aggregate principal amount of the Term Loans made on the Term Facility Funding Date and (ii) thereafter, 1.25% of the aggregate principal amount of the Term Loans made on the Term Facility Funding Date. The Revolving Facility is not subject to interim amortization.

The Credit Agreement contains representations and warranties and affirmative and negative covenants customary for credit facilities of this type, including limitations on the Company and its subsidiaries with respect to indebtedness, liens, mergers,

consolidations, liquidations and dissolutions, sales of all or substantially all assets and transactions with affiliates. The Credit Agreement also requires the Company to maintain, as of the last day of each fiscal quarter, (i) a consolidated total net leverage ratio of no greater than 3.75 to 1.00, although such level may, at the Company’s option, be increased by 0.25 upon the consummation of certain permitted acquisitions for certain periods and (ii) a consolidated interest coverage ratio of no greater than 3.00 to 1.00. The Company was in compliance with all such covenants as of December 31, 2025.

*Other* - As of December 31, 2025 and 2024, the Company had open standby letters of credit of \$37.0 million and \$32.9 million, respectively. The standby letters of credit were issued pursuant to Letter of Credit Reimbursement Agreements.

As of December 31, 2025, our total debt to total capitalization ratio was 35.8%, computed as follows:

| (in millions)                        |            |
|--------------------------------------|------------|
| Total debt                           | \$ 1,148.2 |
| Equity                               | 2,063.4    |
| Capitalization                       | \$ 3,211.6 |
| Total indebtedness to capitalization | 35.8 %     |

### Note 15 - Fair Value Measurements

Accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are to be considered from the perspective of a market participant that holds the asset or owes the liability. The standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The standards describe three levels of inputs that may be used to measure fair value:

**Level 1:** Quoted prices in active markets for identical or similar assets and liabilities.

**Level 2:** Quoted prices for identical or similar assets and liabilities in markets that are not active or observable inputs other than quoted prices in active markets for identical or similar assets and liabilities. Level 2 assets and liabilities include over-the-counter derivatives, principally forward foreign exchange contracts, whose value is determined using pricing models with inputs that are generally based on published foreign exchange rates and exchange traded prices, adjusted for other specific inputs that are primarily observable in the market or can be derived principally from or corroborated by observable market data.

**Level 3:** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

#### Valuation Technique

The carrying value of our financial assets and liabilities, including cash and cash equivalents, accounts receivable, commercial paper and accounts payable approximate fair value, without being discounted, due to the short periods during which these amounts are outstanding.

We are exposed to certain risks related to our ongoing business operations, including market risks related to fluctuation in currency exchange. We use foreign exchange contracts to manage the risk of certain cross-currency business relationships to minimize the impact of currency exchange fluctuations on our earnings and cash flows. We do not hold or issue derivative financial instruments for trading or speculative purposes. Foreign exchange contracts not designated as hedging instruments had a notional value of \$21.2 million and \$18.3 million as of December 31, 2025 and 2024, respectively. Our derivative assets and liabilities include foreign exchange contract derivatives that are measured at fair value using internal models based on observable market inputs such as forward rates and interest rates. Based on these inputs, the derivatives are classified within Level 2 of the valuation hierarchy. Such derivative receivable amounts are recorded within “Other current assets” on our Consolidated Balance Sheets and was \$1.7 million as of December 31, 2025. The Company had no such derivative receivable as of December 31, 2024. Derivative liability amounts are recorded within “Accrued liabilities” on our Consolidated Balance Sheets and was \$1.1 million as of December 31, 2024. The Company had no such derivative payable as of December 31, 2025.

**Note 16 – Subsequent Events**

On January 1, 2026, the Company completed the acquisition of Druck, Panametrics and Reuter-Stokes. The Druck, Panametrics and Reuter-Stokes brands are all leading providers of sensor-based technologies for aerospace, nuclear and process industries. The Company is currently assessing the fair value of the identifiable net assets acquired.

On January 1, 2026, the Company completed the acquisition of optek-Danulat (“Optek”). Optek is a leading provider of inline process control optical measurement solutions for biopharma, pharmaceutical and other demanding markets. The Company is currently assessing the fair value of the identifiable net assets acquired.

The aggregate purchase price for the aforementioned acquisitions was approximately \$1,300 million on a cash-free and debt-free basis, subject to post-closing adjustments. The acquisitions were primarily funded through a combination of the \$900 million term loan, \$250 million provided through the revolving credit facility and cash on-hand.

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None

**Item 9A. Controls and Procedures**

*Evaluation of Disclosure Controls and Procedures.* The Company’s Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company’s disclosure controls and procedures as of the end of the year covered by this annual report. The Company’s disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that are filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms and the information is accumulated and communicated to the Company’s Chief Executive Officer and Principal Financial Officer to allow timely decisions regarding required disclosure. Based on this evaluation, the Company’s Chief Executive Officer and Principal Financial Officer have concluded that these controls are effective as of the end of the year covered by this annual report.

*Change in Internal Controls over Financial Reporting.* During the fourth quarter ended December 31, 2025, there have been no changes in the Company’s internal control over financial reporting, identified in connection with our evaluation thereof, that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

*Design and Evaluation of Internal Control over Financial Reporting.* Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we included a report of our management’s assessment of the design and effectiveness of our internal controls as part of this Annual Report on Form 10-K for the year ended December 31, 2025. Our independent registered public accounting firm also attested to, and reported on, our management’s assessment of the effectiveness of internal control over financial reporting. Our management’s report and our independent registered public accounting firm’s attestation report are set forth in Item 8 of this Annual Report on Form 10-K under the captions entitled “Management’s Responsibility for Financial Reporting” and “Report of Independent Registered Public Accounting Firm.”

## **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and the Board of Directors of Crane Company

### **Opinion on Internal Control over Financial Reporting**

We have audited the internal control over financial reporting of Crane Company and subsidiaries (the “Company”) as of December 31, 2025, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2025, based on criteria established in Internal Control — Integrated Framework (2013) issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2025, of the Company and our report dated February 26, 2026, expressed an unqualified opinion on those financial statements.

### **Basis for Opinion**

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying “Management’s Responsibility for Financial Reporting” appearing in Item 8. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

### **Definition and Limitations of Internal Control over Financial Reporting**

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Part III

### Item 10. Directors, Executive Officers and Corporate Governance

The information required by Item 10 is incorporated by reference to the definitive proxy statement with respect to the 2026 Annual Meeting of Shareholders which the Company expects to file with the Commission pursuant to Regulation 14A on or about March 13, 2026 except that such information with respect to Executive Officers of the Registrant is included, pursuant to Instruction 3, paragraph (b) of Item 401 of Regulation S-K, under Part I. The Company's Corporate Governance Guidelines, the charters of its Management Organization and Compensation Committee, its Nominating and Governance Committee and its Audit Committee and its Code of Ethics are available at [www.craneco.com/governance](http://www.craneco.com/governance). The information on our website is not part of this report.

We have adopted insider trading policies and procedures governing the purchase, sale, and other dispositions of securities of Crane by directors, officers, and employees that we believe are reasonably designed to promote compliance with insider trading laws, rules and regulations, and applicable NYSE listing standards. Our insider trading policy states, among other things, that our directors, officers, and employees are prohibited from trading in such securities while in possession of material, nonpublic information. Our Policy On Trading In Company Stock is filed as an exhibit to this Annual Report on Form 10-K.

### Item 11. Executive Compensation

The information required by Item 11 is incorporated by reference to the definitive proxy statement with respect to the 2026 Annual Meeting of Shareholders which the Company expects to file with the Commission pursuant to Regulation 14A on or about March 13, 2026.

### Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Except for the information required by Section 201(d) of Regulation S-K which is set forth below, the information required by Item 12 is incorporated by reference to the definitive proxy statement with respect to the 2026 Annual Meeting of Stockholders which the Company expects to file with the Commission pursuant to Regulation 14A on or about March 13, 2026.

| As of December 31, 2025:                                   | Number of securities to be issued upon exercise of outstanding options, warrants and rights | Weighted average exercise price of outstanding options | Number of securities remaining available for future issuance under equity compensation plans |
|--|---|--|--|
|  | (a)   | (b)  | (c)  |
| Equity compensation plans approved by security holders:    |   |  |  |
| Crane Company 2023 Stock Plan <sup>(1)</sup>               | 1,698,135   | \$ 68.28   | 7,092,615  |
| Equity compensation plans not approved by security holders | —   | \$ —   | —  |
| <b>Total</b>   | <b>1,698,135</b>  | <b>\$ 61.33</b>  | <b>7,092,615</b>   |

(1) Column (a) includes 206,635 restricted share units ("RSUs"), 149,868 deferred stock units ("DSUs") and 269,344 performance-based restricted share units ("PRSUs"), assuming the maximum potential payout percentage. Actual numbers of shares may vary, depending on actual performance. If the PRSUs included in this total vest at the target performance level as opposed to the maximum level, the aggregate awards outstanding would be 1,563,463. Column (b) does not take RSUs, PRSUs or DSUs into account because they do not have an exercise price.

### Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by Item 13 is incorporated by reference to the definitive proxy statement with respect to the 2026 Annual Meeting of Shareholders which the Company expects to file with the Commission pursuant to Regulation 14A on or about March 13, 2026.

## Item 14. Principal Accountant Fees and Services

The information required by Item 14 is incorporated by reference to the definitive proxy statement with respect to the 2026 Annual Meeting of Shareholders which the Company expects to file with the Commission pursuant to Regulation 14A on or about March 13, 2026.

## Item 15. Exhibits and Financial Statement Schedules

## EQUAL EMPLOYMENT OPPORTUNITY POLICY

Crane Company is an equal opportunity employer. It is the policy of the Company to recruit, hire, promote and transfer to all job classifications without regard to race, color, creed, religion, national origin or ancestry, citizenship or immigration status, age, sex, pregnancy, marital status, sexual orientation or gender identity, physical or mental disability, genetic information, uniform service member status, veteran status, or any other characteristics protected by law in all aspects of the employment process and relationship.

## ENVIRONMENT POLICY

Crane Company is committed to protecting the environment by taking responsibility to prevent serious or irreversible environmental degradation through efficient operations and activities. The Company recognizes environmental management among its highest priorities and has established policies and programs that are integral and essential elements of the business plan of each of the business units.

## HEALTH AND SAFETY POLICY

Crane Company is committed to providing a safe and healthy workplace for all employees. Occupational health and safety is an integral part of all business operations and a fundamental component of the Company's long-term business strategy. Our concern with the health and safety of our employees, customers, independent contractors, and vendors is a fundamental responsibility of the Company.
